(d) The difference between the cost price of Rs.8 and the selling price in the North-West Frontier Province at present Rs20 per seer is reckoned as duty and classified in the accounts as "gain on sale proceeds of excise opium."

(b) In Baluchistan only Government Excise Opium is allowed to be sold and the difference between the cost price (Rs 8-0) and the selling price (Rs 20 a seer) reckoned as duty and classified in the accounts as "gain on sale-proceeds of excise opium."

PROVINCIAL RATES

[FOR TABLE, SEE PAGE 258]

This section (table No. 112) shows the details of revenue derived from Provincial Rates. The items of any importance now included under this head of revenue are the rates and cesses on lands levied in Bengal for expenditure on roads, schools, canals, railways, etc.; the assessment on Ward's Estates for establishment charges in Bengal, Bihar and Orissa, the United Provinces, the Punjab, Assam, and the North-West Frontier Province. The most important item is the assessment on Ward's Estates for establishment charges, which alone contributed nearly 92 per cent of the total revenue derived from provincial rates in 1916-17. This is a rate levied under Act X of 1892 at 5 per cent on the gross income of private estates under Government management. The total receipts under this item amounted to about Rs. 4,33,000 in 1916-17.

The total receipts are now less than one per cent of the total Indian revenue, and amounted to Rs. 4.7 lakhs in 1916-17 as compared with Rs. 6.3 lakhs in 1915-16. The expenditure in 1912-13 on account of establishment and other charges (incurred only in Bengal and Bihar and Orissa) was about Rs. 73,000. Since then there has been no expenditure.

CUSTOMS REVENUE

[FOR TABLES, SEE PAGES 260 TO 269.]

The first two tables (Nos. 113 and 114) of the series state the amount of duty collected on imports and exports separately as credited in the Customs Houses. The others (Nos. 115 and 116) state the rates of duty imposed on all principal articles of merchandise by the schedules of the various Tariff Acts passed since 1882 and thus constitute a history of the legislation respecting customs duties since that year.

Indian Customs revenue is mainly derived from the general import duty, certain special import duties such as those on arms, liquors, sugar, petroleum, tobacco, etc., and export duties on rice, jute and tea. General import duties, which were abolished in 1882, were reimposed in 1894, the general rate of duty on commodities imported into British India by sea being fixed at 5 per cent *ad valorem*. Cotton was exempted in 1894 when the general duties were revived; in December 1894, a 5 per cent *ad valorem* duty was imposed on imported cotton goods and yarns, while an excise duty of 5 per cent was imposed on all yarns of counts above 20 spun at power mills in British India; in February 1896, cotton yarns and threads imported or manufactured in India were freed from duty, while a uniform 3½ per cent *ad valorem* duty was imposed on all woven cotton goods imported or manufactured in India at power mills. The products of hand looms were exempted. General import duties are levied for fiscal purposes, and not for the protection of Indian industries.

The schedules have been largely modified with effect from March, 1916, by the Indian Tariff (Amendment) Act (IV of 1916). The general tariff rate of 5 per cent on imported articles, which remained unchanged from its imposition in 1894, has been raised to 7½ per cent, the rate of one per cent on certain descriptions of iron and steel has been enhanced to 2½ per cent, special increased duties have been levied on arms and ammunition, sugar, petroleum, spirit, cigars, cigarettes and other manufactured tobacco, silver plate and other manufactures, and the number of articles on the free list has been considerably curtailed by the imposition of import duties on previously free articles, e.g., machinery (except cotton spinning and weaving), railway materials, food grains, coal, printing materials, etc. By the amendment of the Tariff in March, 1917, the duty on cotton goods is now 7½ per cent *ad valorem*. In the export trade rice was the only dutiable article, but from March, 1916, export duties have also been levied on jute and tea.

The revenue from the import and export duties in the four quinquennial periods ending 1896-97, 1901-02, Revenue 1906-07, and 1911-12 and in each of the years 1912-13 to 1916-17 is stated below :—

NOTE.—1. In the Financial Accounts the duty collected on Salt is entered under "Salt," not under "Customs." In this volume it is included in the table on Indian salt revenue.

2. The figures in tables Nos. 113 and 114 represent the total for each year of the revenue credited month by month in the Customs houses. They differ slightly from those given in the Finance and Revenue Accounts which show the result of final adjustments.

† Duty collected in March 1916

Extractors, nippers, heel-plates, pins, screws, tangs, bolts, thumb-pieces, triggers, trigger-guards, hammers, pistons, plates, and all other parts of a firearm (including a gas and air gun or rifle) not herein otherwise provided for, and all tools used for cleaning or putting together or loading the same, for each	1 8	1 8	1 8	1 8	1 8	1 8	1 8	1 8	—	1 8
9. Machines for making, loading, or closing cartridges, for each	10 0	10 0	10 0	10 0	10 0	10 0	10 0	10 0	—	10 0
10. Machines for capping cartridges, for each	2 8	2 8	2 8	2 8	2 8	2 8	2 8	2 8	—	2 8
Exception I.—Articles falling under the 5th, 6th, 8th, 9th or 10th head of the foregoing list when they appertain to a firearm falling under the 1st or 3rd head, and are fitted into the same case with such firearm, are free.										
Exception II.—The following are also free, namely:										
(a) Arms forming part of the regular equip-ment of an officer entitled to wear diplomatic, military, naval or police uniform;										
(b) A sword, a revolver, or a pair of pistols, when accompanying an officer of His Majesty's Regular Forces, or a commis-sioned officer of a volunteer corps, or certified by the commandant of the corps to which such officer belongs, or in the case of an officer not attached to any corps, by the officer commanding the station or district in which such officer is serving, to be imported by the officer for the purposes of his equip-ment; (1)										
(c) Swords and revolvers which are certified by an Inspector-General of Police to be part of the ordinary equipment of mem-bers of the Police force under his charge; (3)										
(d) Swords forming part of the equipment of Indian commissioned officers of His Majesty's Army; (2)										
(e) Swords for presentation as army or volunteer prizes;										
(f) Arms, ammunition, and military stores imported with the sanction of the Government of India for the use of any portion of the military forces of a Native State in India which may be maintained and organised for Imperial Service; (4)										
(g) Morris tubes and patent ammunition when imported by officers commanding British and Indian regiments or volunteer corps, for the instruction of their men.										

(a) Act IV of 1916

(b) The following articles under this head were exempted from duty:

Arms which, having paid duty at Aden on import into that Settlement, are subsequently within three years imported into any Customs port of British India

Bows and arrows

Bullets, bird-shot, gun-wads, and wire cartridges (i)

Bullet-moulds

Ornamental arms possessing antiquarian value, provided the chief Customs authority is satisfied in each case that the arms are practically unserviceable, and that weapons intended for offensive or defensive purposes are not imported under cover of the exemption

(1) Notification No. 1864, dated 12th April 1889, as amended by Notification No. 1908, dated 8th May 1891

Dynamite, tonite, and detonators (ii)

(2) Notification No. 302, dated 2nd December 1890

(3) Notification No. 3521, dated 19th August 1891

(4) Notification No. 3028, dated 21st July 1892

(i) Bullets, bird-shot, gun-wads, and wire cartridges were again subjected to duty by Act VIII of 1894

(ii) Dynamite, tonite, and detonators were again subjected to duty by Act VIII of 1894 and classed as "Explosives" under Chemical Products and Preparations

(c) These rates were fixed by the Indian Arms Act, XI of 1878

NOTE (1)—The following articles exempted from duty in excess of 10 per cent *ad valorem* by Notification No. 3832, dated 26th June 1903:

Aim reflectors

Barrel cleaners or pulls-through

coollers

Brushes, jags, mops

Cleaning rods

Reflectors

Recoil pads or heel pads

Sight covers

Sights for guns or rifles

Sighting bars for sights

Turn screws

Ventimeters or wind gauge

Verniers or sight elevators

NOTE (2)—By the Commerce and Industry Department Notification No. 3798-90, dated the 27th May 1911, all articles, other than those specified below, liable to duty under head 5, 6, 8, 9, or 10, as the case may be, were exempted from so much of the duty leviable thereunder on importation into British India as is in excess of duty of 20 per cent *ad valorem*:—Main springs and Magazine springs, gun-stocks and breech blocks, actions (including skeleton and waster), breech bolts and their heads, cocking pieces, locks (for muzzle-loading arms), and machines for making, loading, closing or capping cartridges for rifled arms

† By the Commerce and Industry Department Notification No. 2089-79, dated the 6th March 1915, springs used for air-guns are exempted from the duty leviable thereon on importation into British India

or 20 per cent *ad valorem* whichever is higher

(a) By Act IV of 1916 the duty was fixed at 15 per cent *ad valorem* for silver plate, silver thread and wire, and silver manufactures, all sorts. This rate was subsequently reduced to 10 per cent *ad valorem* from March 1917.

(b) Pearls, unset and unset precious stones imported uncut have been exempted from payment of duty by Government of India Notifications No. 2102-W., dated the 16th March 1916, and No. 7955-213, dated the 2nd September 1916, respectively.

(c) Freed by Notification No. 3443, dated 24th July 1895.

(d) Saddlery of a military pattern imported by an officer of His Majesty's Regular Forces and forming part of his equipment under Army Regulations freed by Notification No. 397, dated 24th January 1898.

(e) Spirit, imported from any port in British India, and protected by the certificate of an officer empowered in that behalf, is chargeable with only the amount, if any, by which the duty leviable thereon exceeds the duty shown by such certificate to have been already paid. (Act VIII of 1894, sec. 7.)

(f) The limitation as to the use of such spirit exclusively in arts or manufactures, or in chemistry, removed by Notification No. 5828, dated 13th December 1896.

(g) See also Act III of 1896.

(h) On London proof, and the duty to be increased or reduced in proportion as the strength of the spirit exceeds or is less than London proof.

No. 115:—RATES of CUSTOMS DUTY imposed on IMPORTS into BRITISH INDIA under various ACTS (as modified by EXECUTIVE ORDERS), from 1882 to 1916—continued

(a) Notification No. 1632, dated 10th April 1896

(b) Salt imported from any port in British India and protected by the certificate of an officer empowered in that behalf, is chargeable with only the amount, if any, by which the duty leviable thereon exceeds the duty shown by such certificate to have been already paid.—(Act VIII of 1894, section 7)

(c) By Notification No. 343, dated 19th January 1888

(d) By Notification No. 1542, dated 18th March 1903, the duty was fixed at one rupee for each maund of 82½ pounds in the case of Burma, and two rupees for each such maund in the case of Bengal, Madras, Bombay, and Sind. The latter rate was reduced to Rs 1-8 on the 22nd March 1905, by Notification No. 1727 of the same date. This was further reduced to Rs 1 with effect from the 20th March 1907 by Notification No. 1748 of the same date. This rate was enhanced to Rs 1-4 with effect from the 1st March 1916 by Notification No. 1545 of the same date. In case of Aden the duty is one rupee for each 140 lbs. avoirdupois

(e) Salt imported into Calcutta and issued with the sanction of the Government of Bengal to manufacturers of glazed stoneware is exempt from duty.—(Notification No. 4708, dated 18th September 1894); also salt imported into British India and into any port in the provinces of Bengal and Orissa and issued with the sanction of the Governor-General in Council for use in curing fish in those provinces and any process of manufacture is exempt from duty (Act IV of 1916).

(f) On imports into Burma only

(g) Mother-of-pearl shells freed by Notification No. 4611, dated 29th October 1896, but by Act IV of 1916 the duty was fixed at 7½ per cent.

(h) By Notification No. 2896, dated 3rd July 1896

(i) By Notification No. 9088-118, dated 30th September 1908

(j) Duty on confectionery was fixed at 7½ per cent *ad valorem* by Act IV of 1916

(k) Includes flax twist and yarn, and manufactures of flax, haberdashery and millinery, hemp manufactures, hosiery, lute, twist and yarn and lute manufactures, excluding second-hand or used gunny bags, silk yarn, noils, and warps, silk thread, silk piece-goods and other manufactures of silk, woollen yarn, knitting wool and other manufactures of wool, including felt, all other sorts of yarns and textile fabrics not otherwise specified

(l) Duty on firewood was fixed at 2½ per cent *ad valorem* by Act IV of 1916

NOTE.—The export duty imposed on raw and manufactured jute has been doubled by the amendment of Tariff in March 1917. It now stands at Rs. 4—8 annas for raw jute with a rate of Rs. 1—4 annas on cuttings, and at Rs. 20 for sacking goods and Rs. 32 on hessians

INCOME TAX

[FOR TABLES, PAGES 272 TO 279]

The income tax in India in 1915-16 yielded R305 lakhs or 2·4 per cent of the total revenue as against 33 per cent in the United Kingdom. The tax is accordingly not of the importance which it is in the taxation system of the United Kingdom.

History-

The first general income tax was levied in 1860 to relieve the financial burdens of the immediately preceding years. The Act was on the English model and was to have effect for a period of 5 years. It ceased, therefore, to operate in 1865, but the financial position did not permit of direct taxation being abandoned. In 1867 an Act was therefore passed, imposing a license tax on professions and trades excluding agriculture, and the tax continued to be levied till the end of 1872-73. No further taxation was imposed until 1877 when a license tax was levied on traders and artisans to meet a portion of the Famine Insurance grant, and Acts were passed in 1878 for this purpose for the United Provinces, the Punjab, Bengal, Madras and Bombay. These Acts remained in force until 1886. The license tax of 1878 was, however, converted into a general income tax by the Income Tax Act, II of 1886, applying to all India, which came into operation on the 1st April 1886. All sources of non-agricultural income were taxed. They were divided into four classes, namely, (1) Salaries and pensions, (2) Profits of Companies, (3) Interest on Securities, and (4) other sources. A general rate of 5 pies in the rupee (a little more than 2½ per cent) was levied on all incomes over R2,000 per annum, incomes between R500 to R2,000 derived from salaries and interest on securities were taxed at the rate of 4 pies in the rupee (a little over 2 per cent), and similar incomes derived from other sources at fixed rates according to classes. Incomes below R500 were not assessed with the result that the tax was collected from a very small proportion of the total population. Incomes derived from land and agriculture were exempted. Charities and religious endowments were also free from the tax. There were some other minor exceptions, which are noted at the foot of respective tables. In 1903 the favourable financial conditions permitted the exemption from the tax of incomes between R500 and R1,000 per annum, that is to say, the taxable minimum of income was raised from R500 to R1,000 by the Indian Income Tax (Amendment) Act, XI of 1903, with effect from 1st April 1903. In 1916 the income tax was revised, raised and graduated by the Income Tax (Amendment) Act (V of 1916) in order to meet the deficit arising out of war conditions. By this Act salaries and pensions between R1,000 and less than R2,000 were taxed at 4 pies in the rupee, those between R2,000 and less than R5,000 at 5 pies, those between R5,000 and less than R10,000 at 6 pies, those between R10,000 and less than R25,000 at 9 pies, and those amounting to R25,000 and upwards at one anna. Profits of companies and interest on securities were taxed at one anna in the rupee. Other sources of income between R1,000 and less than R2,000 were taxed at fixed rates according to classes, and those amounting to R2,000 and above according to rates and scales similar to those fixed for salaries and pensions of like amounts.*

Total tax and number of assesses.

The total proceeds of the tax in 1915-16 amounted to R305 lakhs as against R298 lakhs in 1914-15. The total number of assesses was 342,541 as against 338,954 in 1914-15, being about one per mille of the total population. The classes with an annual income of R1,000 to R2,000, i.e., those paying the rate of 4 pies in the rupee, contain 221,000 assesses, or 65 per cent of the total, and pay a revenue of R59 lakhs or 19 per cent of the collections, while those with an annual income of R2,000 and upwards, i.e., paying the rate of 5 pies in the rupee contain 120,000 assesses, or 35 per cent of the total, with a revenue of R245 lakhs or 81 per cent of the collections.

Classification of income

Of the four parts or groups of income, Part I—Salaries and pensions (mostly Government servants) yielded in 1915-16 R79 lakhs or 26 per cent, Part II—Profits of Companies R41 lakhs or 13 per cent, Part III—Interest on Securities R14 lakhs or 5 per cent, and Part IV—other sources nearly R170 lakhs or 56 per cent. There have been slight variations in these proportions since the Act came into force in 1903, except in Part II—Profits of Companies, which showed an improvement from 8 to 13 per cent. Under Part I—Salaries

	Total collection	Per cent. of total
	(R 1,000)	
Bombay	72,40	23·8
Bengal	70,64	23·2
Madras	39,66	13·0
United Provinces	27,86	9·1
Burma	24,65	8·1
Punjab including Delhi	19,46	6·4
Bihar and Orissa	14,16	4·6
C. P. and Berar	9,29	3·0
Assam	4,60	1·5
N. W. Frontier Province	1,70	·6
Other Provinces and Departments of Government	20,21	6·7
TOTAL	3,04,63	100

and pensions, incomes are divided into 13 classes and the largest number of assesses is those with an annual income of R1,000 but less than R1,250, namely, 36,000 persons paying a revenue of R6½ lakhs; coming next in importance are those with an income of R2,500 but less than R5,000 (19,000 assesses with a revenue of R16 lakhs), of R2,000 but less than 2,500 (11,000 assesses with a revenue of R6½ lakhs), and of R5,000 but less than R10,000 (10,000 assesses with a revenue of R16¾ lakhs). The marginal statement shows the total amount of income tax collected in each province with the proportion to the total amount collected in British India during 1915-16. In Bombay every 397 persons account for one assessee with a nonagricultural income of not less than R1,000, in Burma 397, in the Punjab 588, in Madras 723, in Bengal 779, in the Central Provinces and Berar 912, in Assam 1,051, and in the United Provinces 1,184.

* In 1917 a Super-tax was imposed, by the Super-tax Act, VIII of 1917, on income in addition to the ordinary income tax imposed by the Income Tax Act. The rates of this Super-tax were:—in respect (1) of the first fifty thousand rupees of taxable income—one anna in the rupee, (2) of the next fifty thousand rupees one-and-a-half annas, (3) of the next fifty thousand rupees—two annas, (4) of the next fifty thousand rupees—two-and-a-half annas, (5) of all taxable income over two lakhs of rupees—three annas. In 1918 a new Income Tax Act (VII of 1918) was passed consolidating and amending the laws relating to Income-tax. By this Act the sources of taxable income were classified as (i) salaries, (ii) interest on securities, (iii) income derived from house property, (iv) income derived from business, (v) professional earnings, (vi) income derived from other sources. Agricultural income was exempted as before. The rates of tax imposed on all these classes of taxable income are the same as provided in Act V of 1916, except in the case of a company or a firm constituted under a registered instrument of partnership specifying the individual shares of the partners; the rate of tax for such a company or firm being one anna in the rupee (i.e., the maximum rate of income tax)

The marginal table shows the growth of the total collections and the growth of the total estimated income Taxable income on which the tax was assessed. Applying the rates of the tax to the total collections under the various classes, the total income is worked out to be R123 crores or £82 millions in 1915-16. The annual income of the tax-payers of the four lower classes comes to an average of R1,281 and of the nine higher classes to R7,806 for each assessee.

	Total collection of Tax	Estimated income
	Rs. (lakhs)	Rs. (lakhs)
1886-87	1,37	57,36
1902-03	2,10	87,75
1907-08	2,24	90,53
1912-13	2,53	1,02,19
1915-16	3,05	1,22,69

The total collections comprise the actual tax collected in the year and the arrears of previous years. Refunds are not deducted from the figures shewn as "collections" in these tables. They amounted to R1,44,502 in 1913-14, R1,63,726 in 1914-15, and R1,63,425 in 1915-16, being about one-half per cent on the total collections.

Taking the average incidence of taxation on the assesses, Bengal is first with R121 per head; then comes Bombay (R109), Burma (R92), Assam (R72), the United Provinces (R70), Madras (R69), and the Punjab including Delhi (R57). Incidence per head of assesses

	Number of assesses	Incidence per head of population	The number of persons assessed to income tax, exclusive of Government servants assessed on their salaries, in the principal provinces in 1915-16 and the incidence of the tax per head of population were as stated in the marginal table.
Bombay	65,082	5 6.2	
Burma	21,506	3 1	
Bengal	54,736	2 3.7	
Madras	56,679	2 3.7	
Punjab (including Delhi)	32,430	1 4.6	
Assam	5,500	0 11	
North-West Frontier Province	2,312	0 10.3	
United Provinces	35,286	0 9.4	
Central Provinces and Berar	13,334	0 10.5	
Bihar and Orissa	18,768	0 6.8	

More than 70 per cent of the Bengal, about 67 per cent of the Bombay, and about 23 per cent of the Madras collections are derived from the Presidency towns. Collection in Presidency towns

NOTE.—(1) This table is revised triennially. The figures in this table are compiled from Return No. VIII and sometimes differ from those under Part IV of tables Nos. 117 and 119 compiled from Return No. III of the Provincial Income Tax Reports, because of the inclusion of refunds and over-collections in Return No. III and their exclusion from Return No. VIII.

(2) The tax is levied on sources of income from (1) professions, (2) manufacture, construction and manipulation (other than Companies), (3) commerce and trade, and (4) property, houses and land. The following are, however, exempted from the tax: (1) property employed for religious, educational or public charitable purposes, (2) profits of Co-operative Societies or income of local authorities, (3) rent or revenue derived from land used for agricultural purposes or assessed to land revenue or subject to a local rate; (4) income derived from agriculture, or by a cultivator or receiver of rent in kind to render the produce raised fit for the market, or the sale thereof, (5) any building owned and occupied by the receiver of rent in the vicinity of the land as a dwelling house or a store house, factory, etc.

(a) In addition to the collections Rs. 66,065, of which details in respect of Rs. 21,996 are not available.

* Under the Income Tax Act, II of 1886, the taxable minimum of income was R500. By the Income Tax (Amendment) Act, XI of 1903, this minimum was raised to R1,000. Under the original Act the first two classes of incomes were (I) R500 but less than R750 and (II) R750 but less than R1,000. On the passing of the amendment Act of 1903 these two classes were left out. The figures from 1903-04 under the old class represent collections of arrears of Income Tax assessed in 1902-03.

(a) Includes R1,758, for which the details by classes are not available.

(b) Includes R9,767, for which the details by classes are not available.

(c) Excludes arrear collections R15,590 in 1908-09, R22,017 in 1909-10, R21,560 in 1910-11, R26,601 in 1911-12, R25,523 in 1912-13, R38,549 in 1913-14, R48,286 in 1914-15 and R55,333 in 1915-16 for which the details under each Part are not available.

INCOME TAX

No. 126.—NUMBER of ASSESSEES in each PROVINCE of BRITISH INDIA in the year 1915-16

NOTE.—“ Other Provinces and Departments of Government ” include figures for Ajmer-Merwara, Bangalore, Coorg, Hyderabad, and Port Blair, the collections from the salaries of Government officers in the Military, Marine, Postal, Public Works (up to 1909-10), and Forest (up to 1903-04) Departments, and the collections made by the Comptroller, India Treasuries, from the salaries of the officers of the various Departments of the Government of India, and from the interest on securities on account of the subordinate treasuries together with the tax collected by the Public Works Department on account of the profits of certain Railway Companies.

(a) See note marked (*) at foot of table No. 125. The figures under ‘classes I to IV’ include small arrear collections under the old classes I and II up to 1911-12.

(b) The figures in this column differ in some cases from the sum of the figures in the two preceding columns, as explained in the notes (c) and (d). The sum of the totals in the two preceding columns exceed the sum of the figures in the two ‘total’ columns in table No. 125 by the figures of collections under Part III (Interest on Securities) shown in tables Nos. 117, 119 and 123. Previous to 1908-09, however, some small differences occurred.

(c) Includes R5,855 in 1906-07, R6,596 in 1907-08, R5,499 in 1908-09 and R5,022 in 1909-10, being deductions on commission paid to thugiyas.

(d) Includes R80,643, R86,328 and R88,829 R86,894, in 1906-07 in 1907-08 in 1908-09, and 1909-10, on account of collections by employers under section 9 (2) of the Act the details of which by classes are not available.

(e) The figures from 1906-07 to 1910-11 relate to the provinces of Bengal and Eastern Bengal and Assam as reconstituted in October 1905.

(f) Includes R26,364, R22,373 and R26,147 in 1907-08, 1908-09 and 1909-10 collected on the profits of some Railway Companies.

(g) Includes arrear collections of R594, and R735 in the Punjab in 1907-08 and 1908-09 and R40, R62 and R127 in the North-West Frontier Province in 1907-08, and 1908-09, 1909-10 the details of which by classes are not available.

(h) Excludes arrear collections of R5,910 for which the details by classes are not available.

N. B.—Classes I—IV denote the assesses whose annual incomes lie between 1,000 and 2,000 rupees and classes V—XIII denote those whose yearly incomes are 2,000 rupees and upwards.

(b) Includes Rs 90,404 in 1910-11, Rs 21,531 in 1911-12, Rs 92,708 in 1912-13, Rs 95,539 in 1913-14, Rs 105,448 in 1914-15 and Rs 1,02,602 in 1915-16, on account of collections by employers under section 9 (2) of the Act, the details of which by classes are not available.

(c) incomplete.

(d) Includes Rs 1,582 and Rs 3,301 in 1914-15 and in 1915-16 on account of deduction from salary of local authorities.

(e) Includes arrear collections of Rs 1,022, Rs 361, Rs 264, Rs 6, Rs 1,395 and Rs 430 in the Punjab in 1910-11, 1911-12, 1912-13, 1913-14, 1914-15 and in 1915-16 respectively, and Rs 208, Rs 242, Rs 20 and Rs 34 in the North-West Frontier Province, in 1910-11, 1911-12, 1912-13, and 1914-15, respectively, the details of which by classes are not available.

(f) Includes Rs 34 the details of which by classes are not available.

N. B. — Classes I—IV denote those assesses whose annual incomes lie between 1,000 and 2,000 rupees and classes V—XIII denote those whose yearly incomes are 2,000 rupees and upwards.

TRIBUTES FROM NATIVE STATES

[FOR TABLE, SEE PAGE 281]

The statistics of revenue recorded under this head represent tributes received from Native States, in several cases as a result of exchanges of territory and settlement of claims, and contributions made chiefly in lieu of former obligations to supply or maintain troops, the latter constituting a small return for the duty undertaken by the Supreme Government in ensuring the peace of the country. The figures do not show any important fluctuations from year to year, except for arrears and their recovery, and the levy of fees in some instances on succession (*nazarana*).

The total receipts are less than one per cent of the total Indian revenues. The tributes and contributions amount to about 89 per cent, and those for special military forces nearly 11 per cent, of the total receipts. Fees on succession are on the average less than $\frac{1}{2}$ per cent. Madras contributes nearly 49 per cent, India—General, which includes tributes and contributions from amongst others the Udaipur, Jaipur, Jodhpur, Kotah, Bundi, Bhopal, and Jowrah States, 21 per cent, Bombay 15 per cent, and Burma 5 per cent, of the total tributes from Native States.

* Compiled from the Finance and Revenue Accounts of the Government of India

(a) Includes amongst others Jaipur, Kotah, Udaipur, Jodhpur, Bundi, Bhopal, and Jowrah States

(b) They are Malwa Contingent (Dewas and Jowrah), Deoli Irregular Force (Kotah), Bhopal Levy (Bhopal), Erinpura Irregular Force (Jodhpur), Malwa Bheel Corps, Battalion (Cochin), and Southern Mahratta Horse

INTEREST RECEIPTS

[FOR TABLE, SEE PAGE 283]

The interest receipts in this section (table No. 129) do not include interest on public works capital. The most important items included under interest receipts are (1) Imperial Loans and Advances to the Presidency Corporations and to Native States; (2) Provincial Loans and Advances chiefly to mofussil municipalities and cultivators; and (3) on investments. The amount of the interest accrued on Imperial Loans and Advances comes to about 26 per cent, and on Provincial Loans and Advances 33 per cent, of the total receipts. Interest receipts also include the interest on Paper Currency investments, which contributes 25 per cent of the total. Another important item included under this head of revenue is the interest payable by the Railway Companies on overdrafts of capital. There are other minor items, such as interest on securities of provincial funds, on arrears of revenue, and on advances to railway companies charged to capital, which are included under this head of revenue.

The total receipts amount to about 1 per cent of the total Indian revenues. India—General, which includes the transactions of the Government of India, contributes about one-third of the receipts, Bombay about a fifth, Bengal a seventh, the United Provinces of Agra and Oudh nearly one-eighth, and Madras about one-tenth. In 1916-17 the total receipts in India amounted to 129 lakhs of rupees, as compared with 134 lakhs in the preceding year, showing a decrease of about 14 per cent.

The statement in the margin shows the total interest receipts in India (converted into £ at the rate of R15=£1) in the last five years, together with those in England, and the total receipts both in India and in England. The receipts in England comprise (1) interest realised from investment of Cash Balance, etc., (2) interest on India Debt, remaining unclaimed for ten years, repaid by the Bank of England and the Bank of Ireland, (3) interest on Paper Currency Reserve Investment, (4) interest on advances to the Imperial Bank of Persia for the purposes of the Persian Government and (5) interest on investments on account of Discount Sinking Fund

DEPARTMENT OF STATISTICS, INDIA

Statistics of British India

Volume II

Financial Statistics

Published by Order of the Governor-General in Council

CALCUTTA
SUPERINTENDENT GOVERNMENT PRINTING, INDIA

1920

[No. 1259]

PREFATORY NOTE.

FINANCIAL STATISTICS.

This volume deals with Financial Statistics, and therefore relates chiefly to Revenue, Expenditure, Currency, and Banking. It is divided into two parts, namely, Part I which contains tables relating to Revenue and Expenditure, Mint and Coinage, Paper Currency, Registered Debt, Securities Enfaced for payment of Interest in London, Drawings of the Home Government, Ways and Means of the Home Government, Prices of Gold, Silver, and Stocks, and Rates of Exchange, Military Services, Banks, Post Office Savings Banks, Co-operative Societies, and Life Assurance; and Part II which deals with the principal heads of Revenue and contains tables relating to Land Revenue, Forests, Opium, Salt, Stamps, Excise, Provincial Rates, Customs Revenue, Income Tax, Tributes from Native States, and Interest Receipts. A chart showing variations in (1) the revenue and expenditure of the Government of India, (2) debt of the Government of India, and (3) the circulation of currency notes in India since 1904-05, and an index have also been inserted in the volume for easy reference.

Figures for the years 1917-18 and 1918-19 (as far as available) have been added to the tables in this (9th) issue. If information, in addition to that given in the introductory notes and in the tables in the volume, is required, reference should be made to the Civil Estimates (in two volumes), the Finance and Revenue Accounts of the Government of India (one volume), the Financial Statement and Budget, and also the Report on the Operations of the Currency Department, all of which are published annually.

DEPARTMENT OF STATISTICS, INDIA.

Calcutta, August 12, 1920.

D. N. GHOSH,

Offg. Director of Statistics.

REVENUE AND EXPENDITURE

[FOR TABLES, SEE PAGES 9 TO 11]

Table No. 1 is an abstract statement of Revenue, Expenditure, and Debt of the Government of India in each year from 1877-78 to 1918-19. The funded debt outstanding in 1877-78 was R74,95 lakhs in India and £59.7 million in England. The total sum represents 265 per cent of the revenue of that year. In 1918-19 the funded debt outstanding was £335.2 million equivalent to 225 per cent of the year's revenue. In the 42 years there was a surplus in 28 years and a deficit in 14 years. The 28 years' surplus aggregates R10,001 lakhs of rupees and the 14 years' deficit R3,958 lakhs, the result being a net surplus of R6,043 lakhs.

Table No. 2 is an abstract of the Revenue and Expenditure for ten years. During the period of 42 years dealt with in Table No. 1, the total revenue has risen from R6,197 lakhs in the first year 1877-78 (equivalent at the average rate of exchange of that period to £53,709,000) to R22,386 lakhs (=£149,240,000 at R15 to the pound sterling) in 1918-19. The increase represents 261 per cent reckoning in rupees and 178 per cent reckoning in sterling. During the same period the expenditure has risen from R6,623 lakhs (=£57,403,000) to R22,959 lakhs (=£153,060,000). This represents 247 per cent in rupees and 167 per cent in sterling.

In considering the Revenue and Expenditure of the Government of India, however, it is desirable to separate "Commercial Services," i.e., the Post Office and Telegraph Department, Railways, and Irrigation, from other heads.

The following statement gives the quinquennial averages for each of the main heads of revenue and the percentage which each bears to the total revenue, excluding the Commercial Services, for the period 1877-78 to 1916-17 and also for the years 1917-18 and 1918-19.

(a) Termed "Assessed Taxes" up to 1913-14

The total increase of this revenue in 1918-19 as compared with the average of 1877-78 to 1881-82 is 81 per cent.

The following table gives the quinquennial averages under the main heads of expenditure and the percentage which each bears to the total expenditure, excluding the Commercial Services, for the period 1877-78 to 1916-17 and also for the years 1917-18 and 1918-19.

REVENUE AND EXPENDITURE

The expenditure in these tables represents expenditure from revenue only and not expenditure from borrowed capital.

Turning now to the Commercial Services, that is, the Post Office and Telegraph, Railways, and Irrigation, the following table shows the total revenue, total expenditure, and net surplus or deficit for each of these heads, and the total for all of them together, arranged in the form of quinquennial averages from 1877-78 to 1916-17 and annual figures for 1917-18 and 1918-19.

Revenue and Expenditure under Commercial Services in thousands of rupees

MINT AND COINAGE

[FOR TABLES, SEE PAGES 15 TO 29]

Gold coins

No gold coins were minted in India during the period from 1891-92 to 1917-18.* By a Royal Proclamation dated 21st December 1917, a branch of the Royal Mint was established at Bombay for the coinage of sovereigns, but it could not commence work until September 1918. In 1918-19, 1,295,372 pieces of sovereigns were coined in this mint but none were issued to the public. Pending this coinage, the local Mint commenced in June the coinage of gold Mohurs (fifteen-rupee gold coins) under an Ordinance promulgated by the Government of India (subsequently superseded by Act XIV of 1918). The total number of gold Mohurs thus coined amounted to 2,109,703 pieces. Sovereigns and half-sovereigns minted either in England or Australia are recognised as legal tender to an unlimited amount at the rate of one sovereign to fifteen rupees, provided that they have not been called in or lost weight beyond the limit prescribed as the lowest current weight, viz., 122·5 grains for the sovereign, and 61·125 grains for the half-sovereign—the full legal weight being 123·27447 and 61·63723 grains, respectively. Under Notification No. 1448-A., dated the 8th March 1907, however, sovereigns and half-sovereigns, which have lost weight so as to be of less weight than that for the time being prescribed for light coins by or under the Coinage Act, 1870, as the least current weight, are receivable at Treasuries, Currency Offices, Mints, and Presidency Banks at the following rates, namely :—

- (a) When such coins have not been reduced by more than three grains below standard weight, that is, are not less in weight than grains 120·27447 and 58·63723, respectively, at their face value ; and
 - (b) When such coins are of less weight than grains 120·27447 and 58·63723, respectively, at their bullion value by weight :
- Provided that such coins have not been illegally dealt with, that is, have not been impaired, diminished or lightened, otherwise than by fair wear and tear, or defaced by having any name, word, device or number stamped thereon, whether the coin has or has not been thereby diminished or lightened.

Silver coins

The weight and fineness of the silver coins minted in the Indian mints for circulation in India are as follows :—

	Fine Silver (grains)	Alloy (grains)	Total (grains)
Rupee	165	15	180
Half-rupee (8 annas)	82½	7½	90
Quarter-rupee (4 annas)	41¼	3¾	45
Eighth of a rupee (2 annas)	20¾	1¾	22½
One rupee = 165 grains of fine silver.			
One shilling = 80¾ grains of fine silver.			
One rupee = shillings 2·0½30 †			

In the year 1893 the two Government mints at Calcutta and Bombay were closed for the unrestricted coinage of silver for the public. During the five succeeding years, the coinage of rupees ceased, except that in the years 1897-98 and 1898-99 about nine million rupees were coined for Indian States to replace their local currencies. By the winter of 1900 the stock of rupees in the Currency reserve had fallen so low that direct replenishment by new coinage became a necessity. The coinage was begun in February 1900, the Government purchasing the silver required, and paying for it mainly with the gold accumulated in the Paper Currency Reserve.

The statement below shows the silver coinage in the last five years :—

Number of pieces					
	Rupees	Half-rupees	Quarter-rupees	One-eighth-rupees	Total
1914-15	18,072,000	2,303,000	4,371,000	11,834,000	36,580,000
1915-16	14,800,000	2,804,000	..	..	17,604,000
1916-17	298,900,000	6,078,000	13,178,000	19,787,000	337,943,000
1917-18	225,833,000	8,822,000	21,072,000	25,560,000	281,287,000
1918-19	501,006,000	13,771,000	50,575,000	..	565,352,000
Value (in rupees)					
1914-15	1,80,72,000	11,52,000	10,92,000	14,79,000	2,17,95,000
1915-16	1,48,00,000	14,02,000	..	..	1,62,02,000
1916-17	29,89,00,000	30,39,000	32,95,000	24,73,000	30,77,07,000
1917-18	22,58,33,000	44,11,000	52,68,000	31,95,000	23,87,07,000
1918-19	50,10,06,000	68,85,000	1,26,44,000	..	52,05,35,000

The foregoing figures include the value of old rupees received into the mints for recoinage which is stated separately below :—

	British rupees (nominal value) R	Native coins (equivalent in British rupees) R	Other coins (equivalent in British rupees) R
1914-15	2,04,36,000	..	150
1915-16	1,64,10,000	..	..
1916-17	1,38,55,000	..	..
1917-18	1,26,77,000	..	6
1918-19	55,44,000	..	7

* In 1910 10,001 hundred-piastre pieces to the value of Rs. 1,53,765 were coined in the Bombay mint for the Egyptian Government.

† The metallic value in sterling of the 165 grains of fine silver in a rupee is as follows, with the price of silver at the rate stated below per standard ounce :—

60 d. = 22·297 d.	38 d. = 13·122 d.	34 d. = 12·634 d.	30 d. = 11·149 d.	26 d. = 9·662 d.	22 d. = 8·176 d.
50 d. = 18·581 d.	37 d. = 12·756 d.	33 d. = 12·263 d.	29 d. = 10·777 d.	25 d. = 9·291 d.	21 d. = 7·804 d.
40 d. = 14·865 d.	36 d. = 12·379 d.	32 d. = 11·891 d.	28 d. = 10·406 d.	24 d. = 8·918 d.	20 d. = 7·432 d.
39 d. = 13·494 d.	35 d. = 13·007 d.	31 d. = 11·519 d.	27 d. = 10·034 d.	23 d. = 8·547 d.	

MINT AND COINAGE

In addition to the coinage of silver for circulation in India, the mints also received, under an agreement with certain Exchange Banks, silver for coinage into British dollars for circulation in Hongkong and the Straits Settlements. This agreement terminated on the 10th December 1903, and no fresh agreement has been entered into. Owing to a change in the currency policy in the Government of the Straits Settlements a new dollar was introduced there, the coinage of which has been undertaken at the Bombay mint since September 1903. Since April 1905 the coinage of the Straits fifty-cent pieces has been undertaken in the Bombay mint, and since October 1909 the coinage of the twenty-cent, ten-cent, and five-cent pieces for the Straits Settlements Government has further been undertaken in the same mint. The coinage of Ceylon fifty-cent, twenty-five-cent and ten-cent pieces has been undertaken in the Calcutta mint from 1913-14. The coinage of both dollars and of cent pieces during the five years ending 1918-19 has been :—

Dollar and cent pieces.

Number of pieces							
	British Dollars	Ceylon fifty cents	Ceylon twenty-five cents	Straits twenty cents	Ceylon ten cents	Straits ten cents	Straits five cents
1914-15 . . .	..	200,000	400,000	..	1,000,000	..	..
1915-16 . . .	..	..	..	..	..	..	..
1916-17 . . .	..	596,000	500,000	645,232	120,545	1,200,014	..
1917-18 . . .	..	1,072,840	300,000	551,641	879,455	6,099,860	..
1918-19 . . .	..	..	..	..	..	8,700,284	3,210,929

With the expiry in December 1903 of the special agreement with the Exchange Banks for the coinage of British dollars, the number coined fell to 3,955,647 in 1903-04 and 648,847 in 1904-05, while the coinage in these two years of Straits dollars was 15,009,891 and 20,364,664 pieces, respectively. No dollars were coined in 1905-06 or in 1906-07, but in 1907-08 the coinage of British dollars was resumed in the Bombay mint. No Straits dollar has been coined since 1904-05, nor British dollar since 1913-14, and Straits fifty-cent pieces have so far been coined only once and that in 1905-06.

The coinage of Egyptian, twenty, ten, five and two piastre pieces was undertaken in the Bombay mint in 1916-17. The total number of these silver pieces coined was 18,370,112 in 1916-17 and 11,343,692 in 1917-18 ; in 1918-19 only ten, five and two piastre pieces were coined and their total number was 1,870,044.

In 1906 provision was made for the coinage of a nickel coin, and by Notification No. 4597-A., dated the 22nd July 1907, it was directed that the nickel one-anna piece should thenceforth be coined at the mint and issued. The coin weighs 60 grains Troy and has a waved edge with twelve scollops, the greatest diameter being 21 millimetres and the least 19·8 millimetres. The statement in the margin gives the number and value of

Nickel coins

	Number	Value (in rupees)	
1914-15 . . .	42,352,000	26,47,000	nickel one-anna pieces struck in the mints in the last five years.
1915-16 . . .	7,670,000	4,79,000	The desirability of issuing a half-anna nickel coin was considered
1916-17 . . .	39,087,000	24,43,000	by the Government of India in 1909, but it was decided not to
1917-18 . . .	58,067,000	36,29,000	take action in this direction. By Notification No. 761-F.,
1918-19 . . .	80,692,000	50,43,000	dated the 22nd March 1918, it was directed that a nickel two-

anna piece should thenceforth be coined at the Mint and issued. It is a square coin with rounded corners, its least diameter being 21 millimetres and the rim is not milled. The total number of such two-anna pieces coined was 3,848,000 in 1917-18 and 85,991,000 in 1918-19.*

In 1916-17 the nickel coinage of ten, five, two and one millieme pieces for the Egyptian Government was undertaken in the Bombay mint and in that year 11,702,143 pieces of such coins to the value of Rs. 5,92,252 were struck in the mint. In 1917-18, 6,228,655 pieces of Egyptian ten and five milliemmes valued at Rs. 5,56,579 and in 1918-19, 872,069 pieces of Egyptian five milliemmes only valued at Rs. 67,040 were struck in the mint.

Copper coinage was introduced into the Bengal Presidency by Act XVII of 1835, and into the Madras and Bombay Presidencies by Act XXII of 1844. The weight of the copper coins struck under Act XXIII of 1870 remained the same as it was in 1835. It was as follows :—

Copper coins

	Grains Troy
Double pice, or half-anna	200
Pice or quarter-anna	100
Half-pice or one-eighth of an anna	50
Pie, being one-third of a pice or one-twelfth of an anna	33½

Ninety rupees' worth of pice weigh 576,000 grains troy, or 82½ lb avoirdupois.

Act III of 1906 provided for the substitution of bronze for copper coinage. By Notification No. 3895-A., dated the 11th July 1906, it was directed that the bronze coins should thenceforth be coined and issued at the mint, and that, with effect from the 1st August 1906, copper coins for the Government of India should cease to be coined. But the copper coinage for Ceylon and the Straits and for certain Indian States continued in the Calcutta mint. In 1916-17, 3,000,000 pieces of half cents to the value of Rs. 26,250 and 4,000,000 pieces of quarter cents to the value of Rs. 17,500 were coined for the Straits ; and in 1917-18, 1,000,000 pieces of cents to the value of Rs. 10,000 and 2,000,000 pieces of half-cents to the value of Rs. 10,000 were coined for Ceylon.

Bronze coins

* By Notification No. 3129-F. dated the 10th December 1919, it was directed that nickel eight-anna and four-anna pieces should thenceforth be coined at the mint and issued. The eight-anna coin is circular, the diameter being 26 millimetres and the rim is not milled. The four-anna coin has a waved edge with eight crests and eight hollows, the greatest diameter being 25 millimetres and the rim is not milled.

MINT AND COINAGE

The weight and dimensions of the several denominations of bronze coins are given below :—

	Standard weight (in grains Troy)	Diameter (in millimetres)
Pice or quarter anna	75	25·4
Half-pice	37½	21·15
Pie	25	17·45

The statement below shows the bronze coinage of the last five years :—

	Number (of pieces)				Value (in rupees)			
	Quarter anna	Half-pice	Pie pieces	Total	Quarter anna	Half-pice	Pie pieces	Total
1914-15	20,411,600	4,876,800	19,814,400	45,132,800	3,19,400	38,100	1,03,200	4,60,700
1915-16	..	9,830,400	20,563,200	30,393,600	..	76,800	1,07,100	1,83,900
1916-17	9,337,600	5,734,400	14,438,400	29,510,400	1,45,900	44,800	75,200	2,65,900
1917-18	83,257,600	15,296,000	35,174,400	133,728,000	13,00,900	1,19,500	1,83,200	16,03,600
1918-19	117,472,000	6,284,800	24,192,000	147,948,800	18,35,500	49,100	1,26,000	20,10,600

In 1916-17, 4,764,000 pieces of Australian pennies to the value of Rs. 2,97,750 and 3,600,000 pieces of Australian half-pennies to the value of Rs. 1,12,500 were struck in the Calcutta mint ; in addition to these, 4,000,000 half millieme pieces to the value of Rs. 30,406 were coined for the Egyptian Government. In 1917-18, 4,800,000 pieces of Australian pennies to the value of Rs. 3,00,000, and 5,760,000 pieces of Australian half-pennies to the value of Rs. 1,80,000 were struck, and in 1918-19, 1,200,000 pieces of Australian pennies to the value of Rs. 75,000, 1,454,000 pieces of Australian half-pennies to the value of Rs. 45,450 were coined in the Calcutta mint. In 1918-19, also cent pieces numbering 3,000,000 valued at Rs. 52,500 were struck for the Straits Settlements.

Native Mints

With the fall in the prices of silver, which preceded the closure of the Calcutta and Bombay mints in 1893, there was a very large importation of the metal into India and excessive quantities were coined by some of the Indian States during that period and for some years following the closure. It was found, thereafter, that the coinages were greatly in excess of the needs of the States, and operations abated in 1898. The arrangements made with some of the States for the substitution of the British for the local rupee had led to the closing of the local mints. The States in which coinage was carried on during the last fifteen years have been dealt with in table No. 19. The total coinage from new silver amounted to 10,463,108 tolas in 1917 and 10,878,035 tolas in 1918.

MINT AND COINAGE*

No. 3.—IMPORTS into and EXPORTS from BRITISH INDIA of GOLD (COIN, and BULLION) and the amount received and the amount COINED in the MINTS, from 1835-36 to 1918-19

NOTE.—From the 26th June 1893, the mints were closed to the unrestricted coinage of silver. From the same date silver belonging to the Government has been valued at its cost price instead of at the fixed rate of Rs 1 per tola of standard silver, but old rupees received for recoinage, as entered in table No. 4, are still taken at their nominal value. The silver received into the mint for coinage into British dollars intended for circulation in the Far East and into the new dollar adopted as the currency of the Straits Settlements is excluded from this table. Particulars of the coinage of these British and Straits dollars will be found in table No. 18

No. 5.—QUANTITY (in ounces) of GOLD and SILVER IMPORTED into and EXPORTED from BRITISH INDIA from and to FOREIGN PORTS in each official year from 1873-74 to 1918-19

NOTE.—The quantities in the column "net imports" for both gold and silver, for the years 1873-74 to 1886-87, are estimates only, deduced from the declared values of the trade for those years by the following process:

For gold, the rupee value of the monthly net imports was converted into sterling at the average rate of exchange in each month, and this sterling value was then divided by the English mint price of gold (£3 17s. 10½d. per ounce). For silver, the average price of ₹107 per 100 tolas, or ₹285.33 per 100 ounces was taken as the basis of the value of the annual imports

No. 6.—OLD GOVERNMENT of INDIA RUPEES (including small SILVER COINS) received into the MINTS for RECOINAGE, and SILVER COINAGE in each MINT, from 1835-36 to 1918-19

PAPER CURRENCY

[FOR TABLES, SEE PAGES 33 TO 41]

Laws and orders relating to Paper Currency

Under Acts, VI of 1839, III of 1840, and IX of 1843, the Presidency Banks of Bengal, Bombay, and Madras were authorised to issue notes payable on demand, but the issue of the notes was practically limited to the three cities of Calcutta, Bombay, and Madras. These Acts were repealed, on the 1st March 1862, by Act, XIX of 1861, providing for the issue of a paper currency through a Government Department, by means of notes of the Government of India payable to bearer on demand. Since then no banks have been allowed to issue notes in India. This Act was replaced first by Act, III of 1871, and subsequently by Act, XX of 1882. The Act of 1882 was amended by Acts, XV of 1890, VIII of 1893, XXI of 1896, II of 1898, VIII of 1900, IX of 1902, and VI of 1903; all these Acts were superseded by Act, III of 1905, which again was amended by Act, II of 1909. The last two enactments were replaced by Act, II of 1910. By it, a note of the value of five, ten, or fifty rupees, as well as a note of any other denominational value which the Governor-General in Council may, by notification in the *Gazette of India*, so specify, was declared to be a "universal currency note," that is, legal tender throughout British India and encashable at any office of issue in British India; the then existing sub-circles of Cawnpore, Lahore, Karachi, and Calicut were abolished, and the first three of these constituted separate circles of issue in addition to Calcutta, Madras, Bombay, and Rangoon. At the same time, by a notification issued under the Act, the further issue of 20-rupee notes was discontinued. By another notification issued in 1911 under section 2 of the same Act a currency note of the denominational value of one hundred rupees was declared to be a "universal currency note." Act VII of 1911 raised the invested portion of the Currency Reserve from 12 crores to 14 crores with permission to make the additional investment in sterling securities if desirable. By Act, XIX of 1917, notes of the denominational value of one rupee and two and a half rupees were issued and declared to be "universal currency notes." Since the commencement of the War, the Government of India had recourse to temporary legislation, as shown in the following table:—

(In crores of rupees)

Acts	NATURE AND VALUE OF SECURITIES WHICH MAY FORM THE RESERVE		
	Permanent investments	Permissible temporary, investments (mainly British Treasury Bills)	Total 2 and 3
1	2	3	4
Act VII of 1911 (Prewar)	14	..	14
Act V (Temporary Amendment) of 1915	14	6	20
Act IX " " of 1916	14	12	26
Act XI* " " of 1917	14	36	50
Act XIX* " " of 1917	14	48	62
Act VI " " of 1918	14	72	86
Act II " " of 1919	14	86	100

Reserve

The whole amount of currency notes in circulation is secured by a reserve of gold and silver coin or bullion and securities of the Government of India or of the United Kingdom. The total amount of such securities was, up to the end of the year of report (1918-19), limited to 100 crores of rupees, of which 14 crores represent the permanent prewar investment (10 crores Government of India securities and 4 crores sterling securities) and the rest (86 crores) is the permissible specific temporary investment mostly against British Treasury bills.

* By the Indian Paper Currency (Further Amendment) Act (XXVI of 1919) passed on the 24th September, 1919, the maximum limit up to which the Currency Reserve could be invested in securities was raised to Rs 120 crores, Rs. 100 crores being in British Treasury Bills; but, by Act, XXVI of 1920, passed on the 23rd March, 1920, this Act together with Acts, XI of 1917, XIX (part of) and XII, of 1918, has been repealed and consolidated, and the limitations as to the nature of the securities in which the investment might be made has been temporarily abolished.

PAPER CURRENCY

Under the Gold Note Acts of 1898 and 1900, the Government of India had obtained authority to hold a part of the metallic portion of the reserve in gold coin (or temporarily in silver bullion) in London instead of in India. A certain amount of gold had in this way been held in London during 1899 and 1900, but not to any large extent, and the occasion for doing so ceased, except in regard to gold in transit, from the middle of 1900. The Indian Paper Currency Act, II of 1910, however, gave full power to hold the metallic portion of the reserve or any part of it, either in London or in India or partly in both places, and also in gold coin or bullion or in rupees or silver bullion, at the free discretion of Government, subject only to the exception that rupees should be kept only in India and not in London. A currency chest was accordingly opened in London and a sum of £6,000,000 was remitted from India in pursuance of this policy, and a further sum of £1,045,000 was transferred to the chest from the Secretary of State's balances during the course of 1905-06. On the 31st March, 1919, the London currency chest held £82,391 on behalf of the Currency Reserve.

The metallic reserve* may consist of sovereigns, half sovereigns, rupees, and half rupees, and gold and silver bullion, the last named being valued at the sum spent on the purchase of such bullion. No gold was contained in the reserve between March, 1876, and February, 1898, and the quantity increased very slowly until February, 1899, but from that date it rose rapidly till the end of March, 1904, when it amounted to £10,789,567. This level was maintained until the year 1908 and on the 31st March, 1909, the gold reserve fell to £1,523,414. It then gradually rose and reached the record figure of £25,683,387 on the 31st March, 1913. On 31st March, 1919, the stock of gold in the reserve amounted to £11,662,332 as against £18,349,683 on 31st March, 1918.

The following table shows the growth of the circulation and the changes in the composition of the Reserve during the last six years :—

[In lakhs of rupees.]						
Date	Gross Note circulation	COMPOSITION OF THE RESERVE				Percentage of total metallic reserve to gross Note circulation
		Silver	Gold	Securities	Total	
31st March, 1914	66,12	20,53	31,59	14,00	66,12	78.9
„ 1915	61,63	32,34	15,29	14,00	61,63	77.3
„ 1916	67,73	23,57	24,16	20,00	67,73	70.5
„ 1917	86,37	19,21	18,67	48,49	86,37	43.9
„ 1918	99,79	10,79	27,52	61,48	99,79	38.4
„ 1919	153,46	37,39	17,49	98,58	153,46	35.8

The interest accruing on the invested reserve is entered in a separate account, and paid to the credit of the Government of India, under the head “Profits of note circulation.” In 1918-19 the interest on the invested reserve and other cash receipts amounted respectively to R2,91,33,172, and R1,50,781, the expenditure of the Department being R52,42,368, and the profit R2,40,41,585.

The average monthly circulation of the notes has been, in lakhs of rupees :

The circulation in each circle on the 31st March, 1914, to 1919, was :

(In lakhs of rupees)						
	1914	1915	1916	1917	1918	1919
Calcutta, including Cawnpore and Lahore	34.89	31.13	34.38	40.01	41.79	64.71
Bombay „ Karachi	16.03	16.91	18.67	22.30	39.56	53.54
Madras	8.84	8.50	8.73	10.15	11.36	21.22
Rangoon	6.36	5.09	5.95	6.91	7.08	14.00

*By Acts, XIII of 1918 and XXVI of 1919 (subsequently repealed and consolidated by Act, XXI of 1920) it is temporarily provided that gold or silver held on behalf of the Secretary of State for India in Council or the Governor-General in Council may, if so held in the United States America or in course of transmission there from, be deemed to be part of the Indian Paper Currency Reserve.

PAPER CURRENCY

The note issue assumed unprecedented proportions and stood at the phenomenal figure of R153 crores at the end of March, 1919. The circulation of the different denominations of notes on the 31st March, 1899 and 1919, was as shown in the margin. Looking back over the twenty-years since 1898-99, the relative popularity of each denomination of note may be measured by the increase in its circulation, an exception, however, being made in the case of notes for 10,000 rupees which are chiefly used as a convenient form in which to hold the balances in the Government reserve treasuries. In 5-rupee notes there was a considerably large increase of 2,450 per cent, while those for ten rupees increased 858 per cent and notes for 100 rupees, 549 per cent. The circulation of notes for 20 rupees have suffered from time to time from a scare brought about by the operations of forgers. It suddenly dropped in 1882-83 to hardly more than half the circulation in the preceding year and did not recover until 1890; thereafter there was a gradual increase, and in 1908-09 the circulation nearly reached the figure of 1881-82, but it has since dropped steadily, and rapidly, and, as already stated above, 20-rupee notes are no longer issued. Notes for 50 rupees increased by 307 per cent only. Notes for 500 and 1,000 rupees are commonly employed in commercial and banking operations; the former decreased by 4 per cent, while the latter increased by 165 per cent. The increase in the average active circulation of notes is given in the following table (in lakhs of rupees) :—

	1913-14	1914-15	1915-16	1916-17	1917-18	1918-19
Gross circulation	65.55	64.04	64.10	76.14	1,01.77	1,33.20
Amounts held in Reserve and other Treasuries	12.64	7.54	6.60	6.77	8.13	5.95
Balance, being notes in circulation with the public	52.91	56.50	57.50	69.37	93.64	1,27.25
Notes held by Presidency Banks at Head Offices	6.28	11.07	9.42	10.01	21.77	13.41
Notes in actual circulation	46.63	45.43	48.08	59.36	71.87	1,13.84

It may be interesting to show here the absorption of rupees and half rupees during the last six years. The figures below are in lakhs of rupees.

	1913-14	1914-15	1915-16	1916-17	1917-18	1918-19

REGISTERED DEBT

[FOR TABLES, SEE PAGES 43 TO 61]

Amount of debt The registered debt of India consists of rupee loans raised in India and sterling loans raised in England.
The amount of permanent debt on the 1st April 1918 was :—

In England	£	236,957,575
In India, R1,70,07,88,793 converted into £ at R15=£1		113,385,919
TOTAL		350,343,494

The total permanent debt outstanding on 31st March 1919 was as follows :—

In England	£	202,528,570
In India, R1,99,06,53,494, converted into £ at R15=£1		132,710,233
TOTAL		335,238,803

In England £500,000 India bonds, £514,005 India stock, and £33,415,000 liability for British Government 5 per cent War Loan (1929-47) were discharged during 1918-19.

Classification of debt The total registered debt is classified in the accounts as (1) Public Works Debt, (2) Ordinary Debt. The amount entered as belonging to the former category is the equivalent of the total capital expenditure which has been incurred by the State on public works, together with the amount advanced to Railway Companies for capital expenditure; the "Ordinary Debt" consists of the remainder of the debt. In any year in which, owing to the use of surplus revenue or deposits for the construction of public works, the capital expenditure of the year exceeds the amount of debt incurred in the year, the effect of this system of classification is to cause a decrease to be shown in the amount of the ordinary debt.

Distribution of debt The distribution of the total registered debt in India and England in the last five years was as follows :—

[Millions of £ sterling]

	Ordinary Debt (a)	PRODUCTIVE PUBLIC WORKS DEBT.			Grand total of debt (columns 1 and 4)
		Railways	Irrigation	Total	
	1	2	3	4	5
On 31st March—					
1915	2.2	233.2	41.1	274.3	276.5
1916	2.0	234.4	42.4	276.8	278.8
1917	3.7	235.7	43.3	279.0	282.7
1918	67.2	239.1	44.0	283.1	350.3
1919	47.0	243.7	44.5	288.2	335.2

It may be explained that for the purpose of these figures rupees have been uniformly converted into pounds sterling at the rate of R15 to the pound.

It will be seen that out of a total debt of £335.2 millions, at the end of March 1919, £47 millions represented ordinary or unproductive debt. The annual interest on the latter was £7 millions and on the productive debt £9.8 millions, so that the total interest charges amounted to £16.8 millions.

Of the rupee debt at the end of 1918-19, R67 millions of the debt bore interest at 3 per cent, R1,190.1 millions at 3½ per cent, R174.9 millions at 4 per cent, R10 millions at 4½ per cent, R254.2 millions at 5 per cent, and R294.5 millions at 5½ per cent. The total interest charge on the rupee debt at the end of 1918-19 was R11,27,02,261 and on the sterling debt £7,139,089.

(a) Excluding all temporary debts, but including initial expenditure on new capital at Delhi.

REGISTERED DEBT*

No. 27.—ABSTRACT STATEMENT—AMOUNT of the RUPEE and STERLING DEBT and of the INTEREST thereon; annual INCREASE or REDUCTION of the DEBT; and the PROPORTION of the RUPEE DEBT held in LONDON, from 1820-21 to 1918-19

NOTE.—The figures are taken from the annual Finance and Revenue Accounts of the Government of India, but the method of distribution of the total debt and of the interest thereon between "Ordinary Debt" and "Debt incurred for Railways and Irrigation Works" has not been uniform and has been materially altered from the year 1906-07.

No. 29.—DETAILED STATEMENT.—REGISTERED DEBT in INDIA and in ENGLAND at the close of each year from 1899-1900 to 1918-19, also the annual amount of INTEREST payable thereon

” ” 1910-1914 . .	61,90,740	1,73,42,580	11,82,91,760
” ” 1915-1919 . .	42,22,930	88,44,877	8,24,68,155
For the year 1918 . .	11,23,900	35,45,600	7,44,50,808
” ” 1919 . .	89,16,800	86,43,700	7,86,78,644

Until 1866 the average amount outstanding annually varied between R6·4 crores and R7·9 crores, but in that year it rose suddenly to R11·9 crores and reached R16·9 crores in 1870. From 1871 it again declined and, until 1878, it stood between R13 crores and R14·8 crores. There was then a rapid increase to R16·9 crores in 1879 and to R19·2 crores in 1880. Then followed a slower rate of increase attended with fluctuations, which were dependent on the price of silver and the conditions of the money market, Government promissory notes having become a regular form of remittance and re-transfer by the exchange banks. The amount outstanding rose to R21·2 crores in 1882 and declined again to about R19·2 crores in 1887, rising again in 1889 to R21·8 crores. Then followed another period of very rapid increase, largely induced by speculative influences. In 1891, 1892, and again in 1896 the average amount outstanding was over R26 crores. In the following year it fell to R23 crores, and from 1898 to 1902 it fluctuated between R20 crores and R22 crores. Since 1902 there has been more or less a steady decline. From R18 crores in 1903 it receded in 1908 to R14·9 crores. It slightly recovered and rose to nearly R15½ crores in 1909, but again fell to R14·4 crores in 1910. There has been a gradual decline since then, and in 1918 the figure receded to about R7½ crores, this being the lowest figure touched since 1865. In the year under report there was a slight increase to nearly R8 crores.

SECURITIES ENFACED FOR PAYMENT OF INTEREST IN LONDON*

No. 40.—AMOUNT (in rupees) of GOVERNMENT PROMISSORY NOTES ENFACED for PAYMENT OF INTEREST in LONDON at the end of each month from 1900 to 1919

DRAWINGS OF THE HOME GOVERNMENT

[FOR TABLES, SEE PAGES 67 to 73]

The practice of drawing funds from India to meet the home charges by means of bills of exchange on India was inherited by the India Office from the East India Company. Council drafts, both bills and telegraphic transfers, are in normal times sold by the Secretary of State in London on Calcutta, Bombay, and Madras, primarily to meet his demands on India's behalf.

The tables in this section state the sterling amounts of the annual drawings of the Secretary of State on Calcutta, Bombay, and Madras (the three centres on which Council bills are drawn), and the total sum, with the highest, lowest, and average rate of exchange at which the bills and telegraphic transfers were sold, for each of the three cities. Shortly after the outbreak of war a system of "deferreds" payable 16 days after issue was introduced, and since then practically no "bills" have been sold, the sale being entirely of telegraphic transfers and "deferreds". Council drafts are now sold by competitive tender subject to a minimum rate fixed by the Secretary of State; this minimum rate was raised from 1s. 4d. till it stood at 1s. 6d. at the end of March 1919*. The tables also state the sums borrowed in England annually, and the payments of railway capital into the Home Treasury, less the withdrawals of such capital for each year. Until the outbreak of war the largest proportion of the drawings was generally on Calcutta; since then it has been on Bombay. In 1912-13, the percentages were Calcutta 51 and Bombay 33; in 1913-14, 42 and 41; in 1914-15, 37 and 42; in 1915-16, 38 and 39; in 1916-17, 35 and 45; in 1917-18, 32 and 54; and in 1918-19, 36 and 49, respectively.

Since 1871-72 the aggregate sterling amount of Council bills and telegraphic transfers, and the sums bor-

		Bills drawn on India.	Amount borrowed in England.	
		£	£	
Five years	1871-72 to 1875-76	60,766,339	8,728,002	rowed in sterling, have been as stated in the margin. The drawings of the Council bills and telegraphic transfers since 1901-02 have increased considerably. The amount of drawings reached £33,432,196 in 1906-07, which was then the record figure. In 1914-15 the amount fell very low to £7,748,111, but in 1916-17 it again rose to £32,998,095; in 1917-18 it surpassed the previous record of 1906-07 and amounted to £34,880,682; but in 1918-19 it fell to £20,946,314.
"	1876-77 to 1880-81	67,280,306	32,891,974	
"	1881-82 to 1885-86	75,184,356	21,147,968	
"	1886-87 to 1890-91	73,201,245	35,544,718	
"	1891-92 to 1895-96	76,725,897	30,336,000	
"	1896-97 to 1900-01	76,092,300	44,120,004	
"	1901-02 to 1905-06	116,890,851	31,989,946	
"	1906-07 to 1910-11	116,534,572	53,068,293	
"	1911-12 to 1915-16	112,121,711	24,355,103	
In the year	1915-16 . . .	20,354,517	7,600,000	
"	1916-17 . . .	32,998,095	2,000,000	On rare occasions sterling bills on the Secretary of State are drawn and sold by the Government of India.
"	1917-18 . . .	34,880,682	64,927,000	
"	1918-19 . . .	20,946,314	..	

During the exchange crisis of 1907-08 the Government of India had occasion to sell such bills which were paid by the India Office. The amounts were £8,035,000 in 1908-09 and £156,000 in 1909-10. Occasion again arose to sell sterling bills after the outbreak of war, the amounts being £8,707,000 in 1914-15, £4,893,000 in 1915-16, and £5,315,000 in 1918-19.

* The rates since March 1919 were as follows with the dates of introduction:—20d (13th May 1919); 22d (12th August 1919); 24d (15th September 1919); 26d (22nd November 1919); and 28d (12th December 1919).

(a) Includes amount drawn against the Gold Reserve Fund, Rs. 2,90,86,395 = £1,939,093 in 1901-02, Rs. 39,45,000 = £263,000 in 1902-03, Rs. 3,30,00,000 = £2,200,000 in 1903-04, and Rs. 1,05,05,940 = £700,396 in 1904-05

(b) Includes amount drawn against the Gold Reserve Fund and Paper Currency Reserve, Rs. 7,31,45,000 = £4,876,333 in 1905-06

(c) Includes amount drawn against Gold Standard Reserve, Rs. 78,94,856 = £526,324 in 1907-08, Rs. 2,23,72,303 = £1,491,487 in 1908-09, Rs. 2,98,25,000 = £1,983,333 in 1911-12, Rs. 3,22,50,000 = £2,150,000 in 1913-14, and Rs. 90,00,000 = £600,000 in 1914-15

(d) Includes amount drawn against Gold Standard Reserve and Paper Currency Reserve, Rs. 13,63,50,000 = £9,090,000 in 1909-10, Rs. 4,71,75,000 = £3,145,000 in 1910-11, Rs. 23,58,49,000 = £15,723,000 in 1915-16, Rs. 34,93,37,000 = £23,289,000 in 1916-17, and Rs. 15,05,25,000 = £10,035,000 in 1917-18.

(e) Includes Rs. 21,51,96,000 = £14,346,000 drawn against Paper Currency Reserve.

WAYS AND MEANS OF THE HOME GOVERNMENT

[FOR TABLES, SEE PAGES 76 TO 80]

In the early years of the period for which figures are given in table No. 49, the disbursements in London of the East India Company were met not only by the sale of bills but, to a considerable extent, by the realisation of commercial assets and by repayments of advances made on goods in India and China. These "ways and means" gradually declined and became extinct about 1850. Thereafter the Government was financed in England mainly by means of Council bills, supplemented by borrowing, by deposits made by railway companies against expenditure in India, and by occasional resort to remittances in gold or silver from India. There was no remittance of silver between 1871-72 and 1914-15. In 1915-16 silver was again remitted to the amount of £100,000 and in 1916-17 to the amount of about £67,000. There was no remittance of silver in 1917-18 and 1918-19. No gold was remitted between 1880-81 and 1899-1900; in 1900-01 a remittance of gold was made to the extent of nearly £4,000,000. The subsequent remittances of gold have been as follows: about a million in 1901-02, nearly half a million in 1902-03, about £4 millions in each of the years 1903-04 and 1904-05, nearly 1½ millions in 1905-06, about a quarter of a million each in 1906-07 and 1908-09, a third of a million in 1912-13, about half a million each in 1913-14 and 1914-15, and £2 millions in 1915-16. Since the outbreak of war large amounts have been received in England in repayment of advances made by the War Office in respect of expenditure incurred in India in connexion with expeditionary forces and other war services. The amounts so received were £9 millions in 1914-15, £16 millions in 1915-16, £39 millions in 1916-17, £69 millions in 1917-18, and £92 millions in 1918-19.

In the ten years from 1909-10 to 1918-19 the disbursements amounted to about £923 millions, and, on the other side, Council bills represented £255 millions, borrowings £55 millions, and the amount received in repayment of advances made in India on account of the Imperial Government £265 millions, these three items totalling £575 millions.

No. 49.—Disbursements in England and the Ways and Means by
which they were met from 1834-35 to 1918-19

WAYS AND MEANS OF THE HOME GOVERNMENT*

* Compiled from the Home Accounts of the Government of India

† These disbursements include, besides ordinary expenditure, the amount of debt discharged, deposits and advances including investments on account of the Gold Standard and Paper Currency Reserves, and remittances on account of India including payments on account of silver purchased for India and of Bills of Exchange and Telegraphic Transfers on London sold in India. A reference to the next table should be made in this connection

(a) Includes £2,000,000 being an advance from His Majesty's Treasury under the Indian Advance Act, 1879

d the WAYS and MEANS by which they were met (in pounds sterling).

EXPENDITURES WERE MET										
ACCOUNT OF INDIA					Gold Standard Reserve : Net sale proceeds of gold received from India, and dividends on investments	Paper currency reserve	Release of gold held in England as a reserve to secure the payment of currency notes issued in India	Total receipts, excluding miscellaneous receipts	Cash balance at end of the year	
mitted from India in silver	Deposits by Railway Companies in excess of withdrawals	Total remittances	Borrowed in England	Sale of stock in the public funds

(a) Invested in British funds and Treasury bills
(b) Includes £4,911,621 on account of redemption of annuity, etc., of the Sind, Punjab, and Delhi Railways
(c) Includes £1,938,333 invested in Consols and Exchequer Bonds and £1,045,000 representing the transfer of gold at the Bank of England
(d) Includes £269,956 re-transferred to Home Treasury Balances in respect of profits on coinage remitted in excess during 1917-18

PRICES OF GOLD, SILVER, AND STOCKS, AND RATES OF EXCHANGE

[FOR TABLES, SEE PAGES 82 TO 104]

Table No. 51 is a record, from the year 1835, of the minimum and maximum prices of standard silver in London during each month, the yearly value of silver coined in England, the imports and exports of silver into and from England, the annual sum of Council Bills, and the Bank of England average rate of discount.

Table No. 52 shows the prices of standard silver in London and of bar gold in India, ruling at or about the close of each fortnight; also the relative values of the two metals in London and India. The mint price in London of gold $\frac{1}{2}$ fine is £3-17-10½ per ounce troy, but as standard silver is $\frac{3}{4}$ fine, the comparative value per ounce of gold $\frac{3}{4}$ fine or £3-18-7 is divided by the market price of an ounce of standard silver, and thus the relative value of the two metals is obtained. In India up till June 1893, when the mints were closed to the coinage of silver for the public, the comparison was made between the price of a tola of bar gold and the rupee which itself weighs one tola (180 grains) and contains 165 grains of pure silver. Thus the rupee price of a tola of gold was multiplied by a fraction of which 165 was the numerator and the denominator the number of grains of pure gold per tola of bar gold, that is to say 179.1 up to the close of 1887, when the touch of the bar gold was 99½, and 180 from January 1888, from which month prices were quoted for gold of 100 touch. From the latter half of June 1893, when the mints were closed, the relative values in India have been calculated on the market prices of the two metals at Bombay, excluding the import duty levied on silver (5 per cent from 10th March 1894 to 24th February 1910 and 4 annas per ounce from 25th February 1910).

Table No. 53 shows the course of the prices of silver in London since January, 1899, the figures representing the average for each half month, and the variations are worked out on the basis of the price of silver on the 1st June, 1893, the month in which the mints were closed.

Table No. 54 shows the course of the rates of exchange in Calcutta since January, 1898, the figures representing the average for each half month, and the variations are also worked out on the basis of the rate of exchange on the 1st June, 1893, being taken as 100.

Table No. 55 shows from the year 1899, the course of exchange on London, the Bank of England rate of discount, and the Bank of Bengal rate of interest.

Table No. 56 shows, from the year 1899, the price of sovereigns (British and Australian) and the price per tola of uncoined gold (China leaf of 100 touch) in India.

Table No. 57 records the course of the price of bar silver in Bombay, inclusive of import duty, from 1899-1900.

Table No. 58 records the course of the rate of exchange between India and China, from 1899-1900.

Table No. 59 shows the price of Government Securities in Calcutta; table No. 60 of India Stock in London, and table No. 61 of Enfaced Rupee Paper in London.

NOTE.—On the 26th June 1893 the mints were closed to the coinage of silver for the public and from that date the relative value of gold and silver in India ceased to be derivable from the rupee price of gold

* The exact amount is £3-18-6·99, but for convenience £3-18-7 has been adopted. It represents the equivalent of gold $\frac{3}{16}$ fine (the silver standard) derived from the mint price of £3-17-10½ per ounce for gold $\frac{1}{16}$ fine (the gold standard)

(a) From January 1883 the figures represent the price of bar gold of 100 touch at or about the close of each fortnight, as given in the "Current Quotations," published by the Chamber of Commerce, Bombay. Previously, the touch was 99½

MILITARY SERVICES

[FOR TABLE, SEE PAGE 106.]

The table on Military Services shows the detailed items of military receipts and expenditure of the Government of India, both in England and in India, for the last five years. The statistics do not take into account the expenditure on military operations, which is treated as extraordinary expenditure and met from the excess of ordinary revenues over ordinary outlay.

Military receipts on an average amount to over £1.65 millions. They represent about 1.6 per cent of the total revenue of the Government of India. They are derived from army, marine, and military works, and are distributed between India and England in the proportion of 4 to 1. Army receipts are derived from dairy farms, the sale proceeds of surplus stores, unserviceable animals, carts, etc., the capitation rate payable by the Imperial Government in respect of Indian troops lent for service in the Colonies, contributions and subscriptions towards the Indian Military Service Family Pensions, and contributions by the Imperial Government in respect of the cost of transport of troops and military charges for Aden. Marine receipts are derived from dockyard services and supplies, hire of vessels, and sale-proceeds of vessels and stores. Receipts on account of military works are derived mainly from rent of buildings, etc.

The gross military expenditure averages about £30 millions, and is 30 per cent of the total expenditure of the Government of India. The amount spent in India is over R36 crores (over £24 millions) and that in England £5.6 millions, the ratio being 81 and 19 per cent, respectively. The charges are shown under the heads of (1) effective, (2) non-effective, (3) marine, (4) military works, and (5) special defence works, the proportions

	R(crores)		
Effective	36	81.1	per cent.
Non-effective	5	10.8	"
Marine	1	2.6	"
Military works	2	5.5	"
Special Defence works	0.01	0.03	"

and of other services connected with the maintenance of the British establishment in India. The chief items

	R(crores.)		per cent.	
Regimental pay, allowances and charges (including volunteers and Indian Defence Force)	10	23.7		being as stated in the margin. The effective expenditure represents the cost of maintaining the standing army, and averages over R36 crores (over £24 millions). One of the most important items of army charges in England is the payment made to the Home Government to cover the cost of recruiting and training,
Supply and Transport (including farms)	3	9		and of other services connected with the maintenance of the British establishment in India. The chief items of effective charges are stated in the margin. The other items of effective charges are—administration, accounts, veterinary services, army clothing, remount establishments, medical services and stores, ecclesiastical, education, compensation for dearness of food and forage, hutting, conveyance, cantonments, and miscellaneous.

Ordnance Establishments, supplies and services 1 3.7
Stores for India (supplied from England) 2 5.4
The non-effective expenditure comprises charges for rewards and pensions. The total averages about R4.85 lakhs, R3.53 lakhs (£2.35 millions) or 73 per cent being spent in England and R1.32 lakhs or 27 per cent in India. The non-effective charges in England consist mainly of pay and pensions of non-effective and retired officers of the Indian Service and payments to the War Office for retired pay, etc. of British forces for service in India.

The expenditure on marine charges has been R1.15 lakhs, namely, R60 lakhs or 52 per cent in India and R55 lakhs (£369,000) or 48 per cent in England. The chief items of marine charges are the maintenance of the "Royal Indian Marine," the contribution made by the Government of India towards the expenses of His Majesty's ships employed in the Indian seas, and stores.

The expenditure on military works in recent years has averaged R2.46 crores. Military works consist of new buildings and repairs for the accommodation of troops, general cantonment works, and defence and other works.

The net expenditure of the Government of India on Military Services, both in India and in England, in the last five years has averaged about £28.2 millions or R42.4 crores annually. The figure for 1918-19 is £44.5 millions.

(a) From 1917-18, figures include those for the Indian Defence Force.

BANKS

[FOR TABLES, SEE PAGES 110 TO 113.]

Banks in India may be classified into (1) the Presidency Banks, *i.e.*, the Bank of Bengal, the Bank of Bombay, and the Bank of Madras; (2) the Exchange Banks, whose head offices are located outside India (these Exchange Banks may be sub-divided into 2 classes, *viz.*, those which do a considerable portion of their business in India, such as the Chartered Bank of India, Australia, and China (1853), the National Bank of India, etc, (1863), and those banks which are merely agencies of large banking corporations doing business all over Asia, such as the Hongkong and Shanghai Banking Corporation, the International Banking Corporation, the Russo-Asiatic Bank, the Yokohama Specie Bank, etc. (3) the Indian Joint-Stock Banks registered under the Indian Companies Act whose head offices are located in India; and (4) private and unincorporated bankers or money-lenders. Statistics relating to this last class (private and unincorporated bankers) are not generally available.

The total amounts of capital, reserve, deposits, and balances of the different classes of banks on 31st December, 1918, are compared in the table below with those on the corresponding date ten years ago :—

Class of Banks	CAPITAL AND RESERVE			DEPOSITS			CASH BALANCES		
	1908 R (lakhs)	1918 R (lakhs)	Increase per cent	1908 R (lakhs)	1918 R (lakhs)	Increase per cent	1908 R (lakhs)	1918 R (lakhs)	Increase per cent
Presidency Banks . . .	6,69	7,20	8	31,87	59,62	87	10,39	17,08	64
Exchange Banks* . . .	38,76	59,17	53	19,52	61,86	217	3,79	15,18	301
Indian Joint-Stock Banks with capital and reserve of R5 lakhs and over	3,09	6,02	95	16,26	40,59	150	2,45	9,49	287

The Presidency Banks.—Table 63 shows that at the end of 1918 the paid-up capital of the three Presidency Banks was the same as in the pre-war year 1913. Detailed statistics for each of the three Presidency Banks will be found in tables 68, 69 and 70. The following table shows from the pre-war year the public and private deposits, and the cash balances of the Bank of Bengal, the Bank of Bombay, and the Bank of Madras :—

31st December	BANK OF BENGAL			BANK OF BOMBAY			BANK OF MADRAS		
	DEPOSITS		Cash Balances	DEPOSITS		Cash Balances	DEPOSITS		Cash Balances
	Government (Public)	Private		Government (Public)	Private		Government (Public)	Private	
	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)
1913 (pre-war year) . . .	3,01	18,25	8,41	2,01	10,18	4,78	87	8,06	2,19
1914	2,87	21,61	11,70	1,83	10,82	6,47	91	7,62	2,67
1915	2,65	19,79	7,85	1,36	10,79	4,24	87	8,03	2,56
1916	2,74	21,44	7,73	1,42	13,67	6,68	1,04	9,60	2,87
1917	4,48	29,34	14,82	2,35	28,18	13,99	88	10,20	4,96
1918	5,85	23,93	8,94	1,77	17,50	5,42	1,02	9,54	2,71

As compared with the pre-war year, private deposits increased by 31 per cent in the case of the Bank of Bengal, 72 per cent in the case of the Bank of Bombay, and 18 per cent in the case of the Bank of Madras. Cash balances showed an increase of 24 per cent in the case of the Bank of Madras, 13 per cent in the case of the Bank of Bombay, and 6 per cent in the case of the Bank of Bengal.

The Exchange Banks.—The aggregate paid-up capital and reserves of the ten Exchange Banks amounted to £39 millions, while the deposits in India were £41 millions, and cash balances in India £10 millions (*vide* table 64). As compared with the pre-war year, the capital and reserves of these banks increased by 4 per cent, deposits and cash balances in India by 99 per cent and 158 per cent, respectively, as will be seen from the following table :—

	Capital and reserves £ (1,000)	Deposits in India £ (1,000)	Cash balances in India £ (1,000)
1913 (pre-war year)	37,825	20,690	3,922
1914	36,972	20,098	5,596
1915	36,793	22,364	5,068
1916†	37,931	25,359	6,760
1917	32,682	35,584	22,496
1918	39,449	41,237	10,117

Indian Joint-Stock Banks.—Indian Joint-Stock Banks are dealt with in table 65. There are 93 Indian Joint-Stock Banks with 206 branches and agencies chiefly scattered throughout the North-West of India, specially in the Punjab and the United Provinces. The tables in the volume deal with only those banks (47 with 197 branches) which have a minimum paid up capital and reserve of one lakh of rupees. These banks are sub-divided into two classes, namely, (i) those with a paid up capital and reserve of R5 lakhs and over, and (ii) those with a paid-up capital and reserve between one lakh and less than R5 lakhs.

* In the case of Exchange Banks deposits and cash balances in India only have been taken into account in this statement
† Excluding the Delhi and London Bank which was amalgamated with the Alliance Bank of Simla, Ltd.

BANKS

The aggregate paid up capital and reserves of these 47 banks in 1918 amounted to R6,65 lakhs, the deposits to R42,15 lakhs, and cash balances to R9,85 lakhs, as stated below :—

	CLASS I.				CLASS II.			
	Number of banks	Capital and reserves	Deposits	Cash balances	Number of banks	Capital and reserves.	Deposits	Cash balances
		R (lakhs)	R (lakhs)	R (lakhs)		R (lakhs)	R (lakhs)	R (lakhs)
1913	18	3,64	22,59	4,00	23	50	1,51	25
1914	17	3,93	17,11	3,53	25	55	1,26	28
1915	20	4,38	17,87	3,99	25	55	91	20
1916	20	4,61	24,71	6,03	28	63	1,01	17
1917	18	4,67	31,17	7,65	25	54	99	20
1918	19	6,02	40,59	9,49	28	63	1,55	37

Deposits.—It will be seen from the table below that although the deposits in the Presidency Banks decreased in the year under report as compared with the preceding year, the total deposits in all the banks have steadily increased during the last thirty years, the only set-back being in 1914 and in 1915, the first two years of the war period. The deposits of the Exchange Banks refer to Indian deposits only.

Year	Presidency Banks and Branches	Exchange Banks (Deposits in India only)	Indian Joint-Stock Banks	TOTAL
	R(1,000)	R(1,000)	R(1,000)	R(1,000)
Thirty years ago (1888)	10,84,30	4,53,68	1,82,56	17,20,54
Twenty years ago (1898)	13,84,51	9,49,29	6,81,08	30,14,88
Ten years ago (1908)	31,87,32	19,51,52	16,26,09	67,64,93
1909	35,84,79	20,27,42	20,49,10	76,61,31
1910	36,58,01	24,79,17	25,65,85	87,03,03
1911	38,58,29	28,16,90	25,29,11	92,04,30
1912	40,11,48	29,53,62	27,25,98	96,91,08
1913	42,37,16	31,03,54	24,10,34	97,51,04
1914	45,65,60	30,14,76	18,37,12	94,17,48
1915	43,49,86	33,54,56	18,78,64	95,83,06
1916	49,91,45	38,03,88	25,72,28	1,13,67,61
1917	75,43,02	53,37,53	32,16,21	1,60,96,76
1918	59,62,03	61,85,60	42,14,83	1,63,62,46

Cash Balances.—As will be seen from table 67, cash balances at the end of 1918 were 29 per cent of the liabilities on deposits in the case of the Presidency Banks, 20 per cent in the case of Exchange Banks doing a considerable portion of their business in India, and 44 per cent in the case of those Banks doing business all over Asia. The percentage for Indian Joint Stock Banks is 24.

Dividends of Banks.—The year's banking results are brought out in the dividends of banks for 1918. Of the fifteen banks referred to below nine declared higher dividends than in the previous year. The remaining banks paid the same dividends as in 1917.

Banks	1912	1913 (pre-war year)	1914	1915	1916	1917	1918	Yield at prices of share at end of December 1918

* The Bank of Rangoon was amalgamated with the Alliance Bank of Simla, Ltd., in 1917

BANKS

Banking results.—In the following table are compared the principal items in the balance sheets of the three classes of banks. The figures for the Exchange Banks and the Indian Joint Stock Banks relate to those banks for which figures for both 1917 and 1918 are available, namely, 9 Exchange Banks and 40 Indian Joint Stock Banks. The principal items in the balance sheets of the three Presidency Banks are shown separately :—

Banks.	Deposits, etc.		Cash in hand, at bankers, etc.		Investments.		Bills discounted, etc.

While deposits and investments showed a decrease, as compared with the previous year, in the case of the Presidency Banks, there was a considerable increase in the case of the Indian Joint Stock Banks and the Exchange Banks. Cash in the case of the Presidency Banks, after an abnormal increase in 1917, fell to the level of 1916 ; it also fell appreciably in the case of the Exchange Banks, but in the case of Indian Joint Stock Banks, there was a considerable increase.

POST OFFICE SAVINGS BANKS

[FOR TABLE, SEE PAGE 115]

Until 1882-83 the savings bank business conducted under Government control was carried on in the three cities of Calcutta, Madras, and Bombay by the Presidency Banks, and elsewhere by the Government treasuries. So long as this system was maintained, the business grew but slowly. The highest balances in the district treasuries never exceeded R75 lakhs (in 1884-85), and in the Presidency Banks the highest balances (in 1882-83) amounted only to R2,36 lakhs. In 1886-87 the Savings Banks in the district treasuries were closed. The Presidency savings banks were maintained until 1895-96, although the deposits in them gradually declined in consequence of the preference given to the post office by the public, and now the whole of the savings bank business of Government is a branch of the postal administration. The establishment of savings banks in the post offices was followed by a rapid change. In the first year of their existence the balances were only R27 lakhs, but the public soon indicated their preference for business with the post office. By 1886-87 when the savings banks in the district treasuries were closed, the balances in the post offices amounted to R4 crores. During the succeeding years there was a considerable increase, although the Government took steps to prevent it from being inconveniently rapid. For this purpose in 1889-90 the maximum sum receivable was reduced from R3,000 to R2,000, and in 1894-95 the rate of interest was reduced from $3\frac{3}{4}$ per cent to $3\frac{1}{2}$ per cent in correspondence with the reduction in the rate of interest on Government securities. In 1893-94 the balances amounted to R9 crores; ten years later, in 1902-03, they reached R11 crores. In 1913-14 the balance of deposits, inclusive of interest, amounted to R23 crores, or £15 millions. On the 1st April 1914, however, the maximum amount receivable for deposit was raised from R2,000 to R5,000. The amount of Savings Bank deposits, it was expected, would increase by these measures, but owing to heavy withdrawals due to the outbreak of war the balance of deposit in 1914-15 fell to R15 crores, or £10 millions, a decrease of 35 per cent over 1913-14. The decrease was arrested in the following year and in 1918-19 the balance amounted to nearly 19 crores, or £12½ millions.

The amount of interest accrued in 1918-19 was about R47 lakhs, as against R44½ lakhs in the previous year. The rate of interest allowed on accounts has been as follows: $3\frac{3}{4}$ per cent from 1867-68; $4\frac{1}{8}$ per cent from the 1st January, 1880, to the 31st May, 1881; $3\frac{3}{4}$ per cent until the end of 1893-94; $3\frac{1}{8}$ per cent from April, 1894, to June, 1905. From July, 1905, depositors were allowed to deposit money either at call or subject to six months' notice of withdrawal, and the interest on deposits at call was reduced from $3\frac{1}{8}$ per cent to 3 per cent, while interest at the rate of $3\frac{1}{4}$ per cent was given on deposits that were held subject to six months' notice of withdrawal. Since 1st January 1911, the system of deposits subject to six months' notice of withdrawal has been abolished.

The total number of depositors has increased greatly in the last ten years ending 1918-19, but the average balance per depositor has slightly decreased. In 1908-09 the total number of depositors was 1,319,000 and the average balance per depositor was R116; while in 1918-19 the number was 1,677,000 and the average balance R112, thus showing an increase of 27 per cent in the number, but a decrease of 3 per cent in the case of the average balance.

Investments in Government Securities through the Post Office during the last five years as compared with the pre-war year are shown in the following statement:—

[In thousands of rupees.]

	1913-14 (pre-war year)	1914-15	1915-16	1916-17	1917-18	1918-19

* Compiled from the annual report on the Post Office of India.

NOTE.— The Savings Bank business of the district treasuries was transferred to the Post Office in 1886-87, and that of the Presidency Banks was closed in 1896-97, since which year the Savings Banks have been entirely managed by the Post Office.

(a) From 1912-13 the distinction between European and Indian depositors has been discontinued. Information regarding the different classes of depositors is no longer maintained in the records of the Director-General, Posts and Telegraphs, as such information is of doubtful utility.

CO-OPERATIVE SOCIETIES

[FOR TABLES, SEE PAGES 118 TO 120]

The Co-operative Credit Societies Act, X of 1904, was passed on the 25th March 1904 to "encourage thrift, self-help, and co-operation among agriculturists, artisans, and persons of limited means." In March 1912 this Act was repealed by the Co-operative Societies Act (II of 1912). There are two classes of primary societies distinguished as non-agricultural and agricultural : a *non-agricultural society* is defined as a society in which not less than four-fifths of the members shall be non-agriculturists, and an *agricultural society* is a society in which not less than four-fifths of the members shall be agriculturists. Each society consists of ten or more members above the age of eighteen years residing in the same town or village or in the same group of villages, or belonging to the same tribe, class, caste, or occupation, who, by combining to furnish a collective guarantee, can, on the security of that guarantee, obtain money at lower rates of interest than they could obtain it individually. As the primary societies in a certain area, usually a district, increase in number, these are federated under a joint central institution called a *Central Bank*, or a *District Bank*, or a *Banking Union*. The central institution may only finance the primary societies without inspecting them, and such a body constitutes a Central or a District Bank in the more restricted sense of the terms ; or it may both inspect and finance its constituent societies, and it is then spoken of as a Banking Union. There is yet another class of combination of individual societies, which acts as an intermediary between the primary society and the Central Bank, and it is called a *Supervising and Guaranteeing Union*. It is formed by the union of a group of primary societies within a restricted area, the societies furnishing a mutual guarantee for each other's credit which makes it a matter of self-interest to see that each society in the group maintains a high level of efficiency. It exercises a general control over the affiliated societies, the loan applications of which it scrutinises before these are submitted to the central financing agency. The Central Bank (including District Bank and Banking Union) taps deposits from a wide field, and is in its turn financed by the *Provincial Bank*. A *Cattle Insurance Society* is formed with the owners of cattle as members, who annually pay to the society a premium sufficient at least to equal the yearly amount of loss sustained in respect of the animals assured. From the premia thus collected the society indemnifies its members for losses sustained during the year. These societies are affiliated to a *Central Re-insurance Society* which, in return for a definite share of the insurance premia of the affiliated societies, undertakes a definite share of their risks in order to save local societies from ruin by local calamities.

The Tables indicate some of the leading features of progress in the co-operative movement and show the numbers of societies and members, and the working capital for the whole of India for 1918-19 and previous years, and by Provinces for 1918-19 only.

In Tables 74 and 76, when comparing the figures for the year 1918-19 with the figures for years prior to 1915-16, the following points should be borne in mind :—

- (i) that in the case of Guaranteeing Unions and Re-insurance Societies the number of members represents the number of affiliated societies and not the number of individual members included in such societies ;
- (ii) that the total number of members in Table 74 is not the sum total of the preceding four items but that of agricultural and non-agricultural societies only, the assumption being that all individual members of Central and Provincial Banks, Banking Unions, and Guaranteeing Unions have already figured once as members of an agricultural or non-agricultural primary society ;
- (iii) that the figures for working capital given in Table 76 do not include the working capital of Unions, Cattle Insurance, and Re-insurance Societies ;
- (iv) that with effect from the year 1915-16 the loans and deposits of society-members have been transferred in Table 76 from the head "Loans and deposits held at the end of the year from members" to the head "Loans and deposits held at the end of the year from societies," and that the latter head no longer includes loans and deposits from Provincial or Central Banks for which a separate head has been provided ; and
- (v) that with effect from the same year (1915-16) the figure given against the head "Loans and deposits held at the end of the year from non-members and other sources," includes all loans and deposits held by Central and Provincial Banks from individuals, Joint Stock Banks, and other sources not included against the preceding headings.

The statistics given in the tables relate to all the provinces in British India except Delhi, the North-West Frontier Province, and British Baluchistan, where the co-operative movement has as yet made little progress. In 1917-18 statistics relating to Co-operative Societies in the Hyderabad Administered Area have been introduced. They also include the figures for the Indian States of Mysore, Baroda, and Hyderabad. Many other States, such as Travancore, Cochin, Gwalior, Indore, Patiala, etc., have introduced co-operation among their subjects, but statistics for these States are not at present available and included in the statements.

CO-OPERATIVE SOCIETIES

The progress hitherto made in the co-operative movement has been exceedingly encouraging. The total number of societies at work at the end of the year 1918-19 was 32,439, the membership of primary societies 1,235,891 and the working capital of all societies R17,55,32,000. Central societies numbered 1,081 and had a membership of 121,453. 333 of these societies were Provincial and Central Banks, and 748 Unions (including Re-insurance societies). The number of non-agricultural societies was 1,971 with a membership of 261,675. The number of agricultural societies was 29,387, and the membership of all classes of agricultural societies was 974,216.

During the last decade the number of societies of all classes rose from 3,498 to 32,439, the number of members of primary societies from 227,000 to 1,236,000, and the total working capital from R1,24 lakhs to R17,55 lakhs. The reserve fund during the period grew from R3,36,000 to R1,50,42,000, and the paid-up share capital from R23,08,000 to R2,84,34,000. State aid (R7,22,000) formed 5·8 per cent of the working capital in 1909-10, while in 1918-19 the amount of loans and deposits held from Government—R34,01,000—formed only 1·9 per cent of the total capital.

CO-OPERATIVE SOCIETIES. (118)

LIFE ASSURANCE

[FOR TABLES, SEE PAGES 123 AND 124]

The history of Indian Life Assurance Companies can be traced as far back as 1829, when the Madras History Equitable Assurance Company was started in Madras. Forty-two years later, the Bombay Mutual Assurance commenced business in the year 1871. In Bengal, Life Assurance business does not appear to have begun until 1891, when the Hindu Provident Fund came into existence. It took, however, several years before the business began to become popular in this country and in 1906 a number of companies were established in different provinces. No reliable statistics regarding Indian Life Assurance Companies were available until the Indian Life Assurance Companies Act, VI of 1912, was passed for the regulation of Life Assurance Companies doing business in British India.

The tables (Nos. 78—80) show the statistics relating to Indian Life Assurance Companies, furnished by Scope of the the Actuary to the Government of India. They deal with companies registered and working in India, tables and relate to the five years ending 1918. The statistics from 1913-14 to 1915-16 relate to the years ending on different dates for different companies, not later than 30th June each year. From 1917 they refer to the calendar year. The number of companies dealt with was 44 in 1913-14, 42 in 1914-15, 44 in 1915-16, 41 in 1917, and 43 in 1918.* These statistics exclude foreign companies, working in India, which comply with the provisions of the British Assurance Companies Act of 1909 and are partially exempt from the Indian Act of 1912. The tables also exclude companies and funds which have been granted complete exemption from compliance with the Act, namely, (a) Pension and other Funds connected with the Indian Government Services, (b) the many small societies which, on account of either the sum or the premium stated in their policies being under certain specified limits, are subject to the Indian Provident Insurance Societies Act, (c) certain pension and annuity funds, and (d) companies which are no longer issuing policies in India.

The total income shown in the Life Assurance Revenue Accounts of the companies dealt with in these Income statistics was R1,54 lakhs in 1918, against R1,44 lakhs in 1917, R1,37 lakhs in 1915-16, R1,43 lakhs in 1914-15, R1,42 lakhs in 1913-14. The sources from which the income was derived, and the proportion of the amount derived from each source in 1918, are noted below :—

	Income R	Proportion to total income
Premiums and Annuities	1,14,32,000	74.3
Interests and rents, etc. (less tax)	35,99,000	23.4
Other items of receipts	3,59,000	2.3
Total	1,53,90,000	100

This income was disposed of as follows :—

	Payment R	Proportion to total payment	Outgo
Claims by death	54,83,000	35.7	
" maturity	19,76,000	12.8	
Surrenders	3,44,000	2.2	
Annuities and pensions	94,000	0.6	
Bonus in cash and reduction of premium	1,10,000	0.7	
Dividends to share-holders	64,000	.4	
Expenses	25,01,000	16.3	
Depreciation, transfer to investment reserve funds, etc.	32,22,000	20.9	
Increase to funds	15,93,000	10.4	
Total	1,53,90,000	100	

The total expenses in connection with life assurance business amounted to 21.9 per cent of the premium income in 1918, as against 20 per cent in 1917 and 1915-16, 22½ per cent in 1914-15, and 24 per cent in 1913-14.

The life assurance funds of Indian companies amounted to R7,37 lakhs in 1918 against R7,19 lakhs in Funds and 1917, 7,01 lakhs in 1915-16, R6,63 lakhs in 1914-15, and R5,84 lakhs in 1913-14. These funds in 1918 earned capital interest at the rate of 5.07 per cent on the average, after deduction of income-tax. The total amount of paid-up capital of the companies at the end of the year amounted to over R43 lakhs, and the total realisable assets, consisting of mortgages, loans, Government promissory notes, debentures and shares, house property and other investments, stocks, interests, deposits, etc., amounted to R9,04 lakhs.

The following table illustrates the distribution of assets among the different classes of investments held Investments by Indian companies :—

Nature of Assets	Amount. R	Proportion to total assets
Mortgages and Loans on rates	14,39,000	1.6
Debentures, including all British, Indian, and Colonial Municipal Securities	1,38,76,000	15.3
Preference, Guaranteed and Ordinary shares	15,13,000	1.7
House and Landed Property	57,18,000	6.3
Outstandings	15,29,000	1.7
Loans on Personal Securities	2,31,000	.3
" on Policies	73,07,000	8.1
British, Indian and Colonial Government Securities	5,39,24,000	59.6
Accrued interest	10,16,000	1.1
Cash	28,92,000	3.2
Preliminary expenses, etc.	9,72,000	1.1
Total	9,04,17,000	100

* For the names of the companies included in these tables, a reference is invited to the Returns from Life Assurance Companies doing business in British India (Sixth Issue) published by the Actuary to the Government of India.

New policies	The total amount of new sums assured by Indian companies during the year 1918 was over R2,85 lakhs. Details for the different kinds of policies are given in the marginal table. Over four-fifths of the total amount is under endowment assurance policies, providing for payment of the sum assured at the end of the stipulated period or at the death of the life assured, if it occurs previously. Limited Payment Policies come second in point of magnitude with a total of R23 lakhs.		
	Policies	Sums assured	Proportion to total
		R	
	Whole Life	20,08,000	7.0
	Limited Payment	22,79,000	8.0
	Endowment Assurance	2,38,18,000	81.7
	Children's Endowments and other classes	9,54,000	3.3
	The average rate of annual premium payable under the policies issued by Indian companies is nearly 5½ per cent of the sum assured.		
Sums assured	The total sums assured, including bonus additions under the policies (both old and new) in force at the end of the year 1918, was over R25 crores. This is over R1 crore, or 4 per cent, more than the corresponding amount at the end of the year 1917.		
Policy Stamp duty	Prior to 1916 the minimum rate of stamp duty on policies was six annas for a policy insuring a sum not exceeding R1,000. In order to encourage industrial life insurance in India the duty was reduced in 1916 to two annas for policies of R250 and under, and four annas for policies of over R250 but not exceeding R500.

Part II

Principal Heads of Revenue,—Land Revenue, Opium,
Salt, Stamps, Excise, etc.

LAND REVENUE

[FOR TABLES, SEE PAGES 128 AND 129]

This section shows the details of land revenue receipts and expenditure. Five years' figures have been given in each table for each province.

The total land revenue, which represents nearly a quarter of the total revenue of India, is made up, on the average of the last five years, chiefly of receipts under the heads stated in the margin. Receipts from the sale of proprietary right, waste lands, etc., and recovery of survey and settlement charges amounted to about 2 per cent. Land revenue due to irrigation amounts to about R2 $\frac{3}{4}$ crores and represents about 8 per cent of the total land revenue, but is deducted therefrom to arrive at the net land revenue.

The ordinary land revenue amounts to about R31 $\frac{1}{2}$ crores, of which over R6 $\frac{3}{4}$ crores are contributed by Madras, R6 $\frac{1}{2}$ crores by the United Provinces, R4 $\frac{1}{4}$ crores by Bombay, R3 $\frac{1}{2}$ crores by the Punjab, about R3 crores by Burma, R2 $\frac{3}{4}$ crores by Bengal, nearly 2 crores by the Central Provinces and Berar, R1 $\frac{1}{2}$ crores by Bihar and Orissa, R $\frac{3}{4}$ crore by Assam, and about R $\frac{1}{4}$ crore by the North-West Frontier Province. The permanent settlement system obtains over the greater part of Bengal and Bihar, nearly a third of the Madras Presidency, some districts of the United Provinces, and other scattered tracts. In 1918-19 there was a decrease of R57 lakhs as compared with the preceding year.

Over 97 per cent of the receipts from assessment of alienated lands less quit-rents is contributed by the Bombay Presidency, where a large revenue is derived from assessment on *inam* lands. The Punjab contributes about 2 per cent, while the share of Bengal is below 1 per cent.

Burma contributed 97 per cent of the capitation tax, the remaining 3 per cent being contributed mainly by Assam.

Burma is responsible for nearly two-thirds of the receipts under fisheries and miscellaneous revenue. The Punjab and the United Provinces contribute R10 lakhs and 6 $\frac{1}{4}$ lakhs respectively. Bihar and Orissa, the North-West Frontier Province, Bengal, Bombay, Madras, the Central Provinces and Berar, and Assam, follow with shares varying from R4 $\frac{1}{2}$ lakhs to R1 $\frac{1}{4}$ lakhs each.

Land revenue due to irrigation is derived chiefly from Madras, the Punjab, the United Provinces, and Bombay. In the last five years this item of revenue has increased from R2,50 lakhs to R2,86 lakhs or by 14 per cent, the year under review (1918-19) showing an increase of about 8 per cent as compared with the preceding year.

The expenditure on land revenue (including district administration) is about 17 per cent of the receipts and represents 4 per cent of the total expenditure. The detailed items are, on the five years' average, stated in the margin. The expenditure on district administration is highest in the United Provinces, which is answerable for over 19 per cent. Madras comes next with a share of over 18 per cent, Bombay accounts for 16 per cent, Bengal for about 11 per cent, Burma and the Punjab for 9 per cent each, Bihar and Orissa for 7 per cent, the Central Provinces and Berar for about 5 per cent, Assam for 3 per cent, and the North-West Frontier Province for about 2 per cent.

Bengal leads with a share of 29 per cent of the expenditure on survey and settlements, Madras accounts for 18 per cent, Bihar and Orissa for 15 per cent, the Punjab for 11 per cent, Burma for 8 per cent, the United Provinces and the Central Provinces and Berar for 6 per cent each, and Bombay and Assam for 2 per cent each.

The United Provinces account for nearly 26 per cent of the expenditure under district charges. Madras and Bombay come next with about 20 per cent each, the Punjab and Burma with 11 per cent each, and the Central Provinces and Berar 3 per cent.

Nearly the whole (96 per cent) of the charges on account of commissions on collection is incurred in Burma and Assam.

Madras is answerable for 59 per cent of the expenditure under "Allowances to district and village officers," Bombay nearly 23 per cent, and the Central Provinces and Berar about 18 per cent.

LAND REVENUE.

No. 1.—LAND REVENUE RECEIPTS in each PROVINCE in each official year, 1914-15 to 1918-19

		Ordinary Land Revenue	Assess- ment of alienated lands, less quit- rents	Capita- tion tax	Sale of proprie- tary right, waste lands, etc.	Fisheries and miscel- laneous revenue (b)	Recovery of survey and settlement charges	Total	Deduct Land Revenue due to irrigation	Net Land Revenue

* Compiled from the Finance and Revenue Accounts of the Government of India

(a) Includes Ajmer-Merwara, Coorg, Bangalore, Baluchistan and Central India Agencies

(b) The chief reasons why the receipts under this head are so large in Burma and so small in Bengal are (1) the Burma figures of miscellaneous revenue include a large amount derived from petroleum, which does not occur in Bengal; (2) owing to the permanent settlement the Government receipts from fisheries in Bengal are very small as compared with those in Burma where there is no permanent settlement.

(a) In Bombay the settlement work is generally entrusted to ordinary administrative officers and not to officers specially appointed for the purpose as in other provinces

(b) In provinces other than Bombay this head shows charges on account of "supervision of land records" only, whereas in Bombay besides the supervision charges it includes other items, such as the cost of (1) Central Division Survey Party, (2) Alienation Office, Poona, (3) City Land Records Estate, and (4) special measurement operations and demarcation of waste lands in Sind

(c) Owing to the peculiar system of revenue collection in Burma and Assam the practice of collecting revenue by paying commission to the collecting agency is followed more largely in these provinces than elsewhere

FORESTS

[FOR TABLES, SEE PAGES 131 TO 150]

The tables in this section show statistics regarding State forests only, *i.e.*, lands administered as forests by the Forest Department of the Government of India under legal enactments for the time being in force dealing with forests. There are in British India immense forest areas outside the direct control of the Forest Department, which are managed by district officers, local boards or municipalities, or by private owners, statistics regarding which are not shown in these tables. Forest areas in Indian States also are not taken into account in these tables.

Classes of forests

The forests under the direct control of the State are classed as "Reserved," "Protected," and "Unclassed" or "Public" forest lands. The "Reserved" forests are intended to be maintained permanently for the supply of timber, fuel, and other produce, or for the protection of the water-supply or other similar reasons. The "Protected" forests may be either in a state of transition to reserves or intended to remain permanently in the second class. In the former case it has been found necessary to prohibit within these areas certain acts harmful to the forest until such time as careful examination permits of a decision whether more stringent rules shall be enforced; and in the latter the object in view has been to provide for the more beneficial exercise of rights by local communities. The "Unclassed" or "Public" forest lands are those given over with even fewer restrictions (in some cases to the extent of exemption from the operation of forest law) for the use of the public.

Extent of forests

Table No. 3 shows all State forest lands and proportion thereof to total area in British India in each year from 1899-1900 to 1918-19. Out of the 251,468 square miles under State management in 1918-19, which is 23·3 per cent of the total area (1,080,794 square miles) of British India, 101,639 square miles or 9·4 per cent were reserved, 8,557 square miles or 0·8 per cent were protected, and the remaining 141,272 square miles or 13·1 per cent were unclassified.

Table No. 4 shows all State forest lands and proportion thereof to whole area in each province in each of the five years ending 1918-19. These provincial statistics show that in 1918-19, the percentage of forest land varied from 1·4 per cent in Baluchistan to 70·2 per cent in the Andamans. The largest area of unclassified forests occurs in those provinces where the population is scantiest; in fact Burma claims 116,829 square miles or 82·7 per cent of the total area under this head, while Assam appropriates the bulk of the balance, *i.e.*, 16,309 square miles or 11·5 per cent.

Working plans

Table No. 5 shows the progress of working-plans in each province in each official year from 1914-15 to 1918-19. Under the Forest Acts the Provincial Government deposes an officer who compiles a working-plan which regulates the amount and removal of outturn and prescribes the other requisite operations such as sowing, planting, thinning, and cleaning. Working-plans are generally compiled for periods of 20 to 40 years, after which revision or possibly the introduction of an entirely new system of management will be necessary. Statistics for 1918-19 show that 60,670 square miles or about 60 per cent of the area of reserved forests are worked under regular plans.

Financial results

The direct value of forests to the State may be gauged by the financial results of their working as shown in tables Nos. 6 to 9. In 1918-19 the gross revenue collected through the agency of the Department amounted to R468 lakhs and the total expenditure to R289 lakhs, the net revenue being R179 lakhs or R71 per square mile of land under the control of the Forest Department. Some 26·8 per cent of the total revenue is derived from Burma, while next in importance in this respect come the forests of Bombay, of the United Provinces and of Madras. The sale of timber and fuel produced R335 lakhs, minor produce about R36 lakhs, and receipts from grazing R30 lakhs. The steady improvement in forest revenue is worthy of note. Between 1898 and 1903 it averaged R190 lakhs. By 1907-08 the quinquennial average had risen to R251 lakhs, by 1911-12, to R280 lakhs, and by 1917-18, to R344 lakhs. During the same period the expenditure had increased from R108 lakhs to R136 lakhs, R158 lakhs, and R188 lakhs, respectively. In 1918-19 the gross revenue was R4,68 lakhs and expenditure R 289 lakhs. In 1918-19 the proportion of expenditure to gross revenue was about 62 per cent. Of the total expenditure about 37 per cent was spent on administration, and over 62 per cent on working, protection, and improvement.

The net revenue of the State forests has between 1899 and 1919 risen from R80 lakhs to R179 lakhs, and the yield is, as the result of protection and improvement, more than sufficient to meet increased demands on their produce. It may be added here that timber and other produce from State forests is given free (or at reduced rates) in large quantities to the people resident in the vicinity. In 1918-19 the value of these grants amounted on a very low estimate to about 20 per cent of the gross revenue collected from the State forests.

Forest Produce

Table No. 10 shows the total outturn from the forests under the control of the Forest Department in each province. It is generally, for the sake of convenience, classed under timber including fuel, bamboos, and other minor produce including grass and grazing, besides all those numerous products found or manufactured in a forest. The total outturn of timber and fuel from State forests amounted, on an average of the five years ending 1918-19, to 307 million cubic feet; the average outturn per square mile varies considerably in the different provinces. The yield of minor produce (including bamboos) from State forests was valued in 1918-19 at about R1,42 lakhs, the chief items, besides bamboos, being grazing and grass, caoutchouc, lac and dyes, cutch and gambier, cardamoms, myrobalans, and other tanning materials.

Protection of forests

Table No. 11 shows the results of protection of forests from fire and cattle and of grazing. Fire conservancy operations in British India extended in 1918-19 over 43,966 square miles, which is 43 per cent of the total area of reserves. The area closed to grazing amounted to 48,977 square miles, of which 22,728 were in Burma, where cattle are few and vast tracts of waste land are still available outside reserves. The area closed to browsers, principally goats, amounted to 29,572 square miles situated chiefly in the Bombay Presidency and the Central Provinces and Berar. The number of animals grazed was 8,007,869 on payment and 5,516,511 free.

FORESTS*

1918-19	1,080,794	101,639	8,557	141,272	251,468	23·3

* Compiled from the Annual Statistics relating to Forest Administration in British India published by the Government of India and from Provincial Reports on Forest Administration.
† Unclassed State forests or ' public forest lands ' as they are often called, include in many provinces all unoccupied waste, often entirely devoid of trees. So the statistics do not necessarily represent the wooded area.
‡ This large increase is due to the incorporation for the first time of the statistics for Burma.

OPIUM

[FOR TABLES, SEE PAGES 153 TO 165]

The region in which the poppy was cultivated in 1918-19 for the manufacture of "Bengal opium" Bengal
opium comprised thirty-two districts in the United Provinces of Agra and Oudh. The whole Department has, with effect from the 29th September, 1910, been under the control of one Opium Agent, with headquarters at Ghazipur. At Ghazipur there is a Government factory where the crude opium is manufactured into the form in which it passes into consumption. The cultivation of the poppy and the manufacture of opium are regulated by Act, XIII of 1857, as amended by Act, I of 1911, and are under the general control of the Lieutenant-Governor and the Board of Revenue of the United Provinces and the immediate supervision of the Opium Agent at Ghazipur. The possession, and transport, of opium are regulated by rules framed under section 5, Act I of 1878 (the Indian Opium Act). Cultivation is permitted only under license granted under the authority of the Opium Agent. The area to be cultivated is fixed by the license, and the cultivator is bound to sell the whole of his production to the Opium Department at the rate fixed by Government. This rate was fixed in 1894-95 at Rs. 6 per seer of 70° consistency, which was raised to Rs. 7-8 per seer in 1913-14 and to Rs. 9 per seer in 1916-17. For 1920-21 it has been fixed at Rs. 11. Cultivators are granted an advance payment at the time of their executing agreements and sometimes a further payment (and occasionally more) before actual delivery. In March, April, and May the opium is made over to the officers of the Department and weighed and tested, and as soon as possible afterwards each cultivator's accounts are adjusted, and the balance due is paid to him. After weighing the opium is forwarded to the Government factory at Ghazipur, where it is manufactured in three forms—(a) opium intended for export to foreign countries, departmentally known as "provision" opium, (b) opium intended for consumption in India and Burma, departmentally known as "excise" opium, and (c) medical opium for export to London. Provision opium is made up in the form of balls or cakes, each weighing 3·5 lb, and is packed in chests, each chest containing forty cakes, weighing 140½ lb. It is generally of 71° consistency. Excise opium is made up in cubical packets, each weighing one seer, 60 of which are packed in a case. It is of 90° consistency. Medical opium is made up in cakes each weighing 2 lbs. at 87·50° consistency. Provision opium is sold by public auction in Calcutta. A notification is published annually, generally before the month of October, stating the minimum number of chests which will be put up for sale in each month of the next calendar year, and the quantities so notified are not altered without three months' notice. Sales are conducted month by month by the Bengal Government. 5,600 chests were notified for sale in 1919 for shipment to non-China markets. The number of chests actually sold was 3,600. In addition to this 4,000 chests were sold to the Government of the Straits Settlements, 2,000 to the Government of Netherlands Indies, 540 to the Government of Hongkong, 1,700 to Siam, and 120 to the Government of North Borneo. The duty levied by Government on each chest may be taken to be the difference between the average price realised and the average cost.

Under a convention made in 1815, the French Government has the right to purchase not more than 300 chests of opium each year, at the average price realised for the rest of the opium at the sales. This right has been commuted for a money payment, amounting to Rs. 8,000 a year, under agreements which at present remain in force until the 31st December, 1924. The agreement binds the French Government to take effective steps for the prevention of illicit traffic in opium between French and adjacent British territory.

The cultivation of the poppy is prohibited in British provinces other than the United Provinces, to a certain extent in the Punjab, and in some of the frontier provinces of Burma. The only licit supply of opium for internal consumption is what is known as "Bengal Excise Opium." This is supplied from the Ghazipur Opium Factory and from the Calcutta Presidency godowns to Government treasuries and depôts, whence it is issued, on payment, to licensed vendors and druggists only. In the accounts a sum, Rs. 13 per seer, out of the proceeds of this opium is credited under opium as representing the estimated cost of production. The remainder of the proceeds is credited under excise. The various provinces submit their indents through the Board of Revenue, United Provinces. These are forwarded to the Opium Agent, Ghazipur, and the quantity indented for is supplied direct from the Opium factory to the treasuries and Government depôts, and the issues are made from the latter to licensed vendors.

Malwa opium is almost entirely produced in the Indian States in the Central India and Rajputana Agencies Malwa
opium and the Baroda State. In the Khairpur State (Sind) it is grown in the Khairpur taluka, but production is limited to the requirements of the State. A chest of Malwa opium contains 140 lbs. in weight. The opium is of 90° to 95° consistency and is usually packed in half-chests for convenience of carriage.

Rajputana and Central India.—In the Indian States of Rajputana and Central India the British Government does not control the cultivation of the poppy or the manufacture of opium or its local consumption. Malwa opium was imported into the Bombay Presidency for local consumption in British India as well as for exportation by sea to China, a duty, commonly called pass-duty, being levied by the British Government. This pass-duty constituted the British revenue from Malwa opium: and the rates varied from time to time. The importation of Malwa opium for local consumption in the Bombay Presidency has been discontinued with effect from the 1st April, 1912, the Presidency being supplied from Ghazipur. Under arrangements made between His Majesty's Government and the Government of China a fixed number of chests of Malwa opium could only be exported to China. The export has, however, been prohibited since 1st January, 1914.

Baroda.—The cultivation of the poppy and the manufacture of opium are permitted in Baroda, under a State monopoly, for consumption in the State. The State has, by agreement, assimilated its retail system

and selling prices to those in force in adjacent British districts, and prevents the introduction of Baroda opium into British territory and into the territories of adjacent Indian States.

The following purchases of opium from the States of Central India and Baroda have been made by Government :—

	Mds. at 70°		Mds. at 70°
1912-13	6,247	1916-17	7,887
1913-14	20,502	1917-18	7,374
1914-15	13,551	1918-19	8,199
1915-16	20,812		

This opium is used for the preparation of excise opium.

Punjab and Burma.—The cultivation of opium is permitted in certain districts of the Punjab and Burma on a very limited scale for local consumption.

NOTE.—The receipts in Bengal include the cost price of opium manufactured for the Excise Department, namely, the figures in the last column of the next table and the corresponding figures for preceding years. There was, however, one exception in 1871-72, when the cost price Rs 15,49,050 was, by special arrangement, credited to Excise revenue

(a) Includes Rs 20,535, being the allowances of a delegate to the International Opium Conference at Hague, and miscellaneous expenditure

(b) Represents the figures for "India General" only

NOTES.—(1) All opium imported into China reaches through Hongkong and Shanghai. But smuggling is extensively carried on between Hongkong and the adjacent coast above and below Canton and at other Chinese ports, and the net imports in the Chinese Customs Accounts state imperfectly the consumption of Indian opium.

(2) The figures under the head "other sorts" denote chiefly Persian, and boiled opium.

(3) See footnote to table 14.

(4) Large quantities of Indian opium were annually imported into China. By an Agreement between the Indian Government and China, entered into at the end of 1907, the former undertook to reduce the amount of opium exported from India by 5,190 chests per annum, beginning from January 1, 1908, for a period of three years provided China reduced the production of native opium in the same ratio. Under a further Agreement, signed in May 1911 whereby "from the 1st day of January, 1911 China shall diminish annually for seven years the production of Opium in China in the same proportion as the annual export from India is diminished in accordance with the terms of this agreement" until total extinction in 1917" (Art. I).

* Mainly for consumption in the leased territory.

(a) Includes figures for Ningpo (a Central Port) up to 1896.

(b) Shows figures for the port of Shanghai only up to 1896.

(c) Includes figures for Wenchow and Hangchow (Central Ports up to 1896).

SALT

[FOR TABLES, SEE PAGES 170 TO 187]

Production.

The total quantity of salt produced in India in 1917 amounted to over 35 million maunds (1,305,000 tons). This quantity was supplemented by about 10 million maunds (353,000 tons) of imported salt, the total quantity produced and imported amounting to 45 million maunds (1,658,000 tons). About 63 per cent of the quantity annually consumed is generally produced in India. Importation is practically limited to salt landed in Bengal and Burma from England and other countries in Europe, Aden, Italian East-Africa, and some Egyptian ports on the Red Sea. There is a trifling import by land by trans-Himalayan routes.

The localities in India where salt is produced, and the quantity produced in each of the last three years, are :

	1915 Maunds	1916 Maunds	1917 Maunds
Burma : on the coast from sea-water and in Upper Burma from brine wells	776,401	1,055,503	1,188,228

Madras : on the east coast	9,411,028	13,096,241	10,804,767
TOTAL	37,928,174	36,999,174	35,515,817

In 1916 the quantity of salt produced by private manufacturers exceeded the quantity manufactured by Government, but in 1917 the quantity of Government salt exceeded that of private salt.

Sea salt on the coast of Burma is produced by a combination of solar evaporation and artificial heat and that on the coasts of Bombay, Sind, and Madras by solar evaporation. In Rajputana and Central India the salt is obtained by evaporation from brine deposits at Sambhar and other places. In the Punjab and Kohat, rock salt is obtained from the Salt Ranges and at Mandi, and brine salt from the sources at Sultanpur, near Delhi. About two-thirds of the whole production is represented by sea salt evaporated on the coasts of Bombay and Madras.

Consumption and revenue

The figures below indicate the progress in consumption in the last thirty years :

	Average annual quantity Maunds	Average annual duty R
1888-89 to 1892-93 (average)	33,431,896	8,02,69,704
1893-94 to 1897-98	34,210,675	8,25,80,980
1898-99 to 1902-03	35,678,139	8,41,59,595
1903-04 to 1907-08	39,596,819	6,15,92,540
1908-09 to 1912-13	44,648,475	4,49,27,138
1913-14	49,367,221	4,97,36,593
1914-15	51,872,207	5,22,25,132
1915-16	48,075,810	4,97,63,069
1916-17	54,063,944	6,85,66,308
1917-18	56,750,706	7,07,95,348
1913-14 to 1917-18 (average)	52,025,973	5,82,17,290

Administration

The administrative system for the control of production and the collection of the revenue varies in accordance with local conditions and methods of production. Detailed information regarding the salt administration will be found in the 13th issue of the volume of Financial and Commercial Statistics. A brief account is given below.

Burma

Lower Burma.—Salt is made at scattered points along the coast by the boiling of sea-water and, in a few places, of saline earth, in pots and cauldrons. Manufacture is permitted in ten districts only. In nine of these a system of direct taxation on output is in force. In the remaining one, instead of ascertaining the quantity of salt actually produced, the productive capacity of the vessels employed is estimated, and a charge made on each which is supposed to be about equivalent to the duty on imported salt from time to time. The present rate of import duty is R1-4 per maund.

Upper Burma.—In Upper Burma in 1890 a composition duty on the pots or cauldrons used in manufacture was fixed in substitution for previous systems. The duty on salt locally produced is less than the duty imposed on imported salt, viz., R1-4 per maund, and it is believed that it is not possible to level up the former to the latter without killing the local industry.

Bengal

In October 1897 the administration of the Orissa Salt Department was made over from the Commissioner of Salt Revenue, Madras, to the Commissioner of Excise under the Government of Bengal. Advantage was taken of the transfer to create a combined preventive establishment for the whole of Bengal littoral, and the Indian, Salt Act, XII of 1882, was extended from the 9th April, 1898, to the districts of the 24-Parganas, Midnapur,

Khulna, Backerganj, and Chittagong, the Bengal Act, VII of 1864, also remaining in force in them. In March, 1901 the Act was extended to the districts of Howrah and Noakhali. A proposal for the re-organisation of the Salt Department having been sanctioned by His Majesty's Secretary of State for India in February, 1905, preventive operations were started in Chittagong in October, 1900, and in Noakhali in October, 1905, tentatively for three years. They were also inaugurated on an independent footing in Howrah, where they had been carried on tentatively since January, 1902, by a small party under the Inspector of the Tamruk (Terapakia) Circle in the district of Midnapur. There is no preventive establishment for the district of Backerganj. No salt is produced or manufactured in the province, except that educed in the process of manufacture at the saltpetre refineries in Calcutta and its suburbs which is subject to a duty of R1-4 a maund since the 1st March, 1916. In consequence of the territorial re-distribution on the 1st April, 1912, the administration of the Orissa Salt Department was made over to the Commissioner of Excise and Salt under the Government of Bihar and Orissa.

The following are the descriptions of salt now commonly imported into Bengal :

Manufactured by solar evaporation : from Bombay, Madras, Egyptian Red Sea ports, Aden, and Spain ;

Manufactured by boiling : from Liverpool.

The rate of duty per maund on salt in Bengal decreased from R3-4 in 1877 to R1 in 1907. The duty has been raised from R1 to R1-4 with effect from the 1st March, 1916.

From the creation of salt monopoly in 1765, a preventive establishment has been employed for the protection of the revenue, for the most part separate from and independent of the agency controlling the manufacture and sale of salt.

The control of the Salt Department in the saliferous tract of Cuttack, Balasore, and Puri in the Orissa Bihar and Division was, previous to the year 1897, under the Government of the Madras Presidency. There were at Orissa that time two Government factories for the manufacture of salt in this area, both on the Chilka Lake within the limit of the Puri district. These factories were closed, and the manufacture of salt discontinued in Orissa with effect from the 1st October, 1897, and the control of the Salt Department in Orissa was transferred to the Bengal Government from that date. With the creation of the new Province in 1912 the control of the Salt Department in Orissa was made over to the Commissioner of Excise and Salt, Bihar and Orissa, and on 1st October, 1916, the Orissa Salt establishment was amalgamated with the Provincial Excise establishment.

The control of the Salt Department in the Bihar districts rests with the Commissioner of the Northern India Salt Revenue Department, and figures for Bihar are included under Northern India. The only salt produced in Bihar is that educed in the process of manufacturing saltpetre.

No salt is manufactured in or imported direct from foreign countries into Chota Nagpur, and no figures for consumption within Chota Nagpur are available.

There is no direct import from foreign countries into Orissa. Salt imported from foreign countries into Calcutta is re-imported into the bonded warehouses at Chandbally, duty on such salt being paid in Calcutta.

In Northern India salt is obtained by solar evaporation of surface and subsoil (canal, pit or well) Northern brine at the Sambhar Lake (Jodhpur and Jaipur States), Didwana and Pachbadra (Jodhpur State) in India. Rajputana, and the small source of Sultanpur in the Gurgaon district of the Punjab ; while rock salt is obtained from the great Mayo mine in the Salt Range at Khewra in the Jhelum district of the Punjab, from smaller mines in the same Range at Kalabagh, Warcha, and Nurpur, from four quarries in Kohat, and two (yielding an impure salt) in the Mandi State in the hills north of Simla. A small quantity of inferior salt educed in the manufacture of saltpetre is also excised from refineries in the United Provinces, Bihar, and the Punjab.

The whole Inland Customs Department (now the Department of Salt Revenue in Northern India) is administered by the Commissioner of Northern India Salt Revenue, formerly responsible to each of the Local Governments and Administrations within whose jurisdiction the customs organization worked, but now immediately under the Government of India, with headquarters at Agra.

The Northern India Salt Revenue Department itself works the Government mines in the Salt Range and conducts the manufacture of brine salt at the Rajputana sources, which are leased from the Jodhpur and Jaipur Darbars. It also supervises the working of the Kohat quarries and the small brine-salt works at Sultanpur, where the output is the property of the miners or manufacturers, to whom its price is paid by the purchaser. At the Mandi quarries, which are owned and worked by the State and where a very impure salt is won with difficulty, an establishment is kept to watch the sales and issues on which is based the Government share of the special duty of 3½ annas per maund levied.

A force designated the Internal Branch is maintained in the Punjab, the United Provinces, and Bihar, for the supervision of the saltpetre manufacture, the levy of duty on salt educed in the process, the control of the production of other saline substances, and the safeguarding of saline tracts.

With the exception of the inferior Mandi product all Northern India salt is now subject to the ordinary duty (at present R1-4-0 a maund) : salt educed in the manufacture of saltpetre has always been so subject. Except in the case of salt excised from saltpetre refineries, duty, and price also where payable to Government, are realised by requiring prepayment at an authorised treasury before a pass is granted. At the three

sources of Khewra, Sambhar, and Pachbadra a purchaser by paying into an authorised treasury or post-office along with the duty and price an extra sum of 6 pies a maund (for Pachbadra 9 pies), can have his salt despatched to him by the Department. Otherwise salt is made over to the purchaser at the source.

In view of the large number of indents in hand, due mainly to reckless speculation in 1917, an order of the Government of India closed indenting by the general public on the major Northern India sources in November 1917, since when fresh indents have been accepted on those sources only from local authorities, State Darbars, and other recognised bodies distributing at controlled rates.

Sind

There are three salt sources in Sind from which salt is now issued to the public, namely, the Maurypur works and the Saran and Dilyar deposits. The Maurypur works, where salt is manufactured by solar evaporation, were opened in the year 1878, and from these the greater portion of the province is supplied. The works are situated on the Moach plain adjacent to the end of Karachi harbour, from which by channels the brine is obtained, reaching the storage wells by percolation through a richly saline soil which greatly increases the strength of it. In 1884 a depôt for the storage and sale of Maurypur salt was opened at Sukkur. Maurypur salt is supplied free of duty to the State of Khairpur, local manufacture there being suppressed. A depôt was opened at Karachi in 1916 for the sale of Maurypur salt to break up a ring of merchants who had monopolised the land transport between Maurypur and Karachi.

The Saran and Dilyar deposits were opened in 1879 and 1882, respectively. The salt is formed in a lake from which, when the water dries, salt is excavated and stored. It is supplied to the inhabitants of the neighbouring villages of the districts of Thar and Parkar and Hyderabad. Since 1917 considerable quantities have been supplied to the Punjab and Rajputana owing, originally, to the temporary failure of the sources of supply in Northern India. Supplies are still made but in smaller quantities. It is believed that the people of the Punjab and Rajputana appreciate the quality of the salt supplied from these deposits.

Bombay

Salt is produced in Bombay for local consumption and for export by land to Central India, Rajputana, the Central Provinces, the United Provinces, and the Nizam's territories, and by sea to the Malabar Coast of Madras and to Calcutta. Under existing arrangements, exports, both by land and sea, pay full excise duty in Bombay, with the exception of those to Travancore and Cochin on which a nominal charge of three pies per maund, only to cover the cost of establishment at the salt pans, is levied in accordance with a trade convention concluded with Travancore and Cochin in 1865.

Except in Gujarat, the excise system is followed, under which licenses are issued for private manufacture at approved places which are guarded, and whence no removals are allowed, except upon payment of duty, or under credit for payment. In Gujarat, where all the works in British territory are the property of Government, the monopoly system was introduced in 1873-74, and the manufacture was concentrated at two places—Kharaghora on the borders of the Runn, and Dharásna on the sea coast of the Surat district. At Kharaghora salt in large crystals is made from brine wells under departmental supervision, bought from the manufacturers as made, stored, and sold at the cost and risk of Government. At Dharásna the salt is ordinary sea-salt and Government merely fixes the price at which it is to be sold without taking it over or interfering directly with manufacture. A small quantity of salt is issued annually free of duty from the works at Kharaghora to certain Indian States and Chiefs in pursuance of the arrangements for the establishment of the monopoly.

Fish-curing.—In order to reduce the hardship caused by the interference of the preventive operations of the Bombay Salt Department with the use of illicit salt and salt earth for fish-curing, yards for fish-curing at which salt is sold at 15 annas a maund were established at all important fishing centres along the coast. There were 32 yards in 1917-18.

Madras

There are two systems of salt manufacture in the Madras Presidency, under one of which the salt manufactured is sold to Government only and is disposed of by Government to the trade, whilst under the other, Government levies an excise duty, *plus* a small and varying cess to cover interest on capital cost of works, the property of Government, and the cost of any repairs effected by it on account of the licensees at the time of removal from the factory, and allows the manufacturers to make such arrangements as they please for the disposal of the salt. In both cases the production of salt is only allowed in well-fenced factories and subject to Government supervision, but, except in matters endangering the revenue, little interference is exercised in the details of manufacture under the excise system. The rate paid by Government for its salt varies, but it may be taken roughly at an anna and a half per maund. This is only the bare cost of manufacture and does not include the cost of works, storage, transport, etc. The duty on salt is ordinarily payable before the salt is removed from the factory, but six months' credit may be allowed to approved merchants on the deposit of security in Government promissory notes and a few other specified kinds of securities.

In Malabar no salt is manufactured, and that region is supplied by imports from Bombay, Goa, and other places.

By agreement the French Government undertakes to prevent the manufacture of salt throughout its possessions in India, and in consideration receives payments annually aggregating R4,41,600, and obtains its supply of salt at cost price. The authorities of the French settlements in Madras indent on the nearest British factories for the salt they require and undertake to sell it at the approximate prices charged in British territory. The correspondence is not complete because they sell by measure and not by weight.

Until 1865 the manufacture of salt was a Government monopoly in Travancore and Cochin, the selling price in Travancore being R1-1 a maund, and in Cochin annas 12. In that year both the States agreed to adopt the British Indian selling price of salt.

Fish-curing.—In order to reduce the hardship caused by the interference of the preventive operations of the Madras Salt Department with the use of illicit salt and salt earth for fish-curing, yards for fish-curing at which salt is sold at cost price (that is, cost of manufacture *plus* cost of transport from the factory) were established at all important fishing centres along the coast. There were 116 yards in 1917-18.

NOTE.—This table states the quantity of salt actually consumed and the duty thereon calculated at the rate in operation in each province, except that the figures under Bombay include salt exported to the United Provinces, Central India, the Central Provinces, Mysore, and the Nizam's Territories. From the 18th March, 1903, the general rate of duty was reduced from R2½ to R2 per maund, and in the case of salt manufactured in certain Kohat mines the duty was altered from R2 per Lahori maund to R1½ per Indian maund. A further reduction in the general rate from R2 to R1½ per maund took effect from the 22nd March, 1905. The general duty was again reduced from R1½ to R1 per maund with effect from the 20th March, 1907. With effect from the 1st March 1916, the general rate of duty was raised from R1 to R1-4 per maund.

† Includes Orissa up to 1910-11, and excludes Eastern Bengal from 1st October, 1905, to 31st March, 1911, figures for that tract for that period not being available.

‡ Figures up to 1910-11 included under Bengal

(a) The sums entered under Duty include duty on excised as well as on imported salt. The quantity of the former was excluded until 1917-18 from the figure under Quantity, only rough estimates being available. From 1917-18 the figure includes the quantity of the excised salt.

(b) Exclusive of 46,706 maunds of salt issued under the credit system.

(c) Exclusive of 2,929,191 maunds of salt issued under the credit system.

(d) Exclusive of R13,47,626 adjusted under the credit system.

(e) " R41,06,716 " " "

(f) " R59,69,569 " " "

(g) Exclusive of R92,85,820 adjusted under the credit system.

(h) " R99,33,107 " " "

(i) " R88,84,290 " " "

(j) " R86,69,906 " " "

(k) " R85,74,625 " " "

(MISCELLANEOUS RECEIPTS excluded), in each official year from 1898-99 to 1917-18

* The figures for years prior to 1916-17 represent the quantity of salt for which duty was credited in the treasury and for which permits of removal were granted. From 1916-17 the figures represent the total quantity of salt for which duty was credited in the treasury whether permits of removal were granted during the year or not.

§ The figures for years prior to 1916-17 represent duty realised on which permits were granted. From 1916-17 the figures represent the total duty credited in the Treasury.

(a) Per Lahori maund of 102½ lb up to 17th March, 1903

(b) Special rates charged at Ghanjam and Ichapur (Sura) from 1874 to 1878

(c) This is the general selling price of Government salt, but there were also other rates varying with the quality of salt

(d) Duty on imported salt

(e) Duty on salt in districts where the system of direct taxation is in force

(f) The price of salt at Khewrah was one anna and one pie, of the other mines in Cis-Indus Division 10 pies a maund up to 31st January 1912, after which it was sold at one anna and one pie from Khewrah and one anna per maund from other mines. From 1st April, 1912, the price of salt throughout the Cis-Indus and Kalabagh Mines Division was 1 anna and 2 pie per maund. From 1st November 1914 the price of salt was raised to 1 anna and 6 pies per maund

(g) The rates exceeded 3 annas at certain factories as a result of the sale of salt by auction.

(h) There were also other rates varying with the quality of the salt and with reference to the auction sales. The prices ranged from 2 annas and 6 pies to Rs. 1-10 per maund in 1916-17 and to Rs. 2-8 in 1917-18

(i) Dilyar salt cleared from deposits
Ditto ditto Hyderabad 10 6
Ditto ditto from Sukkur salt depot 14 3

No. 34.—QUANTITY (in maunds of 82½lb) of SALT IMPORTED or MANUFACTURED, in each year from 1898-99 to 1917-18

STAMPS

[FOR TABLES, SEE PAGES 189 TO 207]

Classes of
Stamps

The stamp revenue is derived from two great classes of stamps (1) judicial or court-fee stamps, and (2) non-judicial or revenue stamps. Judicial or court-fee stamps are provided for by the Court-fees Act, VII of 1870, and non-judicial stamps by the Indian Stamp Act, II of 1899. Both these Acts have been amended from time to time by subsequent legislation. The immediate control of the stamp revenue is vested in local Governments, subject to the general supervision of the Government of India. The revenue derived from stamps is shared between the Imperial and the Provincial Governments.

Two kinds of stamps—adhesive and impressed—are used to denote the payment of duty on instruments; and impressed stamps are again of two classes, namely, impressed sheets, the paper bearing the impression of stamps of varying values engraved thereon, and impressed labels which are affixed to instruments by Government officers empowered to do so. The various classes of stamps with their values are:—

Unified postage and revenue stamps	Half-anna and one anna
Foreign bill stamps	from 2 annas to 6 rupees
Share-transfer stamps	10 "
Special adhesive stamps	1,000 "
Hundi stamped paper	15 "
Impressed non-judicial stamps	1,000 "
Adhesive court-fee stamps	1 anna 6 "
Impressed " "	10 rupees 1,000 "
Stamps for copies	2 annas 2 "

Revenue

The revenue from stamps has increased steadily, as will be seen from the figures below:—

	Judicial R.	Non-Judicial R.	TOTAL R.
Annual average 1878-79 to 1882-83	2,20,39,898	1,05,76,996	3,26,16,894
" " 1883-84 to 1887-88	2,53,38,468	1,14,60,348	3,67,98,816
" " 1888-89 to 1892-93	2,80,85,838	1,34,57,032	4,15,42,870
" " 1893-94 to 1897-98	3,19,19,232	1,49,75,448	4,68,94,680
" " 1898-99 to 1902-03	3,46,26,250	1,54,23,172	5,00,49,422
" " 1903-04 to 1907-08	3,97,16,153	1,93,06,120	5,90,22,273
" " 1908-09 to 1912-13	4,96,27,909	2,46,53,342	7,42,81,251
" " 1913-14 to 1917-18	5,77,61,268	2,88,71,198	8,66,32,466
In the year 1913-14	5,45,13,263	2,96,82,225	8,41,95,488
" " 1914-15	5,44,17,197	2,56,72,935	8,00,90,432
" " 1915-16	5,84,09,923	2,78,09,402	8,62,19,325
" " 1916-17	6,11,90,061	3,07,10,928	9,19,00,989
" " 1917-18	6,02,75,896	3,04,80,501	9,07,56,397

* Constituted a separate province out of the Punjab in 1912

(a) Statistics are for 6 months from October 1912 to March 1913

EXCISE

[FOR TABLES, SEE PAGES 209 TO 246]

Revenue During the ten years ending with 1918-19 the net receipts from excise duties increased from R9,18,30,000 to R16,37,33,000, the increase being at the rate of 78 per cent. The receipts from opium (consumed in India, not exported) rose from R1,48,72,000 to R2,42,25,000, being at the rate of 63 per cent. The net—receipts from liquors and from drugs other than opium (including miscellaneous receipts) rose from R7,69,58,000 to R13,95,08,000, the increase being at the rate of 81 per cent. The revenue from drugs (excluding opium) has risen in the ten years from R98,83,000 to R1,59,21,000, the increase being at the rate of 61 per cent.

Consumption The consumption that is, the taxation works out to 10 annas and 11 pies per head of population in British India in 1918-19, as against, 6 annas and 9 pies in 1908-09. The consumption in 1918-19, province by province, is shown in the table below.

	Consumption per head. Rs. A. P.		Consumption per head. Rs. A. P.
India, General	0 5 4	Bihar and Orissa	0 5 8
Bengal	0 6 2	Burma	0 14 9
Madras	1 1 11	Central Provinces and Berar	0 14 1
Bombay	1 14 10	Assam	0 14 3
United Provinces	0 5 5	North-West Frontier Province	0 4 2
Punjab	0 8 6	Delhi	1 0 9
		AVERAGE	0 10 11

The figures formerly given in these tables were revised in 1905, owing mainly to the inclusion of the duty on Malwa opium realised in the Punjab from 1882-83, the exclusion of certain receipts on account of the Excluded Local Funds in the Central India Agencies from 1893-94, and the inclusion of the license and distillery fees and duties realised in the Military Department from 1897-98 and of the excise revenue for Bangalore from 1900-01, which had formerly been omitted from the head "India, general."

Until 1903-04 the receipts on account of license fees for *tari* and opium in the United Provinces were included under the head "Miscellaneous receipts." The figures for these provinces have since been revised and the receipts on account of license fees for *tari* are shown under the head of "spirits" and those for opium license fees under the head of "opium." The revision has been carried out for all the years except in the case of Allahabad, where the receipts prior to 1901-02 are not available.

NOTE.—Until 1903-04 receipts on account of license fees for *tari* and opium in the United Provinces were included under the head "Miscellaneous receipts." The figures for the United Provinces have now been revised and receipts on account of license fees for *tari* are shown under the head of "spirits" and those for opium license fees under the head of "opium." The revision has been carried out for all years except in the case of Allahabad where the receipts prior to 1901-02 are not available.

	Bhang	R40-0-0 per maund on imports from other British Provinces.	
		R80-0-0 per maund on imports from Foreign Territory.	
	Opium, pure(b)	R22-0-0 per seer.	
Coorg	Country spirit	R3-15-0 per gallon, 30° under proof on actual issue.	
	Ganja	R17-8-0 per seer.	
	Opium	R50-0-0 " "	
	Charas	R25-0-0 " "	
	Bhang	R0-8-0 " "	

(a) The difference between the cost price of R11-0 and the selling price in the North-West Frontier Province at present R27-8 per seer is reckoned as duty and classified in the accounts as "gain on sale-proceeds of excise opium."

(b) In Baluchistan only Government Excise Opium is allowed to be sold and the difference between the cost-price (R11-0-0) and the selling price (R25 a seer) is reckoned as duty and classified in the accounts as "gain on sale-proceeds of excise opium."

PROVINCIAL RATES

[FOR TABLE, SEE PAGE 248]

This section (table No. 109) shows the details of revenue derived from Provincial Rates. The item of any importance now included under this head of revenue is the assessment on Wards' Estates for establishment charges in Bengal, Bihar and Orissa, the United Provinces, the Punjab, Assam, and the North-West Frontier Province, which contributed nearly 99 per cent of the total revenue derived from provincial rates in 1918-19. This is a rate levied under the Government Management of Private Estates Act, X of 1892, at 5 per cent on the gross income of private estates under Government management. The receipts under this item amounted to about Rs. 4,15,000 in 1918-19.

The total receipts amounted to about Rs. 4.2 lakhs in 1918-19 as compared with Rs. 4.3 lakhs in 1917-18. No expenditure was incurred anywhere on account of establishment and other charges in the quinquennium.

CUSTOMS REVENUE

[FOR TABLES, SEE PAGES 250 TO 259.]

The first two tables (Nos.110 and 111) of the series state the amount of duty collected on imports and exports separately as credited in the Customs Houses. The others (Nos. 112 and 113) state the rates of duty imposed on all principal articles of merchandise by the schedules of the various Tariff Acts passed since 1882 and thus constitute a history of the legislation respecting customs duties since that year.

Indian Customs revenue is mainly derived from the general import duty, certain special import duties such as those on arms, liquors, sugar, petroleum, tobacco, etc., and export duties on rice, jute, and tea. General import duties, which were abolished in 1882, were reimposed in 1894, the general rate of duty on commodities imported into British India by sea being fixed at 5 per cent *ad valorem*. Cotton was exempted in 1894 when the general duties were revived ; in December 1894, a 5 per cent *ad valorem* duty was imposed on imported cotton goods and yarns, while an excise duty of 5 per cent was imposed on all yarns of counts above 20 spun at power mills in British India ; in February 1896, cotton yarns and threads imported or manufactured in India were freed from duty, while a uniform 3½ per cent *ad valorem* duty was imposed on all woven cotton goods imported or manufactured in India at power mills. The products of hand looms were exempted.

The schedules have been largely modified with effect from March, 1916, by the Indian Tariff (Amendment) Act, IV of 1916. The general tariff rate of 5 per cent on imported articles, which remained unchanged from its imposition in 1894, has been raised to 7½ per cent, the rate of one per cent on certain descriptions of iron and steel has been enhanced to 2½ per cent, special increased duties have been levied on arms and ammunition, sugar, petroleum, spirit, cigars, cigarettes and other manufactured tobacco, silver plate and other manufactures, and the number of articles on the free list has been considerably curtailed by the imposition of import duties on previously free articles, *e.g.*, machinery (except cotton spinning and weaving), railway materials, food grains, coal, printing materials, etc. By the amendment of the Tariff in March, 1917, the duty on cotton goods is now 7½ per cent *ad valorem*. In the export trade rice was the only dutiable article, but from March, 1916, export duties have also been levied on jute and tea ; and with effect from 11th September 1919, an export duty of 15 per cent has been levied on raw hides and skins.

The revenue from the import and export duties in the five quinquennial periods ending 1896-97, 1901-02, 1906-07, 1911-12, and 1916-17, and in each of the years 1914-15 to 1918-19 is stated below :—

	Imports Rs.	Exports Rs.		Imports Rs.	Exports Rs.
Five years ending 1896-97 (average).	3,36,18,716	79,73,887	In the year 1914-15 .	8,06,77,663	82,97,869

Under the Indian Tea cess Act, IX of 1903, a duty at the rate of a quarter of a pie (one forty-eighth of an anna) per pound has been levied, from the 1st April, 1903, on all tea produced in India and exported from any customs port to any other beyond the limits of British India, the collections being paid to a Committee for promoting the sale and consumption of Indian tea. The collections since the institution of the cess have been :—

<i>Exception II.</i> —The following are also free, namely:										
(a) Arms forming part of the regular equipment of an officer entitled to wear diplomatic, military, naval or police uniform;										
(b) A sword, a revolver, or a pair of pistols, when accompanying an officer of His Majesty's Regular Forces, or a commissioned officer of a volunteer corps, or certified by the commandant of the corps to which such officer belongs, or in the case of an officer not attached to any corps, by the officer commanding the station or district in which such officer is serving, to be imported by the officer for the purposes of his equipment; (1)										
(c) Swords and revolvers which are certified by an Inspector-General of Police to be part of the ordinary equipment of members of the Police force under his charge; (3)										
(d) Swords forming part of the equipment of Indian commissioned officers of His Majesty's Army; (2)										
(e) Swords for presentation as army or volunteer prizes;										
(f) Arms, ammunition, and military stores imported with the sanction of the Government of India for the use of any portion of the military forces of a Native State in India which may be maintained and organised for Imperial Service; (4)										
(g) Morris tubes and patent ammunition when imported by officers commanding British and Indian regiments or volunteer corps, for the instruction of their men.										

* Act IV of 1916

† The following articles under this head were exempted from duty:

Arms which, having paid duty at Aden on import into that Settlement, are subsequently within three years imported into any Customs port of British India

Bows and arrows

Bullets, bird-shot, gun-wads, and wire cartridges (i)

Bullet-moulds

Ornamental arms possessing antiquarian value, provided the chief Customs authority is satisfied in each case that the arms are practically unserviceable, and that weapons intended for offensive or defensive purposes are not imported under cover of the exemption

(1) Notification No. 1864, dated 12th April 1889, as amended by Notification No. 1908, dated 8th May 1891

Dynamite, tonite, and detonators (ii)

(2) Notification No. 302, dated 2nd December 1890

(3) Notification No. 3521, dated 19th August 1891

(4) Notification No. 3028, dated 21st July 1892

(i) Bullets, bird-shot, gun-wads, and wire cartridges were again subjected to duty by Act VIII of 1894

(ii) Dynamite, tonite, and detonators were again subjected to duty by Act VIII of 1894 and classed as "Explosives," under Chemical Products and Preparations

§ These rates were fixed by the Indian Arms Act, XI of 1878

NOTE (1)—The following articles exempted from duty in excess of 10 per cent *ad valorem* by Notification No. 3838, dated 26th June 1903:

Aim reflectors

Barrel cleaners or pulls-through

" coolers

Brushes, jags, mops

Cleaning rods

Reflectors

Recoil pads or heel pads

Sight covers

Sights for guns or rifles

Sighting bars for sights

Turn screws

Ventimeters or wind gauge

Veniers or sight elevators

NOTE (2)—By the Commerce and Industry Department Notification No. 3798-90, dated the 27th May 1911, all articles, other than those specified below, liable to duty under head 5, 6, 8, 9, or 10, as the case may be, were exempted from so much of the duty leviable thereunder on importation into British India as is in excess of duty of 20 per cent *ad valorem*:—Main springs and Magazine springs, gun-stocks and breech blocks, actions (including skeleton and waster), breech bolts and their heads, cocking pieces, locks (for muzzle-loading arms), and machines for making, loading, closing or capping cartridges for rifled arms

† By the Commerce and Industry Department Notification No. 2089-79, dated the 6th March 1915, springs used for air-guns are exempted from the duty leviable thereon on importation into British India

* By Act IV of 1916 the duty was fixed at 15 per cent *ad valorem* for silver plate, silver thread and wire, and silver manufactures, all sorts. This rate was subsequently reduced to 10 per cent *ad valorem* from March 1917 Act VI of 1917

† Pearls, unset and unset precious stones imported uncut have been exempted from payment of duty by Government of India Notifications No. 2102-W., dated the 16th March 1916, and No. 7955—213, dated the 2nd September 1916, respectively

‡ Freed by Notification No. 3443, dated 24th July 1895

§ Saddlery of a military pattern imported by an officer of His Majesty's Regular Forces and forming part of his equipment under Army Regulations freed by Notification No. 397, dated 24th January 1898

¶ Spirit, imported from any port in British India, and protected by the certificate of an officer empowered in that behalf, is chargeable with only the amount, if any, by which the duty leviable thereon exceeds the duty shown by such certificate to have been already paid. (Act VIII of 1894, sec. 7)

¶ The limitation as to the use of such spirit exclusively in arts or manufactures, or in chemistry, removed by Notification No. 5828, dated 13th December 1896

¶ See also Act III of 1896

¶ A London proof, and the duty to be increased or reduced in proportion as the strength of the spirit exceeds or is less than London proof

No. 112.—RATES of CUSTOMS DUTY imposed on IMPORTS into BRITISH INDIA under various ACTS (as modified by EXECUTIVE ORDERS), from 1882 to 1916—continued

(a) Notification No. 1632, dated 10th April 1896

(b) Salt imported from any port in British India and protected by the certificate of an officer empowered in that behalf, is chargeable with only the amount, if any, to which the duty leviable thereon exceeds the duty shown by such certificate to have been already paid.—(Act VIII of 1894, section 7)

(c) By Notification No. 343, dated 19th January 1888

(d) By Notification No. 1542, dated 18th March 1903, the duty was fixed at one rupee for each maund of 82½ pounds in the case of Burma, and two rupees for each such maund in the case of Bengal, Madras, Bombay, and Sind. The latter rate was reduced to R1-8 on the 22nd March 1905, by Notification No. 1727 of the same date. This was further reduced to R1 with effect from the 20th March 1907 by Notification No. 1748 of the same date. This rate was enhanced to R 1-4 with effect from the 1st March 1916 by Notification No. 1545 of the same date. In case of Aden the duty is one rupee for each 140 lbs. avoirdupois

(e) Salt imported into Calcutta and issued with the sanction of the Government of Bengal to manufacturers of glazed stoneware is exempt from duty.—(Notification No. 4708, dated 18th September 1894); also salt imported into British India and into any port in the provinces of Bengal and Bihar and Orissa and issued with the sanction of the Governor-General in Council for use in curing fish in those provinces and any process of manufacture is exempt from duty (Act IV of 1916).

(f) On imports into Burma only

(g) Mother-of-pearl shells freed by Notification No. 4511, dated 29th October 1896, but by Act IV of 1916 the duty was fixed at 7½ per cent.

(h) By Notification No. 2898, dated 3rd July 1896

(i) By Notification No. 9088-118, dated 30th September, 1908

(j) Duty on confectionery was fixed at 7½ per cent *ad valorem* by Act IV of 1916

(k) Includes flax twist and yarn, and manufactures of flax, haberdashery and millinery, hemp manufactures, hosiery, jute, twist and yarn and jute manufactures, excluding second-hand or used gunny bags, silk yarn, noils, and warps, silk thread, silk piece-goods and other manufactures of silk, woollen yarn, knitting wool and other manufactures of wool, including felt, all other sorts of yarns and textile fabrics not otherwise specified

(l) Duty on firewood was fixed at 2½ per cent *ad valorem* by Act IV of 1916

(b) Provided that, subject to such condition as the Governor General in Council may by notification in the *Gazette of India* prescribe, a rebate shall be granted to the exporter of two-thirds of the duty levied on hides or skins exported to any part of His Majesty's dominions or of the territories of any Indian prince or chief under the suzerainty of His Majesty or in respect of which a mandate of the League of Nations is exercised by the Government of any part of His Majesty's dominions

(c) An additional customs duty of 2 a. per bale of 400 lbs. of Jute (raw) including jute cuttings and rejections; and of 12 as. per ton of 2,240 lbs., on manufactured jute are levied when exported by Sea from the Port of Calcutta to any other port whether beyond or within India for the benefit of the Calcutta Improvement Trust (Bengal Act V of 1911).

(d) Proceeds paid to the Tea Cess Committee appointed under Section 4 of the Act. On the recommendation of this Committee the rate of one-quarter of a pie per pound may be reduced

NOTE.—A cess of one rupee per maund of 82 $\frac{2}{7}$ lbs. avoirdupois weight on Indigo produced in India and exported from any customs port beyond the limits of British India or to Aden has been levied from 1st April 1918, for the promotion of research in the interests of the indigo industry in India (Act III of 1918).

INCOME TAX

[FOR TABLES, SEE PAGES 262 TO 271]

The income tax in India in 1917-18 yielded R7,11 lakhs or 4·2 per cent of the total revenue as against 34 per cent in the United Kingdom. The tax is accordingly not of such importance in India as it is in the taxation system of the United Kingdom.

History

The first general income tax was levied in 1860 to relieve the financial burdens of the immediately preceding years. The Act was on the English model and was to have effect for a period of 5 years. It ceased, therefore, to operate in 1865, but the financial position did not permit of direct taxation being abandoned. In 1867 an Act was therefore passed, imposing a license tax on professions and trades excluding agriculture, and the tax continued to be levied till the end of 1872-73. No further taxation was imposed until 1877 when a license tax was levied on traders and artisans to meet a portion of the Famine Insurance grant, and Acts were passed in 1878 for this purpose for the United Provinces, the Punjab, Bengal, Madras, and Bombay. These Acts remained in force until 1886. The license tax of 1878 was, however, converted into a general income tax by the Income Tax Act, II of 1886, applying to all India, which came into operation on the 1st April 1886. All sources of non-agricultural income were taxed. They were divided into four classes, namely, (1) Salaries and pensions, (2) Profits of Companies, (3) Interest on Securities, and (4) other sources. A general rate of 5 pies in the rupee (a little more than 2½ per cent) was levied on all incomes over R2,000 per annum, incomes between R500 to R2,000 derived from salaries and interest on securities were taxed at the rate of 4 pies in the rupee (a little over 2 per cent), and similar incomes derived from other sources were taxed at fixed rates according to classes. Incomes below R500 were not assessed with the result that the tax was collected from a very small proportion of the total population. Incomes derived from land and agriculture were exempted. Charities and religious endowments were also free from the tax. There were some other minor exceptions, which are noted at the foot of respective tables. In 1903 the favourable financial conditions permitted the exemption from the tax of incomes between R500 and R1,000 per annum, that is to say, the taxable minimum of income was raised from R500 to R1,000 by the Indian Income Tax (Amendment) Act, XI of 1903, with effect from 1st April 1903. In 1916 the income tax was revised, raised and graduated by the Income Tax (Amendment) Act (V of 1916) in order to meet the deficit arising out of war conditions. By this Act salaries and pensions between R1,000 and less than R2,000 were taxed at 4 pies in the rupee, those between R2,000 and less than R5,000 at 5 pies, those between R5,000 and less than R10,000 at 6 pies, those between R10,000 and less than R25,000 at 9 pies, and those amounting to R25,000 and upwards at one anna. Profits of companies and interest on securities were taxed at one anna in the rupee, but this was subject to abatement or exemption, in the case of individual shareholders who could show that their total income was such as to warrant a lower rate of taxation or none at all. Other sources of income between R1,000 and less than R2,000 were taxed at fixed rates according to classes, and those amounting to R2,000 and above according to rates and scales similar to those fixed for salaries and pensions of like amounts. In 1917 a Super-tax was imposed, by the Super-tax Act, VIII of 1917, on income in addition to the ordinary income tax imposed by the Income Tax Act. The rates of this Super-tax were :—in respect (1) of the first fifty thousand rupees of taxable income—one anna in the rupee, (2) of the next fifty thousand rupees one-and-a-half anna, (3) of the next fifty thousand rupees—two annas, (4) of the next fifty thousand rupees—two-and-a-half anna, (5) of all taxable income over two lakhs of rupees—three annas. In 1918 a new Income Tax Act (VII of 1918) was passed, consolidating and amending the laws relating to Income-tax. By this Act the sources of taxable income were classified as (i) salaries, (ii) interest on securities, (iii) income derived from house property, (iv) income derived from business, (v) professional earnings, and (vi) income derived from other sources. Agricultural income was exempted as before. The rates of tax imposed on all these classes of taxable income are the same as provided in Act V of 1916, except in the case of a company or a firm constituted under a registered instrument of partnership specifying the individual shares of the partners, the rate of tax for such a company or firm being one anna in the rupee (*i.e.*, the maximum rate of income tax). In 1919 the taxable minimum of income was raised from R1,000 to R2,000 by the Indian Income Tax (Amendment) Act, IV of 1919, with effect from 1st April 1919.

Total tax and number of assesseses

The total proceeds of the tax in 1917-18 amounted to R7,11 lakhs as against R5,55 lakhs in 1916-17. The total number of assesseses was 382,532 as against 357,021 in 1916-17, being less than two per mille of the total population. The classes with an annual income of R1,000 to R2,000, *i.e.*, those paying the rate of 4 pies in the rupee, contained 237,000 assesseses, or 62 per cent of the total, and paid a revenue of R66 lakhs or 9·3 per cent of the collections, those with an annual income of R2,000 to R5,000, *i.e.*, paying the rate of 5 pies in the rupee contained 94,000 assesseses, or 24 per cent of the total, with a revenue of R73 lakhs or 10 per cent of collections. Those with an annual income of R5,000 to R10,000, *i.e.*, paying the rate of 6 pies in the rupee contain 31,000 assesseses, or 8 per cent of the total, with a revenue of R68 lakhs or 9·5 per cent of the collections; those with an annual income of R10,000 to R25,000, *i.e.*, paying the rate of 9 pies in the rupee, contain 14,000 assesseses or 3·8 per cent of the total with a revenue of R98 lakhs or 13·8 per cent of the collections, and those with an annual income of R25,000 and above, *i.e.*, paying the rate of one anna in the rupee, contained 4,500 assesseses or 1·2 per cent of the total, with a revenue of R4,05 lakhs or 57 per cent of the collections.

Classification of income

Of the four parts or groups of income, Part I—Salaries and pensions (mostly Government servants) yielded in 1917-18 R1,25 lakhs or 17·6 per cent, Part II—Profits of Companies R1,94 lakhs or 27·2 per cent, Part III—Interest on Securities R39 lakhs or 5·5 per cent, and Part IV—other sources nearly R3,52 lakhs or 49·5 per

INCOME TAX

cent. Under Part I—Salaries and pensions, incomes are divided into 22 classes and the largest number		
	Total collection (R 1,000)	Per cent. of total
Bengal	2,06,71	29.1
Bombay	2,05,14	28.8
Madras	73,85	10.4
Burma	47,25	6.6
United Provinces	46,62	6.5
Punjab	35,23	5.0
Bihar and Orissa	22,18	3.1
C. P. and Berar	15,06	2.1
Assam	8,25	1.2
Delhi	5,41	.8
N. W. Frontier Province	2,97	.4
Other Provinces and Departments of Government	42,66	6.0
TOTAL	7,11,33	100

of assesseees is in the class with an annual income of R1,000 but less than R1,250, namely, 41,000 persons paying a revenue of R8 lakhs; coming next in importance are those with an income of R 2,000 but less than R 5,000 (33,000 assesseees with a revenue of R23 lakhs), of R5,000 but less than R10,000 (13,000 assesseees with a revenue of R25 lakhs), and of R1,250 but less than R1,500 (10,000 assesseees with a revenue of R3 lakhs). The marginal statement shows the total amount of income tax collected in each province with the proportion to the total amount collected in British India during 1917-18. In Bombay every 256 persons account for one assessee with a non-agricultural income of not less than R1,000, in Burma 366, in the Punjab (including Delhi) 456, in Bengal 696, in Madras 785, in the Central Provinces and Berar 793, in the United Provinces 1,057, in Assam 1,058, and in Bihar and Orissa 1,545.

The marginal table shows the growth of the total collections and the growth of the total estimated income Taxable

	Total collection of Tax	Estimated income
	Rs. (lakhs)	Rs. (lakhs)
1886-87	1,37	57,36
1902-03	2,10	87,75
1907-08	3,24	90,53
1912-13	2,53	1,02,19
1917-18	7,11	1,67,87

The total collections comprise the actual tax collected in the year and the arrears of previous years. Refunds are not deducted from the figures shown as "collections" in these tables. They amounted to R1,44,502 in 1913-14, R1,63,726 in 1914-15, R1,63,425 in 1915-16, R3,42,738 in 1916-17, and R4,59,850 in 1917-18, being about two-third per cent on the total collections.

Taking the average incidence of taxation on the assesseees, Bengal is first with R316 per head; then come successively Bombay (R267), Burma (R163), Madras (R140), Assam (R130), the United Provinces (R105), Bihar and Orissa (R99), the Punjab (including Delhi) (R93), and the Central Provinces and Berar (R86).

	Number of assesseees	Incidence per head of population
		R. a. p.
Bombay	80,081	1 0 6
Bengal	62,943	0 7 3
Burma	23,923	0 6 7
Madras	55,770	0 3 1
Punjab (including Delhi)	42,686	0 2 10
Assam	5,954	0 1 9
North-West Frontier Province	2,936	0 1 8
Central Provinces and Berar	15,514	0 1 5
United Provinces	39,514	0 1 4
Bihar and Orissa	20,186	0 0 10

The number of persons assessed to income tax, exclusive of Government servants assessed on their salaries, in the principal provinces in 1917-18 and the incidence of the tax per head of population were as stated in the marginal table.

About 85 per cent of the Bengal, 76 per cent of the Bombay, 70 per cent of the Burma and 37 per cent of the Madras collections were derived from the Presidency towns.

NOTE.—(1) This table is revised triennially. The figures in this table are compiled from Return No. VIII and sometimes differ from those under Part II of tables Nos. 114 and 116 compiled from Return No. III of the Provincial Income Tax Reports, because of the inclusion of refunds and over-collections in Return No. III and their exclusion from Return No. VIII.

(2) The tax is levied on the whole of net profits of companies carrying on business in British India and whose stock or funds is or are divided into shares and transferable. The net profits are determined by deducting the amount of expenses, such as repairing, insuring, establishment charges, losses, bad debts, interest paid, depreciation, etc., from gross receipts of the company. The tax is also levied on any profits of a Shipping Company incorporated or registered out of British India.

(a) Not stated

(b) Excludes 3 assesseees from whom arrears were collected

(c) Includes arrear collections of Rs3,349, of which details by classes in respect of Rs68,064 are not available

* Under the Income Tax Act, II of 1886, the taxable minimum of income was R500. By the Income Tax (Amendment) Act, XI of 1903, this minimum was raised to R1,000. Under the original Act the first two classes of incomes were (I) R500 but less than R750 and (II) R750 but less than R1,000. On the passing of the amendment Act of 1903 these two classes were left out. The figures from 1903-04 under the old classes represent collections of arrears of Income Tax assessed in 1902-03.

† For figures from 1916-17, see table 122 A.

(a) Includes R1,758, for which the details by classes are not available.

(b) Includes R9,787, for which the details by classes are not available.

(c) Excludes arrear collections R15,590 in 1908-09, R22,017 in 1909-10, R21,560 in 1910-11, R26,601 in 1911-12, R25,523 in 1912-13, R38,549 in 1913-14, R48,286 in 1914-15 and R65,338 in 1915-16 for which the details under each Part are not available.

NOTE 1.—“ Other Provinces and Departments of Government ” include figures for Ajmer-Merwara, Bangalore, Coorg, Hyderabad, and Port Blair, the collections from the salaries of Government officers in the Military, Marine, Postal, Public Works (up to 1909-10) and Forest (up to 1903-04) Departments, and the collections made by the Comptroller, India Treasuries, from the salaries of the officers of the various Departments of the Government of India, and from the interest on securities on account of the subordinate treasuries, together with the tax collected by the Public Works Department on account of the profits of certain Railway Companies.

2. Classes I—IV denote those assesses whose annual incomes lie between 1,000 and 2,000 rupees and old classes V—XIII denote those whose yearly incomes are 2,000 rupees and upwards, class V denotes those assesses whose annual incomes lie between 2,000 and 5,000, class VI denotes those assesses whose annual incomes lie between 5,000 and 10,000, classes VII—IX denote those assesses whose annual incomes lie between 10,000 and 25,000, classes X—XXII denote those assesses whose annual incomes lie between 25,000 and upwards.

* See note marked (*) at foot of table No. 122. The figures under ‘ classes I to IV ’ include small arrear collections under the old classes I and II in 1908-09, 1909-10 and 1911-12.

† The figures in this column differ in some cases from the sums of the figures in the two preceding columns, as explained in notes (a), (b), (c), (d), (e), (f) and (h), and note (i). The sum of the totals in the two preceding columns exceed the sum of the figures in the two ‘ total ’ columns in table No. 122 by the figures of collections under Part III (Interest on Securities) shown in tables Nos. 114, 116 and 120. Previous to 1908-09, however, some small differences occur.

‡ Includes R4,920 and R2,673 on account of arrear collections in 1916-17 and 1917-18 respectively details of which by classes are not available.

(a) Include R2,664 in 1914-15, R3,085 in 1915-16, R2,771 in 1916-17 and R1,725 in 1917-18, being deductions on commission paid to thugis.

(b) Include R1,05,448 in 1914-15, R1,02,602 in 1915-16, R1,39,149 in 1916-17 and R1,51,982 in 1917-18, on account of collections by employers under section 9 (2) of the Act the details of which by classes are not available.

(c) Defective in details.

(d) Includes R1,581 and R3,300 in 1914-15 and in 1915-16, R2,202 in 1916-17 and R2,212 in 1917-18, on account of deductions from salaries paid by local authorities.

(e) Includes arrear collections of R1,395, R430, and R173 in the Punjab in 1914-15, 1915-16, and 1916-17 respectively, and R1,13,583 in 1917-18 and R34 in the North-West Frontier Province in 1914-15, the details of which by classes are not available.

(f) Includes R34 the details of which by classes are not available.

(g) Inclusive of interest on securities.

(h) Includes R421 and R302 levied on interest on securities in Coorg in 1916-17 and 1917-18 respectively.

TRIBUTES FROM INDIAN STATES

[FOR TABLE, SEE PAGE 273]

The statistics of revenue recorded under this head represent tributes received from Indian States in several cases as a result of exchanges of territory and settlement of claims, and contributions made chiefly in lieu of former obligations to supply or maintain troops, the latter constituting a small return for the duty undertaken by the Supreme Government in ensuring the peace of the country. The figures do not show any important fluctuations from year to year, except for arrears and their recovery and the levy of fees in some instances on succession (*nazarana*).

The total receipts are less than one per cent of the total Indian revenues. The tributes and contributions amount to about 90 per cent, and those for special military forces over 10 per cent, of the total receipts. Madras contributes nearly 50 per cent, India--General, which includes tributes and contributions from amongst others the Udaipur, Jaipur, Jodhpur, Kotah, Bundi, Fhopal, and Jowrah States, 21 per cent, Bombay 15 per cent, and Burma 5 per cent, of the total tributes from Indian States.

* Compiled from the Finance and Revenue Accounts of the Government of India

(a) Includes amongst others Jaipur, Kotah, Udaipur, Jodhpur, Bundi, Bhopal, and Jowrah States

(b) They are Malwa Contingent (Dewas and Jowrah), Deoli Irregular Force (Kotah), Bhopal Levy (Bhopal), Erinpura Irregular Force (Jodhpur), Malwa Bheel Corps, Battalion (Cochin), and Southern Mahratta Horse

INTEREST RECEIPTS

[FOR TABLE, SEE PAGE 275]

The interest receipts in this section (table No. 126) do not include interest on public works capital. The most important items included under interest receipts are (1) Imperial Loans and Advances to the Presidency Corporations and to Indian States; (2) Provincial Loans and Advances chiefly to mofussil municipalities and cultivators; and (3) investments. The amount of the interest accrued on Imperial Loans and Advances comes to 25 per cent, and on Provincial Loans and Advances 34 per cent, of the total receipts. The interest on Paper Currency investments contributes nearly 26 per cent of the total. Another important item included under this head of revenue is the interest payable by the Railway Companies on overdrafts of capital. There are other minor items, such as interest on arrears of revenue, and on advances to railway companies charged to capital, which are included under this head of revenue.

In 1918-19 the total receipts amounted to nearly one per cent of the total Indian revenues. The average figures of 5 years ending 1918-19 show that India—General, which includes the transactions of the Government of India, contributes about two-fifths of the receipts, Bombay about a sixth, Bengal and the United Provinces of Agra and Oudh one-eighth each, and Madras about one-eleventh. In 1918-19 the total receipts in India amounted to 158 lakhs of rupees, as compared with 129 lakhs in the preceding year.

The statement in the margin shows the total interest receipts in India (converted into £ at the rate of R15=£1) in the last five years, together with those in England, and the total receipts both in India and in England. The receipts in England comprise (1) interest realised from investment of Cash Balance, (2) interest on India Debt, remaining unclaimed for ten years, repaid by the Bank of England and the Bank of Ireland, (3) interest on Paper Currency Reserve Investment, (4) interest on advances to the Imperial Bank of Persia for the purposes of the Persian Government, (5) interest on investments on account of Discount Sinking Fund, and (6) interest and discount on Special Reserve.

	In India	In England	Total
	£	£	£
1914-15	841,178	182,119	1,023,307
1915-16	892,333	204,084	1,096,417

DEPARTMENT OF STATISTICS, INDIA

Statistics of British India

Volume II

Financial Statistics

Published by order of the Governor-General in Council

CALCUTTA
SUPERINTENDENT GOVERNMENT PRINTING, INDIA
1922

Price Rupees 2

[No. 1624.]

PREFATORY NOTE.

FINANCIAL STATISTICS.

This volume deals with Financial Statistics and therefore relates chiefly to Revenue, Expenditure, Currency, and Banking. It is divided into two parts, namely, Part I which contains tables relating to Revenue and Expenditure, Mint and Coinage, Paper Currency, Registered Debt, Securities Enfaced for payment of Interest in London, Drawings and Ways and Means of the Home Government, Prices of Gold, Silver, and Stocks and Rates of Exchange, Military Services, Banks, Post Office Savings Banks, Co-operative Societies, and Life Assurance; and Part II which deals with the principal heads of Revenue and contains tables relating to Land Revenue, Forests, Opium, Salt, Stamps, Excise, Provincial Rates, Customs Revenue, Income Tax, Tributes from Indian States, and Interest Receipts. A chart showing variations in (1) the revenue and expenditure of the Government of India, (2) debt of the Government of India, and (3) the circulation of currency notes in India since 1905-06, and an index have also been inserted in the volume for easy reference.

Figures for the year 1919-20 have been added to the tables in this (10th) issue. If information, in addition to that given in the introductory notes and in the tables in the volume, is required, reference should be made to the Civil Estimates (in two volumes), the Finance and Revenue Accounts of the Government of India (one volume), the Financial Statement and Budget, and also the Report on the Operations of the Currency Department, all of which are published annually.

DEPARTMENT OF STATISTICS, INDIA.

Calcutta, May 19, 1922.

D. N. GHOSH,

Offg. Director of Statistics.

(a) Not yet available

(b) From 1915-16, figures have been compiled from the Finance and Revenue Accounts, and for the earlier years from special Returns furnished by Local authorities

(c) Figures from 1915-16 relate to balance of Issues and imports over exports

(d) Figures relate to total expenditure as compiled from the Finance and Revenue Accounts

(e) Figures from 1918-19 relate to income-tax realised from incomes derived from all sources combined

PART I

Revenue, Expenditure, Coinage, Currency, Public Debt,
Council Bills, Exchange, Banks, etc.

REVENUE AND EXPENDITURE

[FOR TABLES, SEE PAGES 9 TO 11]

Table No. 1 is an abstract statement of Revenue, Expenditure, and Debt of the Government of India in each year from 1877-78 to 1919-20. The funded debt outstanding in 1877-78 was R74,95 lakhs in India and £59.7 million in England. The total sum represents 265 per cent of the revenue of that year. In 1919-20 the funded debt outstanding was £338.9 million equivalent to 208 per cent of the year's revenue. During the 43 years under report there was a surplus in 28 years and a deficit in 15 years. The 28 years' surplus aggregates R10,000 lakhs and the 15 years' deficit R6,323 lakhs, the result being a net surplus of R3,677 lakhs.

Table No. 2 is an abstract of the Revenue and Expenditure for ten years. During the period of 43 years dealt with in Table No. 1, the total revenue has risen from R6,197 lakhs in the first year 1877-78 (equivalent at the average rate of exchange of that period to £53,709,000) to R24,496 lakhs (=£163,308,000 at R15 to the pound sterling) in 1919-20. The increase represents 295 per cent reckoning in rupees and 204 per cent reckoning in sterling. During the same period the expenditure has risen from R6,623 lakhs (=£57,403,000) to R26,862 lakhs (=£179,077,000). This represents 306 per cent in rupees and 212 per cent in sterling.

In considering the Revenue and Expenditure of the Government of India, however, it is desirable to separate "Commercial Services," i.e., Posts and Telegraphs, Railways, and Irrigation, from other heads.

The following statement gives the quinquennial averages for each of the main heads of revenue and the percentage which each bears to the total revenue, excluding the Commercial Services, for the period 1877-78 to 1916-17 and also for each of the years 1917-18, 1918-19, and 1919-20.

(a) Termed "Assessed Taxes" up to 1913-14

The total increase of revenue from the above sources in 1919-20 as compared with the average of 1877-78 to 1881-82 is 119 per cent.

The following table gives the quinquennial averages under the main heads of expenditure and the percentage which each bears to the total expenditure, excluding the Commercial Services, for the period 1877-78 to 1916-17 and also for each of the years 1917-18, 1918-19 and 1919-20.

Expenditure (excluding Expenditure on Commercial Services) in thousands of rupees

REVENUE AND EXPENDITURE

The expenditure in these tables represents expenditure from revenue only and not expenditure from borrowed capital.

Turning now to the Commercial Services, that is, Posts and Telegraphs, Railways, and Irrigation, the following table shows the total revenue, total expenditure, and net surplus or deficit for each of these heads, and the total for all of them together, arranged in the form of quinquennial averages from 1877-78 to 1916-17 and annual figures for 1917-18, 1918-19, and 1919-20.

* Including marine

† Expenditure on this head, which was previously recorded separately is now included under "Military Works"

§ The increase in the expenditure on Army and Military works is mainly due to the following causes:—(1) Expenditure in connection with the Afghan and North-West Frontier operations, (2) India's additional war contribution to the Imperial Government (3) Increased rate of pay and allowances and (4) Increased food and railway charges

MINT AND COINAGE

[FOR TABLES, SEE PAGES 15 TO 29]

Gold coins

No gold coins were minted in India during the period from 1891-92 to 1917-18.* By a Royal Proclamation dated 21st December, 1917, a branch of the Royal Mint was established at Bombay for the coinage of sovereigns, but it could not commence work until September, 1918. In 1918-19, 1,295,372 pieces of sovereigns were coined in this mint but none were issued to the public. Pending this coinage, the local Mint commenced in June the coinage of gold Mohurs (fifteen-rupee gold coins) under an Ordinance promulgated by the Government of India (subsequently superseded by Act XIV of 1918). The total number of gold Mohurs thus coined amounted to 2,109,703 pieces. The Bombay branch of the Royal Mint was closed in April, 1919. No gold coinage was executed during 1919-20. Sovereigns and half-sovereigns minted either in England or Australia are recognised as legal tender to an unlimited amount at the rate of one sovereign to fifteen rupees‡, provided that they have not been called in or lost weight beyond the limit prescribed as the lowest current weight, viz., 122·5 grains for the sovereign, and 61·125 grains for the half-sovereign—the full legal weight being 123·27447 and 61·63723 grains, respectively. Under Notification No. 1448-A., dated the 8th March, 1907, however, sovereigns and half-sovereigns, which have lost weight so as to be of less weight than that for the time being prescribed for light coins by or under the Coinage Act, 1870, as the least current weight, are receivable at Treasuries, Currency Offices, Mints, and Presidency Banks at the following rates, namely :—

- (a) When such coins have not been reduced by more than three grains below standard weight, that is, are not less in weight than grains 120·27447 and 58·63723, respectively, at their face value ; and
 - (b) When such coins are of less weight than grains 120·27447 and 58·63723, respectively, at their bullion value by weight :
- Provided that such coins have not been illegally dealt with, that is, have not been impaired, diminished or lightened, otherwise than by fair wear and tear, or defaced by having any name, word, device or number stamped thereon, whether the coin has or has not been thereby diminished or lightened.

Silver coins

The weight and fineness of the silver coins minted in the Indian mints for circulation in India are as follows :—

	Fine Silver (grains)	Alloy (grains)	Total (grains)
Rupee	165	15	180
Half-rupee (8 annas)	82½	7½	90
Quarter-rupee (4 annas)	41¼	3¾	45
Eighth of a rupee (2 annas)	20⅝	1⅞	22½
One rupee = 165 grains of fine silver.			
One shilling = 80⅞ grains of fine silver.			
One rupee = shillings 2·0439 †			

In the year 1893 the two Government mints at Calcutta and Bombay were closed for the unrestricted coinage of silver for the public. During the five succeeding years, the coinage of rupees ceased, except that in the years 1897-98 and 1898-99 about 9 million rupees were coined for Indian States to replace their local currencies. By the winter of 1900 the stock of rupees in the Currency reserve had fallen so low that direct replenishment by new coinage became a necessity. The coinage was begun in February, 1900, the Government purchasing the silver required, and paying for it mainly with the gold accumulated in the Paper Currency Reserve.

The statement below shows the silver coinage in the last five years :—

Number of pieces					
	Rupees	Half-rupees	Quarter-rupees	One-eighth-rupees	Total
1915-16	14,800,000	2,804,000	..	..	17,604,000

Value (in rupees)					
	Rupees	Half-rupees	Quarter-rupees	One-eighth-rupees	Total
1915-16	1,48,00,000	14,02,000	..	..	1,62,02,000
1916-17	29,89,00,000	30,39,000	32,95,000	24,73,000	30,77,07,000
1917-18	22,58,33,000	44,11,000	52,68,000	31,95,000	23,87,07,000
1918-19	50,10,06,000	68,85,000	1,26,44,000	..	52,05,35,000
1919-20	36,62,07,000	44,79,000	65,34,000	..	37,72,20,000

The foregoing figures include the value of old rupees received into the mints for recoinage which is stated separately below :—

	British rupees (nominal value) R	Native coins (equivalent in British rupees) R	Other coins (equivalent in British rupees) R
1915-16	1,64,10,000	..	..
1916-17	1,38,55,000	..	..
1917-18	1,26,77,000	..	6
1918-19	55,44,000	..	7
1919-20	45,76,000	..	..

* In 1916-17, 10,001 hundred-piastre pieces to the value of Rs. 1,53,765 were coined in the Bombay mint for the Egyptian Government.

† The metallic value in sterling of the 165 grains of fine silver in a rupee is as follows, with the price of silver at the rate stated below per standard ounce :—

60 d. = 22·297 d.	38 d. = 13·122 d.	34 d. = 12·634 d.	30 d. = 11·149 d.	26 d. = 9·662 d.	22 d. = 8·176 d.
50 d. = 18·581 d.	37 d. = 12·756 d.	33 d. = 12·263 d.	29 d. = 10·777 d.	25 d. = 9·291 d.	21 d. = 7·804 d.
40 d. = 14·865 d.	36 d. = 12·379 d.	32 d. = 11·891 d.	28 d. = 10·406 d.	24 d. = 8·918 d.	20 d. = 7·432 d.
39 d. = 13·494 d.	35 d. = 13·007 d.	31 d. = 11·519 d.	27 d. = 10·034 d.	23 d. = 8·547 d.	

‡ Under the Indian Coinage (Amendment) Act, XXXVI of 1920, the parity was changed from Rs. 15 to Rs. 10.

MINT AND COINAGE

In addition to the coinage of silver for circulation in India, the mints also received, under an agreement with certain Exchange Banks, silver for coinage into British dollars for circulation in Hongkong and the Straits Settlements. This agreement terminated on the 10th December, 1903, and no fresh agreement has been entered into. Owing to a change in the currency policy in the Government of the Straits Settlements a new dollar was introduced there, the coinage of which has been undertaken at the Bombay mint since September, 1903. Since April, 1905, the coinage of the Straits fifty-cent pieces has been undertaken in the Bombay mint, and since October, 1909, the coinage of the twenty-cent, ten-cent, and five-cent pieces for the Straits Settlements Government has further been undertaken in the same mint. The coinage of Ceylon fifty-cent, twenty-five-cent and ten-cent pieces was undertaken in the Calcutta mint from 1913-14 but they were coined in the Bombay Mint during the year 1919-20. The coinage of both dollars and of cent pieces during the five years ending 1919-20 has been :—

Dollar and cent pieces.

								<i>Number of pieces</i>						
								British Dollars	Ceylon fifty cents	Ceylon twenty- five cents	Straits twenty cents	Ceylon ten cents	Straits ten cents	Straits five cents
1915-16	.	.	.	..	..	..	..	..	..	..	..	..	..	..
1916-17	.	.	.	..	596,000	500,000	645,232	120,545	1,200,014	..	..	..	..	..
1917-18	.	.	.	..	1,072,840	300,000	551,641	879,455	6,099,860	..	..	..	..	..
1918-19	.	.	.	..	..	..	..	..	8,700,284	3,210,929	..	..	..	..
1919-20	.	.	.	..	750,005	1,400,007	2,500,009	750,008	13,200,137	10,789,155	..	..	..	..

With the expiry in December, 1903, of the special agreement with the Exchange Banks for the coinage of British dollars, the number coined fell to 3,955,647 in 1903-04 and 648,847 in 1904-05, while the coinage in these two years of, Straits dollars was 15,009,891 and 20,364,664 pieces, respectively. No dollars were coined in 1905-06 or in 1906-07, but in 1907-08 the coinage of British dollars was resumed in the Bombay mint. No Straits dollar has been coined since 1904-05, nor British dollar since 1913-14, and Straits fifty-cent pieces have so far been coined only once and that in 1905-06.

The coinage of Egyptian twenty, ten, five and two piastre pieces was undertaken in the Bombay mint in 1916-17. The total number of these silver pieces coined was 18,370,112 in 1916-17 and 11,343,692 in 1917-18; in 1918-19 only ten, five and two piastre pieces were coined and their total number was 1,870,044, but nothing was coined in 1919-20.

In 1906 provision was made for the coinage of a nickel coin, and by Notification No. 4597-A., dated the 22nd July, 1907, it was directed that the nickel one-anna piece should thenceforth be coined at the mint and issued. The coin weighs 60 grains Troy and has a waved edge with twelve scollops, the greatest diameter being 21 millimetres and the least 19·8 millimetres. The desirability of issuing a half-anna nickel coin was considered by the Government of India in 1909, but it was decided not to take action in this direction.

Nickel coins

Number of pieces				
	Eight annas	Four annas	Two annas	One anna
1915-16	..	..	..	7,670,000
1916-17	..	..	..	39,087,000
1917-18	..	..	3,848,000	58,067,000
1918-19	..	..	85,991,000	80,692,000
1919-20	4,380,000	26,304,000	68,672,000	122,795,000

Values (in rupees)				
1915-16	..	..	..	4,79,000
1916-17	..	..	..	24,43,000
1917-18	..	..	4,81,000	36,29,000
1918-19	..	..	1,07,49,000	50,43,000
1919-20	21,90,000	65,76,000	85,84,000	76,75,000

By Notification No. 761-F., dated the 22nd March, 1918, it was directed that a nickel two-anna piece should thenceforth be coined at the Mint and issued. It is a square coin with rounded corners, its least diameter being 21 millimetres and the rim is not milled. By Notification No. 3129-F., dated the 10th December, 1919, it was directed that nickel eight-anna and four-anna pieces should thenceforth be coined at the mint and issued. The eight-anna coin is circular, the diameter being 26 millimeter and

the rim is not milled. The four-anna coin has a waved edge with eight crests and eight hollows, the greatest diameter being 25 millimetres and the rim is not milled. The statement in the margin gives the number and value of nickel pieces struck in the mints in the last five years.

In 1916-17 the nickel coinage of ten, five, two and one millieme pieces for the Egyptian Government was undertaken in the Bombay mint and in that year 11,702,143 pieces of such coins to the value of Rs. 5,92,252 were struck in the mint. In 1917-18, 6,228,655 pieces of Egyptian ten and five milliemes, valued at Rs. 5,56,579, and in 1918-19, 872,069 pieces of Egyptian five milliemes only, valued at Rs. 67,040, were struck in the mint. In 1919-20 no nickel Egyptian millieme pieces were coined.

Copper coinage was introduced into the Bengal Presidency by Act XVII of 1835, and into the Madras and Bombay Presidencies by Act XXII of 1844. The weight of the copper coins struck under Act XXIII of 1870 remained the same as it was in 1835. It was as follows :—

Copper coins

	Grains Troy
Double pice, or half-anna	200
Pice or quarter-anna	100
Half-pice or one-eighth of an anna	50
Pie, being one-third of a pice or one-twelfth of an anna	33½

Ninety rupees' worth of pice weigh 576,000 grains troy, or 82½ lb avoirdupois.

Act III of 1906 provided for the substitution of bronze for copper coinage. By Notification No. 3895-A., dated the 11th July, 1906, it was directed that the bronze coins should thenceforth be coined and issued at the mint, and that, with effect from the 1st August, 1906, copper coins for the Government of India should cease to be coined. But the copper coinage for Ceylon and the Straits and for certain Indian States continued in the Calcutta mint. In 1916-17, 3,000,000 pieces of half cents to the value of Rs. 26,250

Bronze coins

and 4,000,000 pieces of quarter cents to the value of Rs. 17,500 were coined for the Straits ; in 1917-18, 1,000,000 pieces of cents to the value of Rs. 10,000 and 2,000,000 pieces of half-cents to the value of Rs. 10,000 were coined for Ceylon ; and in 1919-20, 800,000 pieces of Amman cash to the value of Rs. 2,500 were coined for Puddokotai Durbar.

The weight and dimensions of the several denominations of bronze coins are given below :—

	Standard weight (in grains Troy)	Diameter (in millimetres)
Pice or quarter anna	75	25.4
Half-pice	37½	21.15
Pie	25	17.45

The statement below shows the bronze coinage of the last five years :—

	Number (of pieces)				Value (in rupees)			
	Quarter anna	Half-pice	Pie pieces	Total	Quarter anna	Half-pice	Pie pieces	Total
1915-16	..	9,830,400	20,563,200	30,393,600	..	76,800	1,07,100	1,83,900
1916-17	9,337,600	5,734,400	14,438,400	29,510,400	1,45,900	44,800	75,200	2,65,900
1917-18	83,257,600	15,296,000	35,174,400	133,728,000	13,00,900	1,19,500	1,83,200	16,03,600
1918-19	117,472,000	6,284,800	24,192,000	147,948,800	18,35,500	49,100	1,26,000	20,10,600
1919-20	171,097,600	11,161,600	17,472,000	199,731,200	26,73,400	87,200	91,000	28,51,600

In 1916-17, 4,764,000 pieces of Australian pennies to the value of Rs. 2,97,750 and 3,600,000 pieces of Australian half-pennies to the value of Rs. 1,12,500 were struck in the Calcutta mint ; in addition to these, 4,000,000 half millieme pieces to the value of Rs. 30,406 were coined for the Egyptian Government. In 1917-18, 4,800,000 pieces of Australian pennies to the value of Rs. 3,00,000, and 5,760,000 pieces of Australian half-pennies to the value of Rs. 1,80,000 were struck, and in 1918-19, 1,200,000 pieces of Australian pennies to the value of Rs. 75,000, 1,454,400 pieces of Australian half-pennies to the value of Rs. 45,450 were coined in the Calcutta mint. Cent pieces numbering 3,000,000, valued at Rs. 52,500, in 1918-19 and 31,595,000, valued at Rs. 4,44,687, in 1919-20 were struck for the Straits Settlements.

With the fall in the prices of silver, which preceded the closure of the Calcutta and Bombay mints in 1893, there was a very large importation of the metal into India and excessive quantities were coined by some of the Indian States during that period and for some years following the closure. It was found, thereafter, that the coinages were greatly in excess of the needs of the States, and operations abated in 1898. The arrangements made with some of the States for the substitution of the British for the local rupee had led to the closing of the local mints. The States in which coinage was carried on during the last fifteen years have been dealt with in table No. 19. The total coinage from new silver amounted to 10,878,035 tolas in 1918 and 2,004,456 tolas in 1919. The States in which coinage was carried on to a considerable extent in the year under review were Hyderabad and Udaipur.

MINT AND COINAGE*

No. 3.—IMPORTS into and EXPORTS from BRITISH INDIA of GOLD (COIN and BULLION) and the amount received and the amount COINED in the MINTS, from 1835-36 to 1919-20

NOTE.—From the 26th June, 1893, the mints were closed to the unrestricted coinage of silver. From the same date silver belonging to the Government has been valued at its cost price instead of at the fixed rate of Rs 1 per tola of standard silver, but old rupees received for recoinage, as entered in table No. 8, are still taken at their nominal value. The silver received into the mint for coinage into British dollars intended for circulation in the Far East and into the new dollar adopted as the currency of the Straits Settlements is excluded from this table. Particulars of the coinage of these British and Straits dollars will be found in table No. 18

No. 5.—QUANTITY (in ounces) of GOLD and SILVER IMPORTED into and EXPORTED from BRITISH INDIA from and to FOREIGN PORTS in each official year from 1873-74 to 1919-20

NOTE.—The quantities in the column "net imports" for both gold and silver, for the years 1873-74 to 1886-87, are estimates only, deduced from the declared value of the trade for those years by the following process:

For gold, the rupee value of the monthly net imports was converted into sterling at the average rate of exchange in each month, and this sterling value was then divided by the English mint price of gold (£3 17s. 10½d. per ounce). For silver, the average price of ₹107 per 100 tolas, or ₹285.33 per 100 ounces, was taken as the basis of the value of the annual imports.

No. 6.—OLD GOVERNMENT of INDIA RUPEES (including small SILVER COINS) received into the MINTS for RECOINAGE, and SILVER COINAGE in each MINT, from 1835-36 to 1919-20

NOTE.—The figures under 'quarter annas' include British East Africa Protectorate pices, Bikaner State pice and half pice, pice for the Sailana Durbar, and Manasir coins for Aden. The number of these coins is shown in tables Nos. 10 and 12 and their values are stated in the notes at foot of table No. 17

(a) By notification No. 3895 A. of the Government of India, dated the 11th July 1908, the coining and issue of bronze coins of the denominations of pice, half pice, and pie were ordered, and the coining of copper coins ceased with effect from the 1st August, 1906

(b) Copper coinage for Ceylon and the Straits

(c) Copper coinage for the Straits

(d) Copper coinage for Ceylon

(e) Represents "Amman Cash" for Pudukotai State (Madras)

(f) Copper coinage for the Sailana State

(g) Excluding bronze coins struck for the Australian Egyptian and Straits Settlements Government since 1917

MINT AND COINAGE

PAPER CURRENCY

[FOR TABLES, SEE PAGES 33 TO 41]

Laws and
orders relat-
ing to Paper
Currency

Under Acts, VI of 1839, III of 1840, and IX of 1843, the Presidency Banks of Bengal, Bombay, and Madras were authorised to issue notes payable on demand, but the issue of the notes was practically limited to the three cities of Calcutta, Bombay, and Madras. These Acts were repealed, on the 1st March 1862, by Act, XIX of 1861, providing for the issue of a paper currency through a Government Department, by means of notes of the Government of India payable to bearer on demand. Since then no banks have been allowed to issue notes in India. This Act was replaced first by Act, III of 1871, and subsequently by Act, XX of 1882. The Act of 1882 was amended by Acts, XV of 1890, VIII of 1893, XXI of 1896, II of 1898, VIII of 1900, IX of 1902, and VI of 1903; all these Acts were superseded by Act, III of 1905, which again was amended by Act, II of 1909. The last two enactments were replaced by Act, II of 1910. By it, a note of the value of five, ten, or fifty rupees, as well as a note of any other denominational value which the Governor-General in Council may, by notification in the *Gazette of India*, so specify, was declared to be a "universal currency note," that is, legal tender throughout British India and encashable at any office of issue in British India; the then existing sub-circles of Cawnpore, Lahore, Karachi, and Calicut were abolished, and the first three of these constituted separate circles of issue in addition to Calcutta, Madras, Bombay, and Rangoon. At the same time, by a notification issued under the Act, the further issue of 20-rupee notes was discontinued. By another notification issued in 1911 under section 2 of the same Act, a currency note of the denominational value of one hundred rupees was declared to be a "universal currency note." Act, VII of 1911, raised the invested portion of the Currency Reserve from R12 crores to R14 crores with permission to make the additional investment in sterling securities if desirable. By Act, XIX of 1917, notes of the denominational value of one rupee and two and a half rupees were issued and declared to be "universal currency notes." By the Indian Paper Currency (Further Amendment) Act, (XXVI of 1919) passed on the 24th September, 1919, the maximum limit up to which the Currency Reserve could be invested in securities was raised to R120 crores, R100 crores being in British Treasury Bills; but, by Act, XXI* of 1920, passed on the 23rd March, 1920, this Act together with Acts, XI and XIX (part of) of 1917 and XIII, of 1918, was repealed and consolidated, and the limitations as to the nature of the securities in which the investment might be made were temporarily abolished. Since the commencement of the War, the Government of India had recourse to temporary legislation, regarding the fiduciary portion of the Paper Currency Reserve as shown in the following table:—

Acts	(In crores of rupees)		
	NATURE AND VALUE OF SECURITIES WHICH MAY FORM THE RESERVE		
	Permanent investments	Permissible temporary, investments (mainly British Treasury Bills)	Total 2 and 3
1	2	3	4
Act VII of 1911 (Prewar)	14	..	14
Act V (Temporary Amendment) of 1915	14	6	20
Act IX „ „ of 1916	14	12	26
Act XI „ „ of 1917	14	36	50
Act XIX „ „ of 1917	14	48	62
Act VI „ „ of 1918	14	72	86
Act II „ „ of 1919	14	86	100
Act XXVI „ „ of 1919	14	106	120
Act XXI* „ „ of 1920	14	106	120

The whole amount of currency notes in circulation is secured by a reserve of gold and silver coin or bullion and securities of the Government of India or of the United Kingdom. The total amount of such securities was, up to the end of the year of report (1919-20), limited to 120 crores of rupees, of which R14 crores represented the permanent pre-war investment and the rest (R106 crores) the permissible specific temporary investment.

*Act, No. XXI of 1920, was repealed and consolidated by Act No. XLV, dated 17th September 1920, whereby it was enacted among other things that the issue of currency notes should not be lawful if or to the extent that such issue would have the effect of raising the amount of notes in circulation to an amount in excess of twice the amount for the time being of the metallic reserve; in spite of this the Controller may be authorised to issue currency notes to an amount in all not exceeding fifty millions of rupees against bills of exchange which will mature within ninety days from the date of issue; also certain limitations have been put on the nature of the securities reserve and on the metallic reserve—the two parts of which the Paper Currency Reserve consists and provision has been made for the gradual extinction of the created securities in the reserve by utilising the receipts from interests on investments of that reserve to cancel them.

PAPER CURRENCY

The following table shows the growth of the circulation and the changes in the composition of the Reserve during the last seven years :—

[In lakhs of rupees]

Date	Gross Note circulation	COMPOSITION OF THE RESERVE				Percentage of total metallic reserve to gross Note circulation
		Silver	Gold	Securities	Total	
31st March, 1914	66,12	20,53	31,59	14,00	66,12	78.9
„ 1915	61,63	32,34	15,29	14,00	61,63	77.3
„ 1916	67,73	23,57	24,16	20,00	67,73	70.5
„ 1917	86,37	19,21	18,67	48,49	86,37	43.9
„ 1918	99,79	10,79	27,52	61,48	99,79	38.4
„ 1919	153,46	37,39	17,49	98,58	153,46	35.8
„ 1920	174,52	39,85	47,81	86,86	174,52	50.2

The interest accruing on the invested reserve is entered in a separate account, and paid to the credit of the Interest. Government of India, under the head “Profits of note circulation.” In 1919-20 the interest on the invested reserve and other cash receipts amounted respectively to R4,12,65,769, and R1,56,926, the expenditure of the Department being R64,68,822, and the profit R3,49,53,873.

The average monthly circulation of the notes has been, in lakhs of rupees :

Five years ending 1880-81	12,91	Five years ending 1910-11	48,20	Circulation of notes.
„ 1885-86	14,26	„ 1915-16	63,34	
„ 1890-91	17,17	For the year 1916-17	76,14	
„ 1895-96	28,24	„ 1917-18	1,01,77	
„ 1900-01	26,54	„ 1918-19	1,33,20	
„ 1905-06	36,18	„ 1919-20	1,71,68	

The circulation in each circle on the 31st March, 1915 to 1920, was :

	(In lakhs of rupees)					
	1915	1916	1917	1918	1919	1920
Calcutta	24,03	26,38	31,75	30,29	40,74	52,78
Bombay	14,47	16,12	26,20	35,07	48,19	48,96
Madras	8,50	8,73	10,15	11,36	21,22	18,94
Rangoon	5,09	5,95	6,91	7,08	14,00	22,89
Cawnpore	2,84	2,70	1,72	3,09	10,14	11,89
Lahore	4,26	5,29	6,53	8,42	13,83	11,65
Karachi	2,44	2,55	3,11	4,49	5,34	7,42

The note issue assumed unprecedented proportions and stood at the phenomenal figure of R175 crores at the end of March, 1920. The circulation of the different denominations of notes on the 31st March, 1900 and 1920, was as shown below.

	1900	1920
	R	R
1-rupee	—	13,48,76,325
2½ „	—	1,07,58,070

REGISTERED DEBT

[FOR TABLES, SEE PAGES 43 TO 61]

Amount of debt . The registered debt of India consists of rupee loans raised in India and sterling loans raised in England.
The amount of permanent debt on the 1st April 1919 was :—

In England	£ 202,528,570
In India, R1,99,06,53,494 converted into £ at R15=£1	132,710,233
TOTAL	335,238,803

The total permanent debt outstanding on 31st March 1920 was as follows :—

In England	192,631,082
In India, R2,19,42,59,480, converted into £ at R15=£1	146,283,965
TOTAL	338,915,047

In England £532,093 India stock and £9,365,395 liability for British Government 5 per cent War Loan (1929-47) were discharged during 1919-20.

Classification of debt The total registered debt is classified in the accounts as (1) Public Works Debt and (2) Ordinary Debt. The amount entered as belonging to the former category is the equivalent of the total capital expenditure which has been incurred by the State on public works, together with the amount advanced to Railway Companies for capital expenditure ; and the "Ordinary Debt" consists of the remainder of the debt. In any year in which, owing to the use of surplus revenue or deposits for the construction of public works, the capital expenditure of the year exceeds the amount of debt incurred in the year, the effect of this system of classification is to cause a decrease to be shown in the amount of the ordinary debt.

Distribution of debt The distribution of the total registered debt in India and England in the last five years was as follows :—

[Millions of £ sterling]

	Ordinary Debt (a)	PRODUCTIVE PUBLIC WORKS DEBT			Grand total of debt (columns 1 and 4)
		Railways	Irrigation	Total	
	1	2	3	4	5
On 31st March—					
1916	2.0	234.4	42.4	276.8	278.8
1917	3.7	235.7	43.3	279.0	282.7
1918	67.2	239.1	44.0	283.1	350.3
1919	47.0	243.7	44.5	288.2	335.2
1920	41.5	252.4	45.0	297.4	338.9

It may be explained that for the purpose of these figures rupees have been uniformly converted into pounds sterling at the rate of R15 to the pound.

It will be seen that out of a total permanent debt of £338.9 millions, at the end of March 1920; £41.5 millions represented ordinary or unproductive debt. The interest charges on the total Public Debt (including temporary War Bonds) were £7.7 millions on the ordinary debt and £10.3 millions, on the productive debt, the total amounting to £18 millions.

Of the rupee debt at the end of 1919-20, R6.6 crores of the debt bore interest at 3 per cent, R119.1 crores at 3½ per cent, R17.4 crores at 4 per cent, R1 crore at 4½ per cent, R45.9 crores at 5 per cent, and R29.4 crores at 5½ per cent. The total interest charge on the rupee debt at the end of 1919-20 was R9,02,09,953, and on the sterling debt £6,652,195.

(c) Excluding all temporary debts, but including initial expenditure on new capital at Delhi

REGISTERED DEBT*

No. 27.—ABSTRACT STATEMENT—AMOUNT of the RUPEE and STERLING DEBT and of the INTEREST thereon; annual INCREASE or REDUCTION of the DEBT; and the PROPORTION of the RUPEE DEBT held in LONDON, from 1820-21 to 1919-20

For the year 1920 . .	30,46,950	1,45,65,175	6,48,07,304

Until 1866 the average amount outstanding annually varied between R6·4 crores and R7·9 crores, but in that year it rose suddenly to R11·9 crores and reached R16·9 crores in 1870. From 1871 it again declined, and, until 1878, it stood between R13 crores and R14·8 crores. There was then a rapid increase to R16·9 crores in 1879 and to R19·2 crores in 1880. Then followed a slower rate of increase attended with fluctuations. The amount outstanding rose to R21·2 crores in 1882 and declined again to about R19·2 crores in 1887, rising again in 1889 to R21·8 crores. Then followed another period of very rapid increase. In 1891, 1892, and again in 1896 the average amount outstanding was over R26 crores. In the following year it fell to R23 crores, and from 1898 to 1902 it fluctuated between R20 crores and R22 crores. Since 1902 there has been more or less a steady decline. From R18 crores in 1903 it receded in 1908 to R14·9 crores. It slightly recovered and rose to nearly R15½ crores in 1909, but again fell to R14·4 crores in 1910. There was a gradual decline since then, and in 1918 the figure receded to about R7½ crores. In the year 1919 there was a slight recovery to about R8 crores, but in 1920 it again fell to about R6·5 crores, which is the lowest figure touched since 1865.

SECURITIES ENFACED FOR PAYMENT OF INTEREST IN LONDON*

No. 40.—AMOUNT (in rupees) of GOVERNMENT PROMISSORY NOTES ENFACED for PAYMENT OF INTEREST in LONDON at the end of each month from 1900 to 1920

DRAWINGS OF THE HOME GOVERNMENT

[FOR TABLES, SEE PAGES 67 TO 73]

The practice of drawing funds from India to meet the home charges by means of bills of exchange on India was inherited by the India Office from the East India Company. Council drafts, both bills and telegraphic transfers, are in normal times sold by the Secretary of State in London on Calcutta, Bombay, and Madras, primarily to meet his demands on India's behalf.

The tables in this section state the sterling amounts of the annual drawings of the Secretary of State on Calcutta, Bombay, and Madras (the three centres on which Council bills are drawn), and the total sum, with the highest, lowest, and average rate of exchange at which the bills and telegraphic transfers were sold, for each of the three cities. Shortly after the outbreak of war a system of "deferreds" payable 16 days after issue was introduced, and since then practically no "bills" have been sold, the sale being entirely of telegraphic transfers and "deferreds". Council drafts are now sold by competitive tender subject to a minimum rate fixed by the Secretary of State; this minimum rate was raised from 1s. 4d. till it stood at 1s. 6d. at the end of March 1919. In May 1919 this rate for Council drafts, which had remained stationary at 1s. 6d. for over a year, advanced to 1s. 8d. and this was followed by a further rise of 2d. per month in August, September, November, and December until the rate stood at 2s. 4d. The tables also state the sums borrowed in England annually, and the payments of railway capital into the Home Treasury, less the withdrawals of such capital for each year. Until the outbreak of war the largest proportion of the drawings was generally on Calcutta; since then it has been on Bombay. In 1912-13, the percentages were Calcutta 51 and Bombay 33; in 1913-14, 42 and 41; in 1914-15, 37 and 42; in 1915-16, 38 and 39; in 1916-17, 35 and 45; in 1917-18, 32 and 54; in 1918-19, 36 and 49; and in 1919-20, 41 and 46, respectively.

Since 1871-72 the aggregate sterling amount of Council bills and telegraphic transfers, and the sums bor-

	Bills drawn on India.	Amount borrowed in England.	
	£	£	
Five years 1871-72 to 1875-76	60,766,339	8,728,002	rowed in sterling, have been as stated in the margin. The drawings of the Council bills and telegraphic transfers since 1901-02 have increased considerably. The amount of drawings reached £33,432,196 in 1906-07, which was then the record figure. In 1914-15 the amount fell very low to £7,748,111, but in 1916-17 it again rose to £32,998,095; in 1917-18 it surpassed the previous record of 1906-07 and amounted to £34,880,682; but in 1918-19 it fell to £20,946,314; and in 1919-20 it again rose to £31,226,219.

" 1919-20 . . .	31,226,219	...	

During the exchange crisis of 1907-08 the Government of India had occasion to sell such bills which were paid by the India Office. The amounts were £8,058,000 in 1908-09 and £156,000 in 1909-10. Occasion again arose to sell sterling bills after the outbreak of war, the amounts being £8,707,000 in 1914-15, £4,893,000 in 1915-16, £5,315,000 in 1918-19 and £24,544,000 in 1919-20.

* Includes £1,939,693, £263,000, £2,200,000, and £700,396 drawn against the Gold Reserve Fund in 1901-02, 1902-03, 1903-04, and 1904-05, respectively.
† Includes £3,543,000 on account of Gold Reserve Fund, £1,333,333 on account of Paper Currency Reserve and £3,640,000 on account of Australian Gold. It differs from the Home Accounts by £400,000, representing Telegraphic Transfers issued against Australian Gold not included in the Home Accounts for March. The figure also excludes £13,480 being allotments of the 25th March taken up in April 1906.
‡ Includes £3,820,000 on account of Australian Gold. It differs from the Home Accounts by £525,000 (£325,000—£400,000), £925,000 being Telegraphic Transfers against Australian Gold issued in March but taken in the Home Accounts for April, 1907, and £400,000 representing Telegraphic Transfers issued against Australian Gold in March, 1906, but taken in the Home Accounts for April 1906. The figure also includes £13,450, being allotments of the 28th March, 1906, which were taken up in April 1907.
§ Includes £526,324 drawn against Gold Standard Reserve. Differs from the Home Accounts for March, 1908, by £225,000, representing Telegraphic Transfers issued against Australian Gold in March, 1907, but taken in the Home Account for April, 1907.
|| Includes amount drawn against Gold Standard Reserve, viz., £1,491,487 in 1908-09, £1,988,333 in 1911-12, £2,150,000 in 1913-14, and £600,000 in 1914-15.
¶ Includes amount drawn against Gold Standard Reserve and Paper Currency Reserve, viz., £9,090,600 in 1909-10, £15,723,295 in 1915-16 and £23,290,233 in 1916-17.
** Includes £3,145,000 drawn against Gold Standard Reserve and Paper Currency Reserve. It differs from the Home Accounts for March 1911 by £320,000 issued against Gold in transit.
(a) Includes £10,080,718 drawn through Gold Standard Reserve and Paper Currency Reserve, of which £45,746 represents gain by exchange.
(b) Includes £4,346,369 appropriated to Paper Currency Reserve and £3,372,616 issued at 1s.—4½d. per rupee in pursuance of special arrangement between the Secretary of State and the six British Exchange Banks.
(c) Excluding the amount of special Sales stated in foot note (b) the average rate was 17 833.
(d) Includes £3,701,781, issued in pursuance of a special arrangement between the Secretary of State and the six British Exchange Banks.

No. 45.—COUNCIL BILLS (including TELEGRAPHIC TRANSFERS) DRAWN on CALCUTTA, BOMBAY, and MADRAS, with the drawing rates; the PAYMENT of RAILWAY CAPITAL into the HOME TREASURY, less WITHDRAWALS in ENGLAND; and the SUMS BORROWED in ENGLAND; in each year from 1893-94 to 1919-20

(a) Includes amount drawn against the Gold Reserve Fund, Rs. 2,90,86,395 = £1,939,093, in 1901-02, Rs. 39,45,000 = £263,000 in 1902-03, Rs. 3,30,00,000 = £2,200,000 in 1903-04, and Rs. 1,05,05,940 = £700,396 in 1904-05

(b) Includes amount drawn against the Gold Reserve Fund and Paper Currency Reserve, Rs. 7,31,45,000 = £4,876,333 in 1905-06

(c) Includes amount drawn against Gold Standard Reserve, Rs. 78,94,856 = £526,324 in 1907-08, Rs. 2,23,72,303 = £1,491,487 in 1908-09, Rs. 2,98,25,000 = £1,988,333 in 1911-12, Rs. 3,22,50,000 = £2,150,000 in 1913-14, and Rs. 90,00,000 = £600,000 in 1914-15

(d) Includes amount drawn against Gold Standard Reserve and Paper Currency Reserve, Rs. 13,63,50,000 = £9,090,000 in 1909-10, Rs. 4,71,75,000 = £3,145,000 in 1910-11, Rs. 23,58,49,000 = £15,723,000 in 1915-16, Rs. 34,93,87,000 = £23,289,000 in 1916-17, and Rs. 15,05,25,000 = £10,035,000 in 1917-18

(e) Includes Rs. 21,51,96,000 = £14,346,000 drawn against Paper Currency Reserve

WAYS AND MEANS OF THE HOME GOVERNMENT

[FOR TABLES, SEE PAGES 76 TO 80]

In the early years of the period for which figures are given in table No. 49, the disbursements in London of the East India Company were met not only by the sale of bills but, to a considerable extent, by the realisation of commercial assets and by repayments of advances made on goods in India and China. These "ways and means" gradually declined and became extinct about 1850. Thereafter the Government was financed in England mainly by means of Council bills, supplemented by borrowing, by deposits made by railway companies against expenditure in India, and by occasional resort to remittances in gold or silver from India. There was no remittance of silver between 1871-72 and 1914-15. In 1915-16 silver was remitted to the amount of £100,000 and in 1916-17 to the amount of about £67,000. Again there was no remittance of silver in 1917-18, 1918-19 and 1919-20. No gold was remitted between 1880-81 and 1899-1900; in 1900-01 a remittance of gold was made to the extent of nearly £4,000,000. The subsequent remittances of gold have been as follows: about a million in 1901-02, nearly half a million in 1902-03, about £4 millions in each of the years 1903-04 and 1904-05, nearly 1½ millions in 1905-06, about a quarter of a million each in 1906-07 and 1908-09, a third of a million in 1912-13, about half a million each in 1913-14 and 1914-15, and £2 millions in 1915-16. Since the outbreak of war large amounts have been received in England in repayment of advances made by the War Office in respect of expenditure incurred in India in connexion with expeditionary forces and other war services. The amounts so received were £9 millions in 1914-15, £16 millions in 1915-16, £39 millions in 1916-17, £69 millions in 1917-18, £92 millions in 1918-19, and £63 millions in 1919-20.

In the ten years from 1910-11 to 1919-20 the disbursements amounted to about £1,183 millions, and, on the other side, Council bills represented £259 millions, borrowings £40 millions, and the amount received in repayment of advances made in India on account of the Imperial Government and other public departments £333 millions, these three items totalling £632 millions.

No. 49.

Disbursements in England and the Ways and Means by which they
were met from 1834-35 to 1919-20

* Compiled from the Home Accounts of the Government of India

† These disbursements include, besides ordinary expenditure, the amount of debt discharged, deposits and advances including investments on account of the Gold Standard and Paper Currency Reserves, and remittances on account of India including payments on account of silver and gold purchased for India and of Bills of Exchange and Telegraphic Transfers on London sold in India. A reference to the next table should be made in this connection

(a) Includes £2,000,000 being an advance from His Majesty's Treasury under the Indian Advance Act, 1879

and the WAYS and MEANS by which they were met (in pounds sterling)

DISBURSEMENTS WERE MET										
ON ACCOUNT OF INDIA										
Remitted from India in silver	Deposits by Railway Companies in excess of withdrawals	Total remittances	Borrowed in England	Sale of stock in the public funds	Gold Standard Reserve : Net sale proceeds of gold received from India, and dividends on investments	Paper currency reserve	Release of gold held in England as a reserve to secure the payment of currency notes issued in India	Total receipts, excluding miscellaneous receipts	Cash balance at end of the year

(a) Invested in British funds and Treasury bills
(b) Includes £4,911,621 on account of redemption of annuity, etc., of the Sind, Punjab, and Delhi Railways
(c) Includes £1,833,333 invested in Consols and Exchequer Bonds and £1,045,000 representing the transfer of gold at the Bank of England
(d) Includes £269,938 re-transferred to Home Treasury Balances in respect of profits on coinage remitted in excess during 1917-18
(e) Figures for 1899-1900 and 1900-01 refer to the amount held as a reserve to secure the payment of currency notes issued in India and those for 1919-20 to Gold purchased by the Secretary of State for remittance to India

PRICES OF GOLD, SILVER, AND STOCKS, AND RATES OF EXCHANGE

[FOR TABLES, SEE PAGES 82 TO 105]

Table No. 51 is a record, from the year 1835, of the minimum and maximum prices of standard silver in London during each month, the yearly value of silver coined in England, the imports and exports of silver into and from England, the annual sum of Council Bills, and the Bank of England average rate of discount.

Table No. 52 shows the prices of standard silver in London and of bar gold in India, ruling at or about the close of each fortnight; also the relative values of the two metals in London and India. The mint price in London of gold $\frac{11}{16}$ fine is £3-17-10½ per ounce troy, but as standard silver is $\frac{37}{100}$ fine, the comparative value per ounce of gold $\frac{37}{100}$ fine or £3-18-7 is divided by the market price of an ounce of standard silver, and thus the relative value of the two metals is obtained. In India up till June, 1893, when the mints were closed to the coinage of silver for the public, the comparison was made between the price of a tola of bar gold and the rupee which itself weighs one tola (180 grains) and contains 165 grains of pure silver. Thus the rupee price of a tola of gold was multiplied by a fraction of which 165 was the numerator and the denominator the number of grains of pure gold per tola of bar gold, that is to say, 179.1 up to the close of 1887, when the touch of the bar gold was 99½, and 180 from January 1888, from which month prices were quoted for gold of 100 touch. From the latter half of June, 1893, when the mints were closed, the relative values in India have been calculated on the market prices of the two metals at Bombay, excluding the import duty* levied on silver (5 per cent from 10th March, 1894, to 24th February, 1910, and 4 annas per ounce from 25th February, 1910, to 1st February, 1920).

Table No. 53 shows the course of the prices of silver in London since January, 1901, the figures representing the average for each half month, and the variations are worked out on the basis of the price of silver on the 1st June, 1893, the month in which the mints were closed.

Table No. 54 shows the course of the rates of exchange in Calcutta since January, 1901, the figures representing the average for each half month, and the variations are also worked out on the basis of the rate of exchange on the 1st June, 1893, being taken as 100.

Table No. 55 shows from the year 1901, the course of exchange on London, the Bank of England rate of discount, and the Bank of Bengal rate of interest.

Table No. 56 shows, from the year 1901, the price of sovereigns (British and Australian) and the price per tola of uncoined gold (China leaf of 100 touch) in India.

Table No. 57 records the course of the price of bar silver in Bombay, inclusive of import duty, from 1901-02.

Table No. 58 records the course of the rate of exchange between India and China, from 1900-01.

Table No. 59 shows the price of Government Securities in Calcutta; table No. 60 of India Stock in London, and table No. 61 of Enfaced Rupee Paper in London.

* Abolished with effect from 2nd February, 1920.

NOTE.—On the 26th June 1893 the mints were closed to the coinage of silver for the public and from that date the relative value of gold and silver in India ceased to be derivable from the rupee price of gold.

* The exact amount is £3-18-6-99, but for convenience £3-18-7 has been adopted. It represents the equivalent of gold $\frac{37}{100}$ fine (the silver standard) derived from the mint price of £3-17-10½ per ounce for gold $\frac{11}{16}$ fine (the gold standard).

(a) From January 1888 the figures represent the price of bar gold of 100 touch at or about the close of each fortnight, as given in the "Current Quotations," published by the Chamber of Commerce, Bombay. Previously, the touch was 99½.

of BAR GOLD in INDIA and RELATIVE VALUE of GOLD to SILVER in INDIA from 1865 to 1920

MILITARY SERVICES

[FOR TABLE, SEE PAGE 107.]

The table on Military Services shows the detailed items of military receipts and expenditure of the Government of India, both in England and in India, for the last five years. The statistics do not take into account the expenditure on military operations, which is treated as extraordinary expenditure and met from the excess of ordinary revenues over ordinary outlay.

Military receipts on the average amount to about £1·92 millions. They represent about 1·74 per cent of the total revenue of the Government of India. They are derived from army, marine, and military works, and were distributed between India and England in the proportion of 8 to 1 in the year 1919-20. Army receipts are derived from dairy farms, the sale-proceeds of surplus stores, unserviceable animals, carts, etc., the capitation rate payable by the Imperial Government in respect of Indian troops lent for service in the Colonies, contributions and subscriptions towards the Indian Military Service Family Pensions, and contributions by the Imperial Government in respect of the cost of transport of troops and military charges for Aden. Marine receipts are derived from dockyard services and supplies, hire of vessels, and sale-proceeds of vessels and stores. Receipts on account of military works are derived mainly from rent of buildings, etc.

The gross military expenditure averages about £38 millions, and is 34 per cent of the total expenditure of the Government of India. The amount spent in India is over R47 crores (over £31 millions) and that in England over £6·1 millions, the ratio being 84 and 16 per cent, respectively. The charges are shown under the heads of (1) effective, (2) non-effective, (3) marine, (4) military works, and (5) special defence works, the proportions

	R(crores)		
Effective	47	82·4	per cent.
Non-effective	5	9·1	"
Marine	1	2·5	"
Military works	3	5·9	"
Special Defence works	0·01	0·02	"

being as stated in the margin. The effective expenditure represents the cost of maintaining the standing army, and averages about R47 crores (over £31 millions). One of the most important items of army charges in England is the payment made to the Home Government to cover the cost of recruiting and training, and of other services connected with the maintenance of the British establishment in India. The chief items

	R(crores.)		per cent.	
Regimental pay, allowances and charges (including volunteers and Indian Defence Force)	12	26·7		of effective charges are stated in the margin. The other items of effective charges are—administration, accounts, veterinary services, army clothing, remount establishments, medical services and stores, ecclesiastical, education, compensation for dearness of food and forage, hutting, conveyance, cantonments, and miscellaneous.
Supply and Transport (including farms)	4	8·7		
Ordnance Establishments, supplies and services	2	4		
Stores for India (supplied from England)	2	4·6		

The non-effective expenditure comprises charges for rewards and pensions. The total averages about R5,13 lakhs, R3,66 lakhs (£2·44 millions) being spent in England and R1,47 lakhs in India. The non-effective charges in England consist mainly of pay and pensions of non-effective and retired officers of the Indian Service and payments to the War Office for retired pay, etc., of British forces for service in India.

The expenditure on marine charges has been R1,42 lakhs, namely, R67 lakhs or 47 per cent in India and R75 lakhs (£503,000) or 53 per cent in England. The chief items of marine charges are the maintenance of the "Royal Indian Marine," the contribution made by the Government of India towards the expenses of His Majesty's ships employed in the Indian seas, and stores.

The expenditure on military works in recent years has averaged R3·36 crores. Military works consist of new buildings and repairs for the accommodation of troops, general cantonment works, and defence and other works.

The net expenditure of the Government of India on Military Services, both in India and in England, in the last five years has averaged about £35·8 millions or R53·6 crores annually. The figure for 1919-20 is £57·98 millions.

(a) From 1917-18, figures include those for the Indian Defence Force
(b) Increase due mainly to the cost of additional troops
(c) Increase due mainly to increased rates of pay and allowances

BANKS

[FOR TABLES, SEE PAGES 110 TO 113.]

Banks in India may be classified into (1) the Presidency Banks, § *i.e.*, the Bank of Bengal, the Bank of Bombay, and the Bank of Madras; (2) the Exchange Banks, whose head offices are located outside India (these Exchange Banks may be sub-divided into 2 classes, *viz.*, those which do a considerable portion of their business in India, such as the Chartered Bank of India, Australia, and China (1853), the National Bank of India, (1863), etc, and those banks which are merely agencies of large banking corporations doing business all over Asia, such as the Hongkong and Shanghai Banking Corporation, the International Banking Corporation, the Russo-Asiatic Bank, the Yokohama Specie Bank, etc., (3) the Indian Joint-Stock Banks registered under the Indian Companies Act whose head offices are located in India; and (4) private and unincorporated bankers or money-lenders. Statistics relating to this last class (private and unincorporated bankers) are not generally available.

The total amounts of capital, reserve, deposits, and balances of the different classes of banks on 31st December, 1919, are compared in the table below with those on the corresponding date ten years ago :—

Class of Banks	CAPITAL AND RESERVE			DEPOSITS			CASH BALANCES		
	1909 R (lakhs)	1919 R (lakhs)	Increase per cent	1909 R (lakhs)	1919 R (lakhs)	Increase per cent	1909 R (lakhs)	1919 R (lakhs)	Increase per cent
Presidency Banks	6,78	7,33	8	35,85	75,94	112	11,66	23,63	103
Exchange Banks*	30,16	53,07	76	20,27	74,36	267	4,16	29,98	621
Indian Joint-Stock Banks with capital and reserve of R5 lakhs and over	3,54	7,63	116	20,49	58,99	188	2,79	12,17	336

The Presidency Banks.—Table 63 shows that at the end of 1919 the paid-up capital of the three Presidency Banks was the same as in the pre-war year 1913. Detailed statistics for each of the three Presidency Banks will be found in tables 68, 69 and 70. The following table shows from the pre-war year the public and private deposits, and the cash balances of the Bank of Bengal, the Bank of Bombay, and the Bank of Madras :—

31st December	BANK OF BENGAL			BANK OF BOMBAY			BANK OF MADRAS		
	DEPOSITS		Cash Balances	DEPOSITS		Cash Balances	DEPOSITS		Cash Balances
	Government (Public)	Private		Government (Public)	Private		Government (Public)	Private	
	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)	R (lakhs)
1913 (pre-war year)	3,01	18,25	8,41	2,01	10,18	4,78	87	8,06	2,19
1914	2,87	21,61	11,70	1,83	10,82	8,47	91	7,62	2,67
1915	2,65	19,79	7,85	1,36	10,79	4,24	87	8,03	2,56
1916	2,74	21,44	7,73	1,42	13,67	6,68	1,04	9,60	2,87
1917	4,48	29,34	14,82	2,35	28,18	13,99	88	10,20	4,96
1918	5,85	23,93	8,94	1,77	17,50	5,42	1,02	9,54	2,71
1919	4,05	28,49	9,98	2,63	27,57	9,28	1,04	12,16	4,37

As compared with the pre-war year, private deposits increased by 171 per cent in the case of the Bank of Bombay, 56 per cent in the case of the Bank of Bengal, and 51 per cent in the case of the Bank of Madras. Cash balances showed an increase of 100 per cent in the case of the Bank of Madras, 94 per cent in the case of the Bank of Bombay, and 19 per cent in the case of the Bank of Bengal.

The Exchange Banks.—The aggregate paid-up capital and reserves of the eleven Exchange Banks amounted to £53 millions, while the deposits in India were £74 millions, and cash balances in India £30 millions (*vide* table 64). As compared with the pre-war year, the capital and reserves of these banks increased by 40 per cent, and deposits and cash balances in India by 140 per cent and 410 per cent, respectively, as will be seen from the following table:—

	Capital and reserves in India £ (1,000)	Deposits in India £ (1,000)†	Cash balances in India £ (1,000)‡
1913 (pre-war year)	37,825	31,035	5,882
1914	36,972	30,148	8,394
1915	36,793	33,546	7,601
1916†	37,931	38,039	10,140
1917	32,682	53,375	33,744
1918	39,449	61,856	15,175
1919	53,070	74,359	29,983

Indian Joint-Stock Banks.—Indian Joint-Stock Banks are dealt with in table 65. There are 95 Indian Joint-Stock Banks with 230 branches and agencies, chiefly scattered throughout the North-West of India, specially in the Punjab and the United Provinces. The tables in the volume deal with only those banks (47 with 224 branches) which have a minimum paid up capital and reserve of one lakh of rupees. These banks are sub-divided into two classes, namely, (i) those with a paid up capital and reserve of R5 lakhs and over, and (ii) those with a paid-up capital and reserve between one lakh and less than R5 lakhs.

§ The undertakings and business of the Bank of Bengal, the Bank of Bombay, and the Bank of Madras have been taken over by the Imperial Bank of India constituted under the Imperial Bank of India Act, 1920, with effect from 27th January 1921.

* In the case of Exchange Banks deposits and cash balances in India only have been taken into account in this statement

† Excluding the Delhi and London Bank which was amalgamated with the Alliance Bank of Simla, Ltd.

‡ Deposits and Cash balances in India converted into pounds sterling at the rate of R10=£1 in all the years.

BANKS

The aggregate paid up capital and reserves of these 47 banks in 1919 amounted to R8,38 lakhs, the deposits to R61,27 lakhs, and cash balances to R12,71 lakhs, as stated below :—

	CLASS I.				CLASS II.			
	Number of banks	Capital and reserves	Deposits	Cash balances	Number of banks	Capital and reserves.	Deposits	Cash balances
		R (lakhs)	R (lakhs)	R (lakhs)		R (lakhs)	R (lakhs)	R (lakhs)
1913 (pre-war year)	18	3,64	22,59	4,00	23	50	1,51	25
1914	17	3,93	17,11	3,53	25	55	1,26	28
1915	20	4,38	17,87	3,99	25	55	91	20
1916	20	4,61	24,71	6,03	28	63	1,01	17
1917	18	4,67	31,17	7,65	25	54	99	20
1918	19	6,02	40,59	9,49	28	63	1,55	37
1919	18	7,63	58,99	12,17	29	75	2,28	54

Deposits.—It will be seen from the table below that although the deposits in the Presidency Banks had a set back in the year 1918 as compared with the preceding year, the total deposits in all the banks have steadily increased during the last thirty years, there being very slight decreases in 1914 and 1915, the first two years of the war period. The deposits of the Exchange Banks refer to Indian deposits only.

Year	Presidency Banks and Branches	Exchange Banks (Deposits in India only)	Indian Joint-Stock Banks	TOTAL
	R(1,000)	R(1,000)	R(1,000)	R(1,000)
Thirty years ago (1889)	10,74,95	4,77,62	2,22,57	17,76,14
Twenty years ago (1899)	14,25,80	10,70,02	7,34,24	32,30,06
Ten years ago (1909)	35,84,79	20,27,42	20,49,10	76,61,31
1910	36,58,01	24,79,17	25,65,85	87,03,03
1911	38,58,29	28,16,90	25,29,11	92,04,30
1912	40,11,48	29,53,62	27,25,98	96,91,08
1913	42,37,16	31,03,54	24,10,34	97,51,04
1914	45,65,60	30,14,76	18,37,12	94,17,48
1915	43,49,86	33,54,56	18,78,64	95,83,06
1916	49,91,45	38,03,88	25,72,28	1,13,67,61
1917	75,43,02	53,37,53	32,16,21	1,60,96,76
1918	59,62,03	61,85,60	42,14,83	1,63,62,46
1919	75,93,61	74,35,90	61,27,96	2,11,57,47

Cash Balances.—As will be seen from table 67, cash balances at the end of 1919 were 31 per cent of the liabilities on deposits in the case of the Presidency Banks, 35 per cent in the case of Exchange Banks doing a considerable portion of their business in India, and 67 per cent in the case of those Banks doing business all over Asia. In the case of Indian Joint Stock Banks the percentage was as low as 21.

POST OFFICE SAVINGS BANKS

[FOR TABLE, SEE PAGE 115]

Until 1882-83 the savings bank business conducted under Government control was carried on in the three cities of Calcutta, Madras, and Bombay by the Presidency Banks, and elsewhere by the Government treasuries. So long as this system was maintained, the business grew but slowly. The highest balances in the district treasuries never exceeded R75 lakhs (in 1884-85), and in the Presidency Banks the highest balances (in 1882-83) amounted only to R2,36 lakhs. In 1886-87 the Savings Banks in the district treasuries were closed. The Presidency savings banks were maintained until 1895-96, although the deposits in them gradually declined in consequence of the preference given to the post office by the public, and now the whole of the savings bank business of Government is a branch of the postal administration. The establishment of savings banks in the post offices was followed by a rapid change. In the first year of their existence the balances were only R27 lakhs, but the public soon indicated their preference for business with the post office. By 1886-87 when the savings banks in the district treasuries were closed, the balances in the post offices amounted to R4 crores. During the succeeding years there was a considerable increase, although the Government took steps to prevent it from being inconveniently rapid. For this purpose in 1889-90 the maximum sum receivable was reduced from R3,000 to R2,000, and in 1894-95 the rate of interest was reduced from $3\frac{3}{4}$ per cent to $3\frac{1}{8}$ per cent in correspondence with the reduction in the rate of interest on Government securities. In 1893-94 the balances amounted to R9 crores; ten years later, in 1902-03, they reached R11 crores. In 1913-14 the balance of deposits, inclusive of interest, amounted to R23 crores. On the 1st April 1914, however, the maximum amount receivable for deposit was raised from R2,000 to R5,000. The amount of Savings Bank deposits, it was expected, would increase by these measures, but owing to heavy withdrawals due to the outbreak of war the balance of deposit in 1914-15 fell to R15 crores, a decrease of 35 per cent over 1913-14. The decrease was arrested in the following year and in 1919-20 the balance amounted to over 21 crores.

The amount of interest accrued in 1919-20 was over R56 lakhs, as against R47 lakhs in the previous year. The rate of interest allowed on deposits has been as follows: $3\frac{3}{4}$ per cent from 1867-68; $4\frac{1}{8}$ per cent from the 1st January, 1880, to the 31st May, 1881; $3\frac{3}{4}$ per cent until the end of 1893-94; $3\frac{1}{8}$ per cent from April, 1894, to June, 1905. From July, 1905, depositors were allowed to deposit money either at call or subject to six months' notice of withdrawal, and the interest on deposits at call was reduced from $3\frac{1}{8}$ per cent to 3 per cent, while interest at the rate of $3\frac{1}{4}$ per cent was given on deposits that were held subject to six months' notice of withdrawal. Since 1st January, 1911, the system of deposits subject to six months' notice of withdrawal has been abolished.

The total number of depositors has increased greatly in the last ten years ending 1919-20 and the average balance per depositor has also slightly increased. In 1909-10 the total number of depositors was 1,379,000 and the average balance per depositor was R115; while in 1919-20 the number was 1,760,000 and the average balance R121, thus showing an increase of 28 per cent in the number, and of 5 per cent in the average balance per depositor.

* Compiled from the annual report on the Post Office of India.

NOTE.— The Savings Bank business of the district treasuries was transferred to the Post Office in 1886-87, and that of the Presidency Banks was closed in 1896-97, since which year the Savings Banks have been entirely managed by the Post Office.

(a) From 1912-13 the distinction between European and Indian depositors has been discontinued. Information regarding the different classes of depositors is no longer maintained in the records of the Director-General, Posts and Telegraphs, as such information is doubtful utility.

CO-OPERATIVE SOCIETIES

[FOR TABLES, SEE PAGES 118 TO 120]

The Co-operative Credit Societies Act, X of 1904, was passed on the 25th March, 1904, to "encourage thrift, self-help, and co-operation among agriculturists, artisans, and persons of limited means." In March, 1912, this Act was repealed by the Co-operative Societies Act (II of 1912). There are two classes of primary societies distinguished as non-agricultural and agricultural : a *non-agricultural society* is defined as a society in which not less than four-fifths of the members shall be non-agriculturists, and an *agricultural society* is a society in which not less than four-fifths of the members shall be agriculturists. Each society consists of ten or more members above the age of eighteen years residing in the same town or village or in the same group of villages, or belonging to the same tribe, class, caste, or occupation, who, by combining to furnish a collective guarantee, can, on the security of that guarantee, obtain money at lower rates of interest than they could obtain it individually. As the primary societies in a certain area, usually a district, increase in number, these are federated under a joint central institution called a *Central Bank*, or a *District Bank*, or a *Banking Union*. The central institution may only finance the primary societies without inspecting them, and such a body constitutes a Central or a District Bank in the more restricted sense of the terms ; or it may both inspect and finance its constituent societies, and it is then spoken of as a Banking Union. There is yet another class of combination of individual societies, which acts as an intermediary between the primary society and the Central Bank, and it is called a *Supervising and Guaranteeing Union*. It is formed by the union of a group of primary societies within a restricted area, the societies furnishing a mutual guarantee for each other's credit which makes it a matter of self-interest to see that each society in the group maintains a high level of efficiency. It exercises a general control over the affiliated societies, the loan applications of which it scrutinises before these are submitted to the central financing agency. The Central Bank (including District Bank and Banking Union) lends to individual societies and taps deposits from a larger area than that of the primary agricultural or non-agricultural society, and is in its turn financed by the *Provincial Bank*. A *Cattle Insurance Society* is formed with the owners of cattle as members, who annually pay to the society a premium sufficient at least to equal the yearly amount of loss sustained in respect of the animals assured. From the premia thus collected the society indemnifies its members for losses sustained during the year. These societies exist in Bombay, the Punjab, Burma, and Coorg only, and are affiliated to a *Central Re-insurance Society* which, in return for a definite share of the insurance premia of the affiliated societies, undertakes a definite share of their risks in order to save local societies from ruin by local calamities. Societies of this type at present exist only in Burma and the Punjab.

The tables indicate some of the leading features of progress in the co-operative movement and show the numbers of societies and members, and the working capital for the whole of India for 1919-20 and previous years, and by Provinces for 1919-20 only.

In Tables 74 and 76, when comparing the figures for the five years, 1915-16 to 1919-20, with the figures for years prior to 1915-16, the following points should be borne in mind :—

- (i) that in the case of Guaranteeing Unions and Re-insurance Societies the number of members represents the number of affiliated societies and not the number of individual members included in such societies ;
- (ii) that with effect from 1917-18 individual members of Central and Provincial Banks, Banking Unions, and Guaranteeing Unions are not included in the total number of members shown in Tables 74 and 75, as it is assumed that these have already figured once as members of an agricultural or non-agricultural primary society ;
- (iii) that the figures for working capital given in Table 76 do not include the working capital of Unions, Cattle Insurance, and Re-insurance Societies ;
- (iv) that with effect from the year 1915-16 the loans and deposits of society-members have been transferred in Table 76 from the head "Loans and deposits held at the end of the year from members" to the head "Loans and deposits held at the end of the year from societies," and that the latter head no longer includes loans and deposits from Provincial or Central Banks for which a separate head has been provided ; and
- (v) that with effect from the same year (1915-16) the figure given against the head "Loans and deposits held at the end of the year from non-members and other sources," includes all loans and deposits held by Central and Provincial Banks from individuals, Joint Stock Banks, and other sources not included against the preceding headings.

The statistics given in the tables relate to all the provinces in British India except the North-West Frontier Province and British Baluchistan, where the co-operative movement has as yet made little progress. From 1917-18 statistics relating to Co-operative Societies in the Hyderabad Administered Area have been included. The tables also include the figures for the Indian States of Mysore, Baroda, Hyderabad, and Bhopal. Many other States, such as Travancore, Cochin, Gwalior, Indore, Patiala, etc., have introduced co-operation among their subjects, but statistics for these States are not at present included in the statements.

CO-OPERATIVE SOCIETIES

The progress hitherto made in the co-operative movement has been exceedingly encouraging. The total number of societies at work at the end of the year 1919-20 was 40,772, the membership of primary societies 1,521,148 and the working capital of all societies Rs 21,40,71,000. Central societies numbered 1,394 and had a membership of 144,300. Four hundred of these societies were Provincial and Central Banks, and 994 Unions (including Re-insurance societies). The number of non-agricultural societies was 2,662 with a membership of 339,430. The number of agricultural (including Cattle Insurance) societies was 36,716, and the membership of all classes of agricultural (including Cattle Insurance) societies was 1,181,718.

During the last decade the number of societies of all classes rose from 5,432 to 40,772, the number of members of primary societies from 308,000 to 1,521,000, and the total working capital from Rs 2,04 lakhs to Rs 21,41 lakhs. The reserve fund during the period grew from Rs 5,61,000 to Rs 1,79,80,000, and the paid-up share capital from Rs 33,91,000 to Rs 3,40,09,000. State aid (Rs 8,57,000) formed 4.2 per cent of the working capital in 1910-11, while in 1919-20 the amount of loans and deposits held from Government—Rs 37,38,000—formed only 1.7 per cent of the total capital.

LIFE ASSURANCE

[FOR TABLES, SEE PAGES 123 AND 124]

The history of Indian Life Assurance Companies can be traced as far back as 1829, when the Madras History Equitable Assurance Company was started in Madras. Of the existing life assurance companies in other parts of India, the Christian Mutual started its business in the Punjab in 1847. The Bombay Mutual Assurance commenced business in the year 1871. In Bengal, Life Assurance business does not appear to have begun until 1891, when the Hindu Provident Fund came into existence. It took, however, several years before the business began to become popular in this country, and it was not until 1906 and subsequent years that a number of companies were established in the different provinces. No reliable statistics regarding Indian Life Assurance Companies were available until the Provident Insurance Societies Act, V of 1912, and the Indian Life Assurance Companies Act, VI of 1912, were passed for the regulation of Life Assurance Companies doing business in British India.

The tables (Nos. 78—80) show the statistics relating to Indian Life Assurance Companies, furnished by the Actuary to the Government of India. They deal with companies registered and working in India, and relate to the five years ending 1919. The statistics relate to the years ending on different dates for the different companies. The number of companies dealt with under Act, VI of 1912, was 39 in 1915, 42 in 1916, 41 in 1917, 41 in 1918 and 42 in 1919.* These statistics exclude foreign companies, working in India, which comply with the provisions of the British Assurance Companies Act of 1909 and are partially exempt from the Indian Act of 1912. The tables also exclude companies and funds which have been granted complete exemption from compliance with the Act, namely, (a) pension and other funds connected with the Indian Government Services, (b) the many small societies which, on account of either the sum or the premium stated in their policies being under certain specified limits, are subject to the Indian Provident Insurance Societies Act, (c) certain pension and annuity funds, and (d) companies which are no longer issuing policies in India.

The total income shown in the Life Assurance Revenue Accounts of the companies dealt with in these Income statistics was Rs. 1,69 lakhs in 1919 against Rs. 1,54 lakhs in 1918, Rs. 1,44 lakhs in 1917, Rs. 1,37 lakhs in 1916, and Rs. 1,41 lakhs in 1915. The sources from which the income was derived, and the proportion of the amount derived from each source in 1919, are noted below :—

	Income Rs. (1,000)	Proportion to total income Per cent.
Premiums and annuities	1,28,21	75.9
Interests and rents, etc. (less tax)	39,07	23.1
Other items of receipts	1,72	1.0
Total	1,69,00	100

This income was disposed of as follows :—

	Payment Rs. (1,000)	Proportion to total payment Per cent.	Outgo
Claims by death	51,25	30.3	
„ „ survival	24,09	14.3	
Surrenders	2,90	1.7	
Annuities and pensions	.93	.6	
Bonus in cash and reduction of premium	1,05	.6	
Dividends to share-holders	58	.3	
Expenses	31,79	18.8	
Depreciation, transfer to investment reserve funds, etc.	5,26	3.1	
Increase to funds	51,15	30.3	
Total	1,39,00	100	

The total expenses in connection with life assurance business amounted to 24.8 per cent of the premium income in 1919, as against 21.9 per cent in 1918, 20 per cent in 1917, 20.5 per cent in 1916, and 21 per cent in 1915.

The life assurance funds of Indian companies amounted to Rs. 7,88 lakhs in 1919, against Rs. 7,37 lakhs in 1918, and Rs. 7,19 lakhs in 1917. These funds in 1919 earned interest at the rate of 5.27 per cent on the average, after deduction of income-tax. The total amount of paid-up capital of the companies at the end of the year amounted to about Rs. 46 lakhs, and the total realisable assets, consisting of mortgages, loans, Government promissory notes, debentures and shares, house property and other investments, stocks, interests, deposits, etc., amounted to Rs. 9,68 lakhs.

The following table illustrates the distribution of assets among the different classes of investments held by Indian companies :—

Nature of Assets	Amount. Rs. (1,000)	Proportion to total assets Per cent.
Mortgages and Loans on rates	21,67	2.3
Debentures, including Indian Municipal Securities	1,43,75	14.9
Preference, Guaranteed and Ordinary shares	23,92	2.5
House and Landed Property	63,27	6.6
Outstandings	16,28	1.7
Loans on Personal Securities	3,67	.4
„ „ on Policies	75,87	7.9
Indian Government Securities	5,86,22	60.2
Accrued interest	11,30	1.2
Cash, stamps, etc.	17,02	1.8
Preliminary expenses, etc.	4,62	.5
Total	9,67,59	100

* For the names of the companies included in these tables, a reference is invited to the Blue Book for 1919 relating to Returns from Life Assurance Companies doing business in British India (Seventh Issue) published by the Actuary to the Government of India.

LIFE ASSURANCE

New policies	The total amount of new sums assured by Indian companies during the year 1919 was over R4,49 lakhs. Details for the different kinds of policies are given in the marginal table. Over four-fifths of the total amount is under endowment assurance policies, providing for payment of the sum assured at the end of the stipulated period or at the death of the life assured, if it occurs previously. Whole Life Policies come second in point of magnitude with a total of R33 lakhs.		
	Policies	Sums assured R(1,000)	Proportion to total Per cent.
	Whole Life	33,33	74
	Limited Payment	29,12	65
	Endowment Assurance	3,72,88	83.0
	Children's Endowments and other classes	13,73	3.1
	The average rate of annual premium payable under the policies issued by Indian companies is nearly $5\frac{1}{2}$ per cent of the sum assured.		
Sums assured	The total sums assured, including bonus additions under the policies (both old and new) in force at the end of the year 1919, was over R28 crores. This is over R3 crores, or 12 per cent, more than the corresponding amount at the end of the year 1918.		
Stamp duty on Policies	Prior to 1916 the minimum rate of stamp duty on policies was six annas for a policy insuring a sum not exceeding R1,000. In order to encourage industrial life insurance in India the duty was reduced in 1916 to two annas for policies of R250 and under, and four annas for policies of over R250 but not exceeding R500.		
Post Office Insurance Fund	The Post Office Insurance Fund was instituted by the Government of India for the benefit of the postal employees in 1885, and was extended to almost all the Civil Departments of Government with effect from 1898. This Fund does not come under the operation of the Indian Life Assurance Companies Act. The limit of Assurance permissible under the rules of this Fund, which was previously R4,000, has now been raised to R10,000 with effect from 25th November 1920. The salient features of the transactions of this Fund, which are not included in these tables of the Volume, are noted below :—

Part II

Principal Heads of Revenue,—Land Revenue,
Opium, Salt, Stamps, Excise, etc.

LAND REVENUE

[FOR TABLES, SEE PAGES 128 AND 129]

This section shows the details of land revenue receipts and expenditure. Five years' figures have been given in each table for each province.

The total land revenue, which represents nearly a quarter of the total revenue of India, is made up on the average of the last five years, chiefly of receipts under the heads stated in the margin. Receipts from the

	per cent.	
Ordinary land revenue	89.2	sale of proprietary right, waste lands, etc., and
Assessment of alienated lands less quit-rents	2.7	recovery of survey and settlement charges together
Capitation tax	2.8	amounted to 2 per cent. Land revenue due to irri-
Fisheries and miscellaneous revenue	3.3	gation amounts to R2 $\frac{3}{4}$ crores and represents about

8 per cent of the total land revenue, and is deducted therefrom to arrive at the net land revenue.

The ordinary land revenue amounts to about R31 $\frac{3}{4}$ crores, of which about R7 crores are contributed by Madras, R6 $\frac{1}{2}$ crores by the United Provinces, R4 $\frac{1}{4}$ crores by Bombay, R3 $\frac{1}{2}$ crores by the Punjab, about R3 crores by Burma, R2 $\frac{3}{4}$ crores by Bengal, nearly 2 crores by the Central Provinces and Berar, R1 $\frac{1}{2}$ crores by Bihar and Orissa, R $\frac{3}{4}$ crore by Assam, and about R $\frac{1}{4}$ crore by the North-West Frontier Province. The permanent settlement system obtains over the greater part of Bengal and Bihar, nearly a third of the Madras Presidency, some districts of the United Provinces, and a few other scattered tracts. In 1919-20 there was an increase of R216 lakhs over the preceding year.

Over 97 per cent of the receipts from assessment of alienated lands less quit-rents is contributed by the Bombay Presidency. The Punjab contributes about 2 per cent, while the share of Bengal is below 1 per cent.

Burma contributed 97 per cent of the capitation tax, the remaining 3 per cent being contributed mainly by Assam.

Burma is responsible for two-thirds of the receipts under fisheries and miscellaneous revenue. The Punjab and the United Provinces contribute R11 $\frac{1}{2}$ lakhs and 6 $\frac{1}{4}$ lakhs respectively. Bihar and Orissa, the North-West Frontier Province, Bengal, Bombay, Madras, the Central Provinces and Berar, and Assam, follow with shares varying from R4 $\frac{1}{2}$ lakhs to R1 $\frac{1}{2}$ lakhs each.

Land revenue due to irrigation is derived chiefly from Madras, the Punjab, the United Provinces, and Bombay. In the last five years this item of revenue has increased from R2,66 lakhs to R2,92 lakhs or by 10 per cent, the year under review (1919-20) showing an increase of about 2 per cent as compared with the preceding year.

The expenditure on land revenue (including district administration) is about 17 per cent of the receipts and represents about 4 per cent of the total expenditure. The detailed items are, on the five years' average,

	per cent	
Charges of district administration	46.1	stated in the margin. The expenditure on
District charges	25.0	district administration is highest in the United Pro-
Survey and settlements	11.4	vinces, which is answerable for over 19 per cent.
Allowances to district and village officers	9.8	Madras comes next with a share of 18 per
Commissions on collections	4.5	cent, Bombay accounts for about 17 per cent,
Management of Government estates and grazing		Bengal for 10 per cent, Burma and the Punjab
lands	2.2	for 9 per cent each, Bihar and Orissa for

for about 5 per cent, Assam for 3 per cent, and the North-West Frontier Province for about 2 per cent.

Bengal leads with a share of 29 per cent of the expenditure on survey and settlements, Madras accounts for 20 per cent, Bihar and Orissa for 14 per cent, the Punjab for 10 per cent, Burma and the Central Provinces and Berar for 7 per cent each, the United Provinces for 6 per cent, and Bombay and Assam for 2 per cent each.

The United Provinces account for nearly 25 per cent of the expenditure under district charges. Bombay comes next with 20 per cent, Madras with 19 per cent, the Punjab with 12 per cent, Burma with 10 per cent, and the Central Provinces and Berar 8 per cent.

Nearly the whole (96 per cent) of the charges on account of commissions on collection is incurred in Burma and Assam.

Madras is answerable for about 59 per cent of the expenditure under "Allowances to district and village officers," Bombay 23 per cent, and the Central Provinces and Berar about 18 per cent.

* Compiled from the Finance and Revenue Accounts of the Government of India

(a) Includes Ajmer-Merwara, Coorg, Bangalore, Baluchistan and Central India Agencies

(b) The chief reasons why the receipts under this head are so large in Burma and so small in Bengal are (1) the Burma figures of miscellaneous revenue include a large amount derived from petroleum, which does not occur in Bengal; (2) owing to the permanent settlement the Government receipts from fisheries in Bengal are very small as compared with those in Burma where there is no permanent settlement.

(a) In Bombay the settlement work is generally entrusted to ordinary administrative officers and not to officers specially appointed for the purpose as in other provinces

(b) In provinces other than Bombay this head shows charges on account of "supervision of land records" only, whereas in Bombay besides the supervision charges it includes other items, such as the cost of (1) Central Division Survey Party, (2) Alienation Office, Poona, (3) City Land Records Estate, and (4) special measurement operations and demarcation of waste lands in Sind

(c) Owing to the peculiar system of revenue collection in Burma and Assam the practice of collecting revenue by paying commission to the collecting agency is followed more largely in these provinces than elsewhere

FORESTS

[FOR TABLES, SEE PAGES 131 TO 150]

The tables in this section show statistics regarding State forests only, *i.e.*, lands administered as forests by the Forest Department of the Government of India under legal enactments for the time being in force dealing with forests. There are in British India immense forest areas outside the direct control of the Forest Department, which are managed by district officers, local boards or municipalities, or by private owners, statistics regarding which are not shown in these tables. Forest areas in Indian States also are not taken into account in these tables.

Classes of
forests

The forests under the direct control of the State are classed as "Reserved," "Protected," and "Unclassed" or "Public" forest lands. The "Reserved" forests are intended to be maintained permanently for the supply of timber, fuel, and other produce, or for the protection of the water-supply or other similar reasons. The "Protected" forests may be either in a state of transition to reserves or intended to remain permanently in the second class. In the former case it has been found necessary to prohibit within these areas certain acts harmful to the forest until such time as careful examination permits of a decision whether more stringent rules shall be enforced; and in the latter the object in view has been to provide for the more beneficial exercise of rights by local communities. The "Unclassed" or "Public" forest lands are those given over with even fewer restrictions (in some cases to the extent of exemption from the operation of forest law) for the use of the public.

Extent of
forests

Table No. 3 shows all State forest lands and proportion thereof to total area in British India in each year from 1900-01 to 1919-20. Out of the 250,949 square miles under State management in 1919-20, which is 23·2 per cent of the total area (1,080,814 square miles) of British India, 103,003 square miles or 9·6 per cent were reserved, 7,941 square miles or 0·7 per cent were protected, and the remaining 140,005 square miles or 12·9 per cent were unclassified.

Table No. 4 shows all State forest lands and proportion thereof to whole area in each province in each of the five years ending 1919-20. These provincial statistics show that in 1919-20, the percentage of forest land varied from 1·4 per cent in Baluchistan to 70·2 per cent in the Andamans. The largest area of unclassified forests occurs in those provinces where the population is scantiest; in fact Burma claims 115,890 square miles or about 83 per cent of the total area under this head, while Assam appropriates the bulk of the balance, *i.e.*, 16,250 square miles or 12 per cent.

Working
plans

Table No. 5 shows the progress of working-plans in each province in each official year from 1915-16 to 1919-20. Under the Forest Acts the Provincial Government deputes an officer who compiles a working-plan which regulates the amount and removal of outturn and prescribes the other requisite operations such as sowing, planting, thinning, and cleaning. Working-plans are generally compiled for periods of 20 to 40 years, after which revision or possibly the introduction of an entirely new system of management will be necessary. Statistics for 1919-20 show that 59,520 square miles or about 60 per cent of the area of reserved forests are worked under regular plans.

Financial
results

The direct value of forests to the State may be gauged by the financial results of their working as shown in tables Nos. 6 to 9. In 1919-20 the gross revenue collected through the agency of the Department amounted to R5,37 lakhs and the total expenditure to R3,18 lakhs, the net revenue being R2,19 lakhs or R87 per square mile of land under the control of the Forest Department. About 30 per cent of the total revenue is derived from Burma, while next in importance in this respect come the forests of Bombay, or the United Provinces and of Madras. The sale of wood produced R3,98 lakhs, minor produce R38 lakhs, and receipts from grazing R36 lakhs. The steady improvement in forest revenue is worthy of note. Between 1898 and 1903 it averaged R1,90 lakhs. In the last decade it had risen from R2,75 lakhs in 1910-11 to R5,37 lakhs in 1919-20. During the same period the expenditure had increased from R1,08 lakhs to R1,52 lakhs, and R3,18 lakhs, respectively. In 1918-19 the proportion of expenditure to gross revenue was about 60 per cent. Of the total expenditure about 39 per cent was spent on administration, and over 61 per cent on working, protection, and improvement.

The net revenue of the State forests has between 1900 and 1920 risen from R86 lakhs to R2,21 lakhs, and the yield is, as the result of protection and improvement, more than sufficient to meet increased demands on their produce. It may be added here that timber and other produce from State forests is given free (or at reduced rates) in large quantities to the people resident in the vicinity. In 1919-20 the value of these grants amounted on a very low estimate to about 14 per cent of the gross revenue collected from the State forests.

Forest
produce

Table No. 10 shows the total outturn from the forests under the control of the Forest Department in each province. It is generally, for the sake of convenience, classed under timber including fuel, bamboos, and other minor produce including grass and grazing, besides all those numerous products found or manufactured in a forest. In 1919-20 the total outturn of timber and fuel from State forests amounted to 340 million cubic feet; the average outturn per square mile varies considerably in the different provinces. The yield of minor produce (including bamboos) from State forests was valued in 1919-20 at about R1,29 lakhs, the chief items, besides bamboos, being grazing and grass, caoutchouc, lac and dyes, cutch and gambier, cardamoms, myrobalans, and other tanning materials.

Protection
of forest

Table No. 11 shows the results of protection of forests from fire and cattle and of grazing. Fire conservancy operations in British India extended in 1919-20 over 43,067 square miles, which is 44 per cent of the total area of reserves. The area closed to grazing amounted to 43,763 square miles, of which 23,083 square miles were in Burma, where cattle are few and vast tracts of waste land are still available outside reserves. The area closed to browsers, principally goats, amounted to 31,059 square miles, situated chiefly in the Bombay Presidency and the Central Provinces and Berar. The number of animals grazed was 6,910,149 on payment and 5,626,928 free.

FORESTS*

No. 3.—AREA (in square miles) of all FOREST LANDS and proportion thereof to total AREA in BRITISH INDIA in each year from 1900-01 to 1919-20

	Total Area in square miles	FOREST AREA, IN SQUARE MILES				Proportion of forest area to total area of British India
		Reserved	Protected	Unclassed State†	Total	
1900-01	948,348	88,140	10,488	109,741	208,369	21.97
1901-02	975,912	89,424	9,418	118,037	216,879	22.2

1910-11	1,016,282	96,387	8,507	138,584	243,478	23.9
1911-12	1,016,323	96,148	8,496	138,316	242,960	23.9
1912-13	1,024,435	96,867	8,492	133,564	238,923	23.3
1913-14	1,079,638	96,297	8,390	140,925	245,612	22.7
1914-15	1,079,149	97,580	10,405	141,882	249,867	23.15
1915-16	1,079,481	99,205	9,712	140,083	249,000	23.1
1916-17	1,078,585	100,308	9,140	137,131	246,579	22.9
1917-18	1,080,650	101,233	8,752	141,527	251,512	23.3
1918-19	1,080,794	101,639	8,557	141,272	251,468	23.3
1919-20	1,080,814	103,003	7,941	140,005	250,949	23.2

* Compiled from the Annual Statistics relating to Forest Administration in British India published by the Government of India and from Provincial Reports on Forest Administration.

† Unclassed State forests, or 'public forest lands' as they are often called, include in many provinces all unoccupied waste often entirely devoid of trees. So the statistics do not necessarily represent the wooded area.

FORESTS

OPIUM

[FOR TABLES, SEE PAGES 153 TO 165]

The region in which the poppy was cultivated in 1919-20 for the manufacture of "Bengal opium" Bengal opium comprised thirty-two districts in the United Provinces of Agra and Oudh. The whole Department has, with effect from the 29th September, 1910, been under the control of one Opium Agent, with headquarters at Ghazipur. At Ghazipur there is a Government factory where the crude opium is manufactured into the form in which it passes into consumption. The cultivation of the poppy and the manufacture of opium are regulated by Act, XIII of 1857, as amended by Act, I of 1911, and are under the general control of the Government and the Board of Revenue of the United Provinces and the immediate supervision of the Opium Agent at Ghazipur. The possession and transport of opium are regulated by rules framed under section 5, Act I of 1878 (the Indian Opium Act). Cultivation is permitted only under license granted under the authority of the Opium Agent. The area to be cultivated is fixed by the license, and the cultivator is bound to sell the whole of his production to the Opium Department at the rate fixed by Government. This rate was fixed in 1894-95 at Rs. 6 per seer of 70° consistency, which was raised to Rs. 7-8 per seer in 1913-14 and to Rs. 9 per seer in 1916-17. In 1920-21 it was fixed at Rs. 11 and for 1921-22 it has been raised to Rs. 15 per seer. Cultivators are granted an advance payment at the time of their executing agreements and sometimes a further payment (and occasionally more) before actual delivery. In March, April, and May the opium is made over to the officers of the Department and weighed and tested, and as soon as possible afterwards each cultivator's accounts are adjusted, and the balance due is paid to him. After weighing the opium is forwarded to the Government factory at Ghazipur, where it is manufactured in three forms—(a) opium intended for export to foreign countries, departmentally known as "provision" opium, (b) opium intended for consumption in India and Burma, departmentally known as "excise" opium, and (c) medical opium for export to London. Provision opium is made up in the form of balls or cakes, each weighing 3·5 lb, and is packed in chests, each chest containing forty cakes, weighing 140½ lb. It is generally of 71° consistency. Excise opium is made up in cubical packets, each weighing one seer, 60 of which are packed in a case. It is of 90° consistency. Medical opium is made up in cakes each weighing 2 lbs. at 87·50° consistency. Provision opium is sold by public auction in Calcutta. A notification is published annually, generally before the month of October, stating the minimum number of chests which will be put up for sale in each month of the next calendar year, and the quantities so notified are not altered without three months' notice. Sales are conducted month by month by the Bengal Government. 4,000 chests were notified for sale in 1920 for shipment to non-China markets. The number of chests actually sold was 2,320. In addition to this 3,000 chests were sold to the Government of the Straits Settlements, 2,900 to the Government of Netherlands Indies, 180 to the Government of Hongkong, 1,700 to Siam, and 192 to the Government of North Borneo. The duty levied by Government on each chest may be taken to be the difference between the average price realised and the average cost.

Under a convention made in 1815, the French Government has the right to purchase not more than 300 chests of opium each year, at the average price realised for the rest of the opium at the sales. This right has been commuted for a money payment, amounting to Rs. 8,000 a year, under agreements which at present remain in force until the 31st December, 1924. The agreement binds the French Government to take effective steps for the prevention of illicit traffic in opium between French and adjacent British territory.

The cultivation of the poppy is prohibited in British provinces other than the United Provinces, to a certain extent in the Punjab, and in some of the frontier provinces of Burma. The only licit supply of opium for internal consumption is what is known as "Bengal Excise Opium." This is supplied from the Ghazipur Opium Factory and from the Calcutta Presidency godowns to Government treasuries and depôts, whence it is issued, on payment, to licensed vendors and druggists only. In the accounts a sum, Rs. 20 per seer, out of the proceeds of this opium is credited under opium as representing the estimated cost of production. The remainder of the proceeds is credited under excise. The various provinces submit their indents through the Board of Revenue, United Provinces. These are forwarded to the Opium Agent, Ghazipur, and the quantity indented for is supplied direct from the Opium factory to the treasuries and Government depôts, and the issues are made from the latter to licensed vendors.

Malwa opium is almost entirely produced in the Indian States in the Central India and Rajputana Agencies and the Baroda State. In the Khairpur State (Sind) it is grown in the Khairpur taluka, but production is limited to the requirements of the State. A chest of Malwa opium contains 140 lbs. in weight. The opium is of 90° to 95° consistency and is usually packed in half-chests for convenience of carriage. Malwa opium

Rajputana and Central India.—In the Indian States of Rajputana and Central India the British Government does not control the cultivation of the poppy or the manufacture of opium or its local consumption. Malwa opium was imported into the Bombay Presidency for local consumption in British India as well as for exportation by sea to China, a duty, commonly called pass-duty, being levied by the British Government. This pass-duty constituted the British revenue from Malwa opium: and the rates varied from time to time. The importation of Malwa opium for local consumption in the Bombay Presidency has been discontinued with effect from the 1st April, 1912, the Presidency being supplied from Ghazipur. Under arrangements made between His Majesty's Government and the Government of China a fixed number of chests of Malwa opium could only be exported to China. The export has however, been prohibited since 1st January, 1914.

Baroda.—The cultivation of the poppy and the manufacture of opium are permitted in Baroda, under a State monopoly, for consumption in the State. The State has, by agreement, assimilated its retail system

OPIUM

and selling prices to those in force in adjacent British districts, and prevents the introduction of Baroda opium into British territory and into the territories of adjacent Indian States.

The following purchases of opium from the States of Central India and Baroda have been made by Government :—

	Mds. at 70°		Mds. at 70°
1912-13	6,247	1916-17	7,887
1913-14	20,502	1917-18	7,374
1914-15	13,551	1918-19	8,199
1915-16	20,812	1919-20	2,947

This opium is used for the preparation of excise opium.

Panjab and Burma.—The cultivation of opium is permitted in certain districts of the Punjab and Burma on a very limited scale for local consumption.

OPIUM*

NOTE.—The receipts in Bengal include the cost price of opium manufactured for the Excise Department, namely, the figures in the last column of the next table and the corresponding figures for preceding years. There was, however, one exception in 1871-72, when the cost price Rs. 15,49,950 was, by special arrangement, credited to Excise revenue

(a) Includes Rs. 20,535, being the allowances of a delegate to the International Opium Conference at Hague, and miscellaneous expenditure

(b) Represents the figures for "India General" only

NOTE—The term “ Patna Opium ” refers to the opium which was formerly manufactured at the factory at Patna under the supervision of the Bihar Opium Agent, and the term “ Benares Opium ” refers to opium manufactured at the factory at Ghazipur under the supervision of the Benares Opium Agent. The Patna factory was closed on the 31st December 1911
 (a) Inclusive of 70 chests sold to the Hongkong Government
 (b) The figures include the quantity of opium sold by Government direct to colonial Governments as shown in detailed table No. 23

No. 15.—The AUCTION AVERAGE PRICE (in rupees) per CHEST of BENGAL (PATNA and BENARES) OPIUM at each monthly GOVERNMENT SALE, the AVERAGE of the year, and the number of CHESTS SOLD, in each calendar year from 1911 to 1919

See note at foot of Table 14

NOTE.—This table gives the details which make up the total charges entered in table No. 12. They are for the official year and therefore do not correspond with the figures in the preceding table, No. 17, which are for the opium year

(a) Includes Rs. 73,36,902 on account of purchase of Malwa opium

(b) Includes Rs. 6,99,096 on account of purchase of Malwa and Baroda opium

(c) Includes Rs. 71,11,845 on account of purchase of Malwa and Baroda opium

(d) Includes Rs. 30,42,579 on account of purchase of Malwa opium

(e) Includes Rs. 10,74,890 on account of payments for special cultivation in Malwa

(f) Includes Rs. 12,72,892 on account of payments for special cultivation in Malwa

(g) Includes Rs. 7,32,345 on account of payments for special cultivation in Malwa

(h) Includes Rs. 29,664 on account of Opium Research Laboratory

NOTE.—(1) All opium imported into China reaches through Hongkong and Shanghai. But smuggling is extensively carried on between Hongkong and the adjacent coast above and below Canton and at other Chinese ports, and the net imports in the Chinese Customs Accounts state imperfectly the consumption of Indian opium.

(2) The figures under the head "other sorts" denote chiefly Persian, and boiled opium.

(3) See footnote to table No. 14.

(4) Large quantities of Indian opium were annually imported into China. By an Agreement between the Indian Government and China, entered into at the end of 1907, the former undertook to reduce the amount of opium exported from India by 5,100 Chests per annum, beginning from January 1, 1908, for a period of three years provided China reduced the production of native opium in the same ratio. Under a further Agreement, signed in May 1911 whereby "from the 1st day of January, 1911 China shall diminish annually for seven years the production of Opium in China in the same proportion as the annual export from India is diminished in accordance with the terms of this agreement * * * until total extinction in 1917" (Art. I).

* Mainly for consumption in the leased territory.

(a) Includes figures for Ningpo (a Central Port) up to 1896.

(b) Shows figures for the port of Shanghai only up to 1896.

(c) Includes figures for Wenchow and Hangchow (Central Ports up to 1896).

SALT

[FOR TABLES, SEE PAGES 170 TO 188]

Production. The total quantity of salt produced in India in 1919-20 amounted to over 41 million maunds (1,507,000 tons). This quantity was supplemented by about 13 million maunds (463,000 tons) of imported salt, the total quantity produced and imported amounting to about 54 million maunds (1,970,000 tons). Importation is practically limited to salt landed in Bengal and Burma from England and other countries in Europe, Aden, Italian East-Africa, and some Egyptian ports on the Red Sea. There is a trifling import by land by trans-Himalayan routes.

The localities in India where salt is produced, and the quantity produced in the years 1917-18, 1918-19 and 1919-20 are :

	1917-18 Maunds	1918-19 Maunds	1919-20 Maunds
Burma : on the coast from sea-water and in Upper Burma from brine wells	1,398,708	2,066,764	1,864,757
Bengal : educed in the process of refining saltpetre	942	547	275
Northern India :			
Sambhar lake, Rajputana	4,573,764	11,625,442	4,572,403
Other Rajputana brine-salt sources and Sultanpur	765,147	1,610,311	1,271,295
Khewra and other Salt Range mines, Punjab	3,880,146	4,798,385	4,402,247
Kohat and Mandi quarries	667,099	779,253	745,097
Educed in saltpetre refineries	138,987	141,378	90,730
	10,025,143	18,855,269	11,081,772
Central India (Datia, Gwalior), Rajputana and Kashmir	10,051	16,789	11,478
Sind : Moach (near Karachi), Saran, and Dilyar deposits	949,603	1,424,862	726,882
Bombay : on the coast and in the Runn of Kutch	12,247,955	12,958,058	12,872,669
Madras : on the east coast	11,052,658	16,620,434	14,470,545
TOTAL	35,685,060	51,942,723	41,028,378

In 1917-18 and 1918-19 the quantity of Government salt exceeded that of private salt but in 1919-20 the quantity of salt produced by private manufacturers exceeded the quantity manufactured by Government.

Sea salt on the coast of Burma is produced by a combination of solar evaporation and artificial heat and that on the coasts of Bombay, Sind, and Madras by solar evaporation. In Rajputana and Central India the salt is obtained by evaporation from brine deposits at Sambhar and other places. In the Punjab and Kohat, rock salt is obtained from the Salt Ranges and at Mandi, and brine salt from the sources at Sultanpur, near Delhi.

Consumption and revenue The figures below indicate the progress in consumption in the five years ending 1919-20 :

	Balance of issues and imports over exports Maunds (of 82½ lb each).	Net receipts R
1915-16	48,677,000	4,49,78,584
1916-17	50,334,000	6,24,85,557
1917-18	44,024,000	7,17,26,223
1918-19	52,199,000	4,62,02,831
1919-20	49,346,000	4,45,50,448

Administration The administrative system for the control of production and the collection of the revenue varies in accordance with local conditions and methods of production. Detailed information regarding the salt administration will be found in the 13th issue of the volume of Financial and Commercial Statistics. A brief account is given below.

Burma *Lower Burma.*—Salt is made at scattered points along the coast by the boiling of sea-water and, in a few places, of saline earth, in pots and cauldrons. Manufacture is permitted in ten districts only. In all these districts a system of direct taxation on output is in force. The present rate of import duty is R1-4 per maund.

Upper Burma.—In Upper Burma in 1890 a composition duty on the pots or cauldrons used in manufacture was fixed in substitution for previous systems. The duty on salt locally produced is less than the duty imposed on imported salt, viz., R1-4 per maund, and it is believed that it is not possible to level up the former to the latter without killing the local industry.

Bengal In October 1897 the administration of the Orissa Salt Department was made over from the Commissioner of Salt Revenue, Madras, to the Commissioner of Excoise under the Government of Bengal. Advantage was taken of the transfer to create a combined preventive establishment for the whole of Bengal littoral, and the Indian Salt Act, XII of 1882, was extended from the 9th April, 1898, to the districts of the 24-Parganas, Midnapur, Khulna, Backerganj, and Chittagong, the Bengal Act, VII of 1864, also remaining in force in them. In March, 1901, the Act was extended to the districts of Howrah and Noakhali. A proposal for the re-organisation of the Salt Department having been sanctioned by His Majesty's Secretary of State for India in February, 1905, preventive

Salt

operations were started in Chittagong and also in Noakhali in October, 1905, tentatively for three years. They were also inaugurated on an independent footing in Howrah, where they had been carried on tentatively since January, 1902, by a small party under the Inspector of the Tamruk (Terapukia) Circle in the district of Midnapur. There is no preventive establishment for the district of Backerganj. No salt is produced or manufactured in the province, except that educed in the process of manufacture at the saltpetre refineries in Calcutta and its suburbs which is subject to a duty of R1-4 a maund since the 1st March, 1916. In consequence of the territorial re-distribution on the 1st April, 1912, the administration of the Orissa Salt Department was made over to the Commissioner of Excise and Salt under the Government of Bihar and Orissa.

The following are the descriptions of salt now commonly imported into Bengal :

Manufactured by solar evaporation : from Bombay, Madras, Egyptian Red Sea ports, Aden, and Spain ;

Manufactured by boiling : from Liverpool.

The rate of duty per maund on salt in Bengal decreased from R3-4 in 1877 to R1 in 1907. The duty has been raised from R1 to R1-4 with effect from the 1st March, 1916.

From the creation of salt monopoly in 1765, a preventive establishment has been employed for the protection of the revenue, for the most part separate from and independent of the agency controlling the manufacture and sale of salt.

The control of the Salt Department in the saliferous tract of Cuttack, Balasore, and Puri in the Orissa Bihar and Division was, previous to the year 1897, under the Government of the Madras Presidency. There were at that time two Government factories for the manufacture of salt in this area, both on the Chilka Lake within the limit of the Puri district. These factories were closed, and the manufacture of salt discontinued in Orissa with effect from the 1st October, 1897, and the control of the Salt Department in Orissa was transferred to the Bengal Government from that date. With the creation of the new Province in 1912 the control of the Salt Department in Orissa was made over to the Commissioner of Excise and Salt, Bihar and Orissa, and on 1st October, 1916, the Orissa Salt establishment was amalgamated with the Provincial Excise establishment.

The control of the Salt Department in the Bihar districts rests with the Commissioner of the Northern India Salt Revenue Department, and figures for Bihar are included under Northern India. The only salt produced in Bihar is that educed in the process of manufacturing saltpetre. No salt is manufactured in Chota Nagpur.

There is no direct import from foreign countries into the province of Bihar and Orissa. Salt imported from foreign countries into Calcutta is re-imported into the bonded warehouses at Chandbally, duty on such salt being paid in Calcutta. Such salt is also brought by the private dealers in the rest of the province from Calcutta.

In Northern India salt is obtained by solar evaporation of surface and subsoil (canal, pit or well) brine at the Sambhar Lake (Jodhpur and Jaipur States), Didwana and Pachbadra (Jodhpur State) in Rajputana, and the small source of Sultanpur in the Gurgaon district of the Punjab ; while rock salt is obtained from the great Mayo mine in the Salt Range at Khewra in the Jhelum district of the Punjab, from smaller mines in the same Range at Kalabagh, Warcha, and Nurpur, from four quarries in Kohat, and two (yielding an impure salt) in the Mandi State in the hills north of Simla. A small quantity of inferior salt educed in the manufacture of saltpetre is also excised from refineries in the United Provinces, Bihar, and the Punjab.

The whole Inland Customs Department (now the Department of Salt Revenue in Northern India) is administered by the Commissioner of Northern India Salt Revenue, formerly responsible to each of the Local Governments and Administrations within whose jurisdiction the customs organization worked, but now immediately under the Government of India, with headquarters at Agra.

The Northern India Salt Revenue Department itself works the Government mines in the Salt Range and conducts the manufacture of brine salt at the Rajputana sources, which are leased from the Jodhpur and Jaipur Darbars. It also supervises the working of the Kohat quarries and the small brine-salt works at Sultanpur, where the output is the property of the miners or manufacturers, to whom its price is paid by the purchaser. At the Mandi quarries, which are owned and worked by the State and where a very impure salt is won with difficulty, an establishment is kept to watch the sales and issues on which is based the Government share of the special duty of $3\frac{1}{2}$ annas per maund levied.

A force designated the Internal Branch is maintained in the Punjab, the United Provinces, and Bihar, for the supervision of the saltpetre manufacture, the levy of duty on salt educed in the process, the control of the production of other saline substances, and the safeguarding of saline tracts.

With the exception of the inferior Mandi product all Northern India salt is now subject to the ordinary duty (at present R1-4-0 a maund) : salt educed in the manufacture of saltpetre has always been so subject. Except in the case of salt excised from saltpetre refineries, duty, and price also where payable to Government, are realised by requiring prepayment at an authorised treasury before a pass is granted. At the three sources of Khewra, Sambhar, and Pachbadra a purchaser by paying into an authorised treasury or post-office

Salt.

along with the duty and price an extra sum of 6 pies a maund (for Pachbadra 9 pies), can have his salt despatched to him by the Department. Otherwise salt is made over to the purchaser at the source.

In view of the large number of indents in hand, due mainly to reckless speculation in 1917, an order of the Government of India closed indenting by the general public on the major Northern India sources in November 1917, since when fresh indents have been accepted on those sources only from local authorities, State Darbars, and other recognised bodies distributing at controlled rates.

Sind

There are three salt sources in Sind from which salt is now issued to the public, namely, the Maurypur works and the Saran and Dilyar deposits. The Maurypur works, where salt is manufactured by solar evaporation, were opened in the year 1878, and from these the greater portion of the province is supplied. The works are situated on the Moach plain adjacent to the end of Karachi harbour, from which by channels the brine is obtained, reaching the storage wells by percolation through a richly saline soil which greatly increases the strength of it. In 1884 a depôt for the storage and sale of Maurypur salt was opened at Sukkur. Maurypur salt is supplied free of duty to the State of Khairpur, local manufacture there being suppressed. A depôt was opened at Karachi in 1916 for the sale of Maurypur salt to break up a ring of merchants who had monopolised the land transport between Maurypur and Karachi.

The Saran and Dilyar deposits were opened in 1879 and 1882, respectively. The salt is formed in a lake from which, when the water dries, salt is excavated and stored. It is supplied to the inhabitants of the neighbouring villages of the districts of Thar, Parkar and Hyderabad. Since 1917 considerable quantities have been supplied to the Punjab and Rajputana owing, originally, to the temporary failure of the sources of supply in Northern India. Supplies are still made but in smaller quantities. It is believed that the people of the Punjab and Rajputana appreciate the quality of the salt supplied from these deposits.

Bombay

Salt is produced in Bombay for local consumption and for export by land to Central India, Rajputana, the Central Provinces, the United Provinces, and the Nizam's territories, and by sea to the Malabar Coast of Madras and to Calcutta. Under existing arrangements, exports, both by land and sea, pay full excise duty in Bombay, with the exception of those to Travancore and Cochin on which a nominal charge of three pies per maund, only to cover the cost of establishment at the salt pans, is levied in accordance with a trade convention concluded with Travancore and Cochin in 1865.

Except in Gujarat, the excise system is followed, under which licenses are issued for private manufacture at approved places which are guarded, and whence no removals are allowed, except upon payment of duty, or under credit for payment. In Gujarat, where all the works in British territory are the property of Government, the monopoly system was introduced in 1873-74, and the manufacture was concentrated at two places—Kharaghoda on the borders of the Runn, and Dharásna on the sea coast of the Surat district. At Kharaghoda salt in large crystals is made from brine wells under departmental supervision, bought from the manufacturers as made, stored, and sold at the cost and risk of Government. At Dharásna the salt is ordinary sea-salt and Government merely fixes the price at which it is to be sold without taking it over or interfering directly with manufacture. A small quantity of salt is issued annually free of duty from the works at Kharaghoda to certain Indian States and Chiefs in pursuance of the arrangements for the establishment of the monopoly.

Fish-curing.—In order to reduce the hardship caused by the interference of the preventive operations of the Bombay Salt Department with the use of illicit salt and salt earth for fish-curing, yards for fish-curing at which salt is sold at 12 annas a maund were established at all important fishing centres along the coast. There were 32 yards in 1919-20.

Madras

There are two systems of salt manufacture in the Madras Presidency, under one of which the salt manufactured is sold to Government only and is disposed of by Government to the trade, whilst under the other, Government levies an excise duty, *plus* a small and varying cess to cover interest on capital cost of works, the property of Government, and the cost of any repairs effected by it on account of the licensees at the time of removal from the factory, and allows the manufacturers to make such arrangements as they please for the disposal of the salt. In both cases the production of salt is only allowed in well-fenced factories and subject to Government supervision, but, except in matters endangering the revenue, little interference is exercised in the details of manufacture under the excise system. The rate paid by Government for its salt varies, but it may be taken roughly at an anna and a half per maund. This is only the bare cost of manufacture and does not include the cost of works, storage, transport, etc. The duty on salt is ordinarily payable before the salt is removed from the factory, but six months' credit may be allowed to approved merchants on the deposit of security in Government promissory notes and a few other specified kinds of securities.

In Malabar no salt is manufactured, and that region is supplied by imports from Bombay, Goa, and other places.

By agreement the French Government undertakes to prevent the manufacture of salt throughout its possessions in India, and in consideration receives payments annually aggregating Rs. 4,41,600, and obtains its supply of salt at cost price. The authorities of the French settlements in Madras indent on the nearest British factories for the salt they require and undertake to sell it at the approximate prices charged in British territory. The correspondence is not complete because they sell by measure and not by weight.

Until 1865 the manufacture of salt was a Government monopoly in Travancore and Cochin, the selling price in Travancore being Rs. 1-1 a maund, and in Cochin annas 12. In that year both the States agreed to adopt the British Indian selling price of salt.

Fish-curing.—In order to reduce the hardship caused by the interference of the preventive operations of the Madras Salt Department with the use of illicit salt and salt earth for fish-curing, yards for fish-curing at which salt is sold at cost price (that is, cost of manufacture *plus* cost of transport from the factory) were established at all important fishing centres along the coast.

No. 26.

Quantity and Value (excluding duty) of Salt produced in India in each
official year from 1915-16 to 1919-20.

(a) Figures from 1907-08 relate to calendar year and they refer to the total estimated consumption

(b) Includes Eastern Bengal from 1905-06 to 1910-11

(c) Excludes Eastern Bengal from 1905-06 to 1910-11, but includes Orissa up to 1910-11

(d) Figures up to 1910-11 included under Bengal and figures up to 1917-18 relate to Orissa only

(e) Except salt exported to places in Bengal and the Madras Presidency

(f) Except salt exported by sea to places in Bengal and Burma

No. 32.—NET REVENUE (in rupees) from SALT in each PROVINCE, in each year from 1900-01 to 1919-20

(a) Per Lahori maund of 102½ lb up to 17th March, 1903

(b) Special rates charged at Gandajam and Ichapur (Suria) from 1874 to 1878

(c) This is the general selling price of Government salt, but there were also

other rates varying with the quality of salt

(d) Duty on imported salt

(e) Duty on salt in districts where the system of direct taxation is in force

(f) The price of salt at Khewrah was one anna and one pie, of the other mines in Cte-Indus Division 10 pies a maund up to 31st January, 1912, after which it was sold at one anna and one pie from Khewrah and one anna per maund from other mines. From 1st April, 1912, the price of salt throughout the Cte-Indus and Kalabagh Mines Division was 1 anna and 2 pies per maund. From 1st November, 1914, the price of salt was raised to 1 anna and 6 pies per maund.

(g) The rates exceed 3 annas at certain factories as a result of the sale of salt by auction

(h) There were also other rates varying with the quality of the salt and with reference to the auction sales. The prices ranged from 2 annas and 6 pies to

NOTE.—The figures of imports in columns 2 to 10 do not agree with those in the accounts of the seaborne trade of the Bengal Presidency, the former representing the net landings of salt from vessels, while the latter the gross amount of the import passes taken out whether the salt is landed or not

(a) Massawah salt which was formerly shown under heading "From other countries," is shown under heading "From Red Sea Ports" from 1913-14

(b) Includes figures for Chittagong Port

No. 35.—QUANTITY (in maunds of 82½lb) of GOVERNMENT and PRIVATE SALT SOLD for HOME and INLAND CONSUMPTION, REVENUE REALISED, AVERAGE WHOLESALE SELLING PRICE of LIVERPOOL SALT, and RATE of DUTY, in each year from 1900-01 to 1919-20

NOTE.—Pass stations having ceased to exist with the abolition of the Salt Rawana system in Bengal with effect from the 1st April, 1906, figures showing the proportion of duty-paid salt conveyed by different means of transport from Calcutta inland and to Orissa are no longer available. Instead, the despatch of salt by rail and boats from the Sulkea and Kidderpur golas is shown from the year 1906-07
(a) Includes exports from Chittagong

No. 37.—QUANTITY (in maunds of 82½lb) of SALT IMPORTED, in each year from 1911-12 to 1919-20

BIHAR AND ORISSA (a)

STAMPS

[FOR TABLES, SEE PAGES 190 TO 208]

The stamp revenue is derived from two great classes of stamps (1) judicial or court-fee stamps, and (2) non-judicial or revenue stamps. Judicial or court-fee stamps are provided for by the Court-fees Act, VII of 1870 and non-judicial stamps by the Indian Stamp Act, II of 1899. Both these Acts have been amended from time to time by subsequent legislation.

Classes of stamps

Two kinds of stamps—adhesive and impressed—are used to denote the payment of duty on instruments ; and impressed stamps are again of two classes, namely, impressed sheets, the paper bearing the impression of stamps of varying values engraved thereon, and impressed labels which are affixed to instruments by Government officers empowered to do so. The various classes of stamps with their values are :—

Unified postage and revenue stamps	Half-anna and one anna
Foreign bill stamps	from 2 annas to 6 rupees
Share-transfer stamps	10 "
Special adhesive stamps	1,000 "
Hundi stamped paper	15 "
Impressed non-judicial stamps	1,000 "
Adhesive court-fee stamps	1 anna 6 "
Impressed " "	10 rupees 1,000 "
Stamps for copies	2 annas 2 "

The revenue from stamps has increased steadily, as will be seen from the figures below :—

	Judicial	Non-Judicial	TOTAL
	R	R	R
Annual average 1878-79 to 1882-83	2,20,39,898	1,05,76,996	3,26,16,894
" " 1883-84 to 1887-88	2,53,38,468	1,14,60,348	3,67,98,816
" " 1888-89 to 1892-93	2,80,85,838	1,34,57,032	4,15,42,870
" " 1893-94 to 1897-98	3,19,19,232	1,49,75,448	4,68,94,680
" " 1898-99 to 1902-03	3,46,26,250	1,54,23,172	5,00,49,422
" " 1903-04 to 1907-08	3,97,16,153	1,93,06,120	5,90,22,273
" " 1908-09 to 1912-13	4,96,27,909	2,46,53,342	7,42,81,251
" " 1913-14 to 1917-18	5,77,61,268	2,88,71,198	8,66,32,466
In the year 1918-19	6,27,03,479	3,45,09,823	9,72,13,302
" " 1919-20	6,96,91,426	4,95,59,227	11,92,50,653

* Constituted a separate province out of the Punjab in 1912

(a) Statistics are for 6 months from October 1912 to March 1913

EXCISE

[For TABLES, SEE PAGES 210 to 250]

During the ten years ending with 1919-20 the net receipts from excise duties increased from R9,91,97,000 to R18,13,96,000, the increase being at the rate of 83 per cent. The receipts from opium (consumed in India, not exported) rose from R1,55,56,000 to R2,58,90,000, being at the rate of 66 per cent. The net receipts from liquors and from drugs other than opium (including miscellaneous receipts) rose from R8,36,40,000 to R15,55,05,000, the increase being at the rate of 86 per cent. The revenue from drugs (excluding opium) has risen in the ten years from R1,06,96,000 to R1,78,97,000, the increase being at the rate of 67 per cent.

The consumption that is, the taxation, works out to 12 annas and 1 pie per head of population in British India for 1919-20, as against, 6 annas and 11 pies for 1909-10. The consumption for 1919-20, province by province, is shown in the table below.

	Consumption per head. Rs. A. P.		Consumption per head. Rs. A. P.
India, General	0 5 9	Bihar and Orissa	0 5 11
Bengal	0 6 4	Burma	0 15 9
Madras	1 4 8	Central Provinces and Berar	1 0 11
Bombay	2 0 9	Assam	1 0 2
United Provinces	0 5 11	North-West Frontier Province	0 5 0
Punjab	0 9 11	Delhi	1 8 0
		AVERAGE	0 12 1

The figures formerly given in these tables were revised in 1905, owing mainly to the inclusion of the duty on Malwa opium realised in the Punjab from 1882-83, the exclusion of certain receipts on account of the Excluded Local Funds in the Central India Agencies from 1893-94, and the inclusion of the license and distillery fees and duties realised in the Military Department from 1897-98 and of the excise revenue for Bangalore from 1900-01, which had formerly been omitted from the head "India, general."

Until 1903-04 the receipts on account of license fees for *tari* and opium in the United Provinces were included under the head "Miscellaneous receipts." The figures for these provinces have since been revised and the receipts on account of license fees for *tari* are shown under the head of "spirits" and those for opium license fees under the head of "opium." The revision has been carried out for all the years except in the case of Allahabad, where the receipts prior to 1901-02 are not available.

NOTE.—Until 1903-04 receipts on account of license fees for *tari* and opium in the United Provinces were included under the head "Miscellaneous receipts." The figures for the United Provinces have now been revised and receipts on account of license fees for *tari* are shown under the head of "spirits" and those for opium license fees under the head of "opium." The revision has been carried out for all the years except in the case of Allahabad where the receipts prior to 1901-02 are not available

* Compiled from special official returns
† Except Bihar and Orissa

No. 90.

Receipts and Charges on account of spirits, Beer and Drugs (other than opium,) in each year from 1900-01 to 1919-20.

* Includes Coorg, Central India, Andaman and Nicobar Islands, Ajmer-Merwara, Baluchistan and Bangalore

† The figures include license and distillery fees and duties, etc., realised in the Military Department

‡ The increase in 1908-09 is due to the inclusion of receipts in Central India which were credited in former years to the Local Abkari Fund, which was abolished on 1st April 1908

§ This excludes Rs. 38,084 paid to Indore Durbar on account of Excise Compensation

	Bhang	R40-0-0 per maund on imports from other British Provinces. R80-0-0 per maund on imports from Foreign Territory.
	Opium, pure(b)	R22-0-0 per seer.
	Country spirit	R3-15-0 per gallon, 30° under proof on actual issue.
	Ganja	R17-8-0 per seer.
	Opium	R50-0-0
Coorg	Charas	R25-0-0
	Bhang	R0-8-0
		" "

(a) The difference between the cost price of R11-0 and the selling price in the North-West Frontier Province at present R27-8 per seer is reckoned as duty and classified in the accounts as "gain on sale-proceeds of excise opium."

(b) In Baluchistan only Government Excise Opium is allowed to be sold and the difference between the cost price (R11-0-0) and the selling price (R25 a seer) is reckoned as duty and classified in the accounts as "gain on sale-proceeds of excise opium."

PROVINCIAL RATES

[FOR TABLE, SEE PAGE 252]

This section (table No. 109) shows the details of revenue derived from Provincial Rates. The item of any importance now included under this head of revenue is the assessment on Wards' Estates for establishment charges in Bengal, Bihar and Orissa, the United Provinces, the Punjab, Assam, and the North-West Frontier Province, which contributed nearly 99 per cent of the total revenues derived from provincial rates in 1919-20. This is a rate levied under the Government Management of Private Estates Act, X of 1892, at 5 per cent on the gross income of private estates under Government management. The receipts under this item amounted to about Rs. 5,27,000 in 1919-20.

The total receipts amounted to over Rs. 5·3 lakhs in 1919-20 as compared with Rs. 4·2 lakhs in 1918-19. No expenditure was incurred anywhere on account of establishment and other charges in the quinquennium.

CUSTOMS REVENUE

[FOR TABLES, SEE PAGES 254 TO 263.]

The first two tables (Nos. 110 and 111) of the series state the amount of duty collected on imports and exports separately as credited in the Customs Houses. The others (Nos. 112 and 113) state the rates of duty imposed on all principal articles of merchandise by the schedules of the various Tariff Acts passed since 1882 and thus constitute a history of the legislation respecting customs duties since that year.

Indian Customs revenue is mainly derived from the general import duty, certain special import duties such as those on arms, liquors, sugar, petroleum, tobacco, etc., and export duties on rice, jute, and tea. General import duties, which were abolished in 1882, were reimposed in 1894, the general rate of duty on commodities imported into British India by sea being fixed at 5 per cent *ad valorem*. Cotton was exempted in 1894 when the general duties were revived; in December 1894, a 5 per cent *ad valorem* duty was imposed on imported cotton goods and yarns, while an excise duty of 5 per cent was imposed on all yarns of counts above 20 spun at power mills in British India; in February 1896, cotton yarns and threads imported or manufactured in India were freed from duty, while a uniform 3½ per cent *ad valorem* duty was imposed on all woven cotton goods imported or manufactured in India at power mills. The products of hand looms were exempted.

The schedules were largely modified with effect from March, 1916, by the Indian Tariff (Amendment) Act, IV of 1916. The general tariff rate of 5 per cent on imported articles, which remained unchanged from its imposition in 1894, was raised to 7½ per cent, the rate of one per cent on certain descriptions of iron and steel enhanced to 2½ per cent, special increased duties levied on arms and ammunition, sugar, petroleum, spirit, cigars, cigarettes and other manufactured tobacco, silver plate and other manufactures, and the number of articles on the free list was considerably curtailed by the imposition of import duties on previously free articles, *e.g.*, machinery (except cotton spinning and weaving), railway materials, food grains, coal, printing materials, etc. From 1st March 1921 by the amendment of the second schedule to the Indian Tariff Act, 1894, which was embodied in the Indian Finance Act, 1921,* the general *ad valorem* tariff rate on imported articles has been raised from 7½ to 11 per cent, a specific rate of duty of 12 annas per gross of boxes has been imposed on matches, and a duty of 20 per cent levied on certain articles of luxury such as confectionery, motor cars, etc. The special rates of duty on imported liquors, foreign sugar, and tobacco, other than manufactured tobacco, has been increased. Cotton machinery, hitherto free, has been brought under the 2½ per cent rate and metallic ores of all sorts made free. In the export trade rice was the only dutiable article, but from March 1916, export duties have also been levied on jute and tea; and with effect from 11th September 1919, an export duty of 15 per cent has been levied on raw hides and skins.

The revenue from the import and export duties in the five quinquennial periods ending 1896-97, 1901-02, 1906-07, 1911-12, and 1916-17, and in each of the years 1916-17 to 1919-20 is stated below :—

	Imports Rs.	Exports Rs.		Imports Rs.	Exports Rs.
Five years ending 1896-97 (average).	3,36,18,716	79,73,887	In the year 1916-17	9,90,22,612	2,47,11,791
„ 1901-02	3,91,39,251	87,23,338	„ 1917-18	11,99,59,712	3,32,48,424

„ 1916-17	8,66,75,276	1,37,06,090			

Under the Indian Tea cess Act, IX of 1903,† a duty at the rate of a quarter of a pie (one forty-eighth of an anna) per pound has been levied, from the 1st April, 1903, on all tea produced in India and exported from any customs port to any other beyond the limits of British India, the collections being paid to a Committee for promoting the sale and consumption of Indian tea. The collections since the institution of the cess have been :—

	Rs.		Rs.
Average, five years ending 1907-08	3,06,000	In the year 1915-16	4,44,000

Exception II.—The following are also free, namely:										
(a) Arms forming part of the regular equip-ment of an officer entitled to wear diplomatic, military, naval or police uniform;										
(b) A sword, a revolver, or a pair of pistols, when accompanying an officer of His Majesty's Regular Forces, or a commis-sioned officer of a volunteer corps, or certified by the commandant of the corps to which such officer belongs, or in the case of an officer not attached to any corps, by the officer commanding the station or district in which such officer is serving, to be imported by the officer for the purposes of his equip-ment; (1)										
(c) Swords and revolvers which are certified by an Inspector-General of Police to be part of the ordinary equipment of mem-bers of the Police force under his charge; (3) ‡										
(d) Swords forming part of the equipment of Indian commissioned officers of His Majesty's Army; (2)										
(e) Swords for presentation as army or volunteer prizes;										
(f) Arms, ammunition, and military stores imported with the sanction of the Government of India for the use of any portion of the military forces of a Native State in India which may be maintained and organised for Imperial Service; (4)										
(g) Morris tubes and patent ammunition when imported by officers commanding British and Indian regiments or volunteer corps, for the instruction of their men.										

* Act IV of 1916

† The following articles under this head were exempted from duty:

Arms which, having paid duty at Aden on import into that Settlement, are subsequently within three years imported into any Customs port of British India

Bows and arrows

Bullets, bird-shot, gun-wads, and wire cartridges (i)

Bullet-moulds

Ornamental arms possessing antiquarian value, provided the chief Customs authority is satisfied in each case that the arms are practically unserviceable, and that weapons intended for offensive or defensive purposes are not imported under cover of the exemption

(1) Notification No. 1864, dated 12th April 1889, as amended by Notification No. 1908, dated 8th May 1891

Dynamite, tonite, and detonators (ii)

(2) Notification No. 302, dated 2nd December 1890

(3) Notification No. 3521, dated 19th August 1891

(4) Notification No. 3028, dated 21st July 1892

(i) Bullets, bird-shot, gun-wads, and wire cartridges were again subjected to duty by Act VIII of 1894

(ii) Dynamite, tonite, and detonators were again subjected to duty by Act VIII of 1894 and classed as "Explosives" under Chemical Products and Preparations

‡ These rates were fixed by the Indian Arms Act, XI of 1878

NOTE (1)—The following articles exempted from duty in excess of 10 per cent *ad valorem* by Notification No. 3832, dated 26th June 1903:

Aim reflectors

Barrel cleaners or pulls-through

coolers

Brushes, jags, mops

Cleaning rods

Reflectors

Recoil pads or heel pads

Sight covers

Sights for guns or rifles

Sliding bars for sights

Turn screws

Ventometers or wind gauges

Verifiers or sight elevators

NOTE (2)—By the Commerce and Industry Department Notification No. 3798-90, dated the 27th May 1911, all articles, other than those specified below, liable to duty under head 5, 6, 8, 9, or 10, as the case may be, were exempted from so much of the duty leviable thereunder on importation into British India as is in excess of duty of 20 per cent *ad valorem*:—Main springs and Magazine springs, gun-stocks and breech blocks, actions (including skeleton and waster), breech bolts and their heads, cocking pieces, locks (for muzzle-loading arm), and machines for making, loading, closing or capping cartridges for rifled arms

1 by the Commerce and Industry Department Notification No. 2089-79, dated the 6th March, 1915, springs used for air-guns are exempted from the duty leviable thereon on importation into British India

CUSTOMS REVENUE

(256)

No. 112.—RATES of CUSTOMS DUTY imposed on IMPORTS into BRITISH INDIA under various ACTS (as modified by EXECUTIVE ORDERS), from 1882 to 1919—continued

NAMES OF ARTICLES	ACT XI OF 10TH MARCH 1882	ACT II OF 14TH JANUARY 1887	ACT II OF 10TH FEBRUARY 1888	ACT XII OF 21ST MARCH 1890	ACT IX OF 10TH AUGUST 1893	ACT VIII OF 10TH MARCH 1894	ACT XVI OF 27TH DECEMBER 1894	ACT III OF 3RD FEBRUARY 1896	ACT VIII OF 4TH MARCH 1910	ACT IV OF 8TH MARCH 1916
ARMS, AMMUNITION, AND MILITARY STORES— <i>continued</i> <i>Proviso 1.</i> —No duty in excess of twenty per cent <i>ad valorem</i> shall be levied upon any of the articles numbered 1 to 10 in the foregoing list when they are imported in reasonable quantity, for his own private use, by any person lawfully entitled to possess the same. <i>Proviso 2.</i> —When any articles which have been otherwise imported, and upon which duty has been levied or is leviable under numbers 1 to 10, are purchased retail from the importer by a person lawfully entitled as aforesaid, in reasonable quantity for his own private use, the importer may apply to the Customs-Collector for refund or remission (as the case may be) of so much of the duty thereon as is in excess of twenty per cent <i>ad valorem</i> ; and if such Collector is satisfied as to the identity of the articles, and that such importer is in other respects entitled to such refund or remission, he shall grant the same accordingly.

(a) Notification No. 1632, dated 10th April, 1896
(b) Salt imported from any port in British India and protected by the certificate of an officer empowered in that behalf, is chargeable with only the amount, if any, by which the duty leviable thereon exceeds the duty shown by such certificate to have been already paid.—(Act VIII of 1894, section 7)
(c) By Notification No. 343, dated 19th January, 1888
(d) By Notification No. 1542, dated 18th March, 1903, the duty was fixed at one rupee for each maund of 82½ pounds in the case of Burma, and two rupees for each such maund in the case of Bengal, Madras, Bombay, and Sind. The latter rate was reduced to Rs 1-8 on the 22nd March 1905, by Notification No. 1727 of the same date. This was further reduced to Rs 1 with effect from the 20th March 1907 by Notification No. 1748 of the same date. This rate was enhanced to Rs 1-4 with effect from the 1st March, 1916 by Notification No. 1545 of the same date. In case of Aden the duty is one rupee for each 140 lbs, avoirdupois
(e) Salt imported into Calcutta and issued with the sanction of the Government of Bengal to manufacturers of glazed stoneware is exempt from duty.—(Notification No. 4708, dated 18th September, 1894); also salt imported into British India and into any port in the provinces of Bengal and Bihar and Orissa and issued with the sanction of the Governor General in Council for use in curing fish in those provinces and any process of manufacture is exempt from duty (Act IV of 1916)
(f) On imports into Burma only
(g) Mother-of-pearl shells freed by Notification No. 4511, dated 29th October, 1896, but by Act IV of 1916 the duty was fixed at 7½ per cent
(h) By Notification No. 2898, dated 3rd July, 1896
(i) By Notification No. 9088-118, dated 30th September, 1908
(j) Duty on confectionery was fixed at 7½ per cent *ad valorem* by Act IV of 1916
(k) Includes flax twist and yarn, and manufactures of flax, haberdashery and millinery, hemp manufactures, hosiery, jute, twist and yarn and jute manufactures, excluding second-hand or used gunny bags, silk yarn, nolls, and warps, silk thread, silk piece-goods and other manufactures of silk, woollen yarn, knitting wool and other manufactures of wool, including felt, all other sorts of yarns and textile fabrics not otherwise specified
(l) Duty on firewood was fixed at 2½ per cent *ad valorem* by Act IV of 1916

(b) Provided that, subject to such condition as the Governor General in Council may by notification in the *Gazette of India* prescribe, a rebate shall be granted to the exporter of two-thirds of the duty levied on hides or skins exported to any part of His Majesty's dominions or of the territories of any Indian prince or chief under the suzerainty of His Majesty or in respect of which a mandate of the League of Nations is exercised by the Government of any part of His Majesty's dominions

(c) An additional customs duty of 2 as. per bale of 400 lbs. of Jute (raw) including jute cuttings and rejections; and of 12 as. per ton of 2,240 lbs., on manufactured jute are levied when exported by sea from the Port of Calcutta to any other port whether beyond or within India for the benefit of the Calcutta Improvement Trust (Bengal Act V of 1911)

(d) Proceeds paid to the Tea Cess Committee appointed under Section 4 of the Act. On the recommendation of this Committee the rate of one-quarter of a pie per pound was levied. From 1st May 1921, the rate of cess has been increased to four annas per hundred pounds

NOTE.—A cess of one rupee per maund of 82½ lbs. avoirdupois weight on Indigo produced in India and exported from any customs port beyond the limits of British India or to Aden has been levied from 1st April 1918, for the promotion of research in the interests of the indigo industry in India (Act III of 1918). With effect from April, 1921, the rate has been fixed at one rupee eight annas per hundredweight of 112 lbs. avoirdupois (Act V of 1921).

INCOME TAX

[FOR TABLES, SEE PAGES 266 TO 272]

History

The general income tax was first levied in 1860 to relieve the financial burdens of the immediately preceding years. The Act was on the English model and was to have effect for a period of 5 years. It ceased, therefore, to operate in 1865, but the financial position did not permit of direct taxation being abandoned. In 1867 an Act was therefore passed, imposing a license tax on professions and trades excluding agriculture, and the tax continued to be levied till the end of 1872-73. No further taxation was imposed until 1877 when a license tax was levied on traders and artisans to meet a portion of the Famine Insurance grant, and Acts were passed in 1878 for this purpose for the United Provinces, the Punjab, Bengal, Madras, and Bombay. These Acts remained in force until 1886. The license tax of 1878 was, however, converted into a general income tax by the Income Tax Act, II of 1886, applying to all India, which came into operation on the 1st April 1886. All sources of non-agricultural income were taxed. They were divided into four classes, namely, (1) Salaries and pensions, (2) Profits of Companies, (3) Interest on Securities, and (4) other sources. A general rate of 5 pies in the rupee (a little more than 2½ per cent) was levied on all incomes over R2,000 per annum, incomes between R500 to R2,000 derived from salaries and interest on securities were taxed at the rate of 4 pies in the rupee (a little over 2 per cent), and similar incomes derived from other sources were taxed at fixed rates according to classes. Incomes below R500 were not assessed with the result that the tax was collected from a very small proportion of the total population. Incomes derived from land and agriculture were exempted. Charities and religious endowments were also free from the tax. In 1903 the favourable financial conditions permitted the exemption from the tax of incomes between R500 and R1,000 per annum, that is to say, the taxable minimum of income was raised from R500 to R1,000 by the Indian Income Tax (Amendment) Act, XI of 1903, with effect from 1st April 1903. In 1916 the income tax was revised, raised, and graduated by the Income Tax (Amendment) Act (V of 1916) in order to meet the deficit arising out of war conditions. By this Act salaries and pensions between R1,000 and less than R2,000 were taxed at 4 pies in the rupee, those between R2,000 and less than R5,000 at 5 pies, those between R5,000 and less than R10,000 at 6 pies, those between R10,000 and less than R25,000 at 9 pies, and those amounting to R25,000 and upwards at one anna. Profits of companies and interest on securities were taxed at one anna in the rupee, but this was subject to abatement or exemption in the case of individual shareholders who could show that their total income was such as to warrant a lower rate of taxation or none at all. Other sources of income between R1,000 and less than R2,000 were taxed at fixed rates according to classes, and those amounting to R2,000 and above according to rates and scales similar to those fixed for salaries and pensions of like amounts. In 1918 a new Income Tax Act (VII of 1918) was passed, consolidating and amending the laws relating to Income-tax. By this Act the sources of taxable income were classified as (i) salaries, (ii) interest on securities, (iii) income derived from house property, (iv) income derived from business, (v) professional earnings, and (vi) income derived from other sources. Assessments are no longer made separately on different sources of income but on all sources combined. Agricultural income was exempted as before. The rates of tax imposed on all these classes of taxable income are the same as provided in Act V of 1916, except in the case of a company or a firm constituted under a registered instrument of partnership specifying the individual shares of the partners, the rate of tax for such a company or firm being one anna in the rupee (i.e., the maximum rate of income tax). In 1919 the taxable minimum of income was raised from R1,000 to R2,000 by the Indian Income Tax (Amendment) Act IV of 1919, with effect from 1st April 1919.

total tax and classification of income

The total proceeds of the tax in 1919-20 amounted to R11,22 lakhs as against, R8,17 lakhs in 1918-19. Of the total tax, excess and arrear collections amounted to R2,12 lakhs and the remaining R9,10 lakhs

	Total proceeds of tax (R 1,000)	Per cent of total
Bombay	3,46,18	30.9
Bengal	3,45,99	30.8
Madras	1,02,79	9.1
Burma	86,82	7.7
United Provinces	61,84	5.5
Punjab	44,63	4.0
Bihar and Orissa	24,34	2.2
C P. and Berar	22,88	2.0
Assam	7,39	.7
N.-W. Frontier Province	3,30	.3
Delhi and other Provinces and Departments of Government	75,61	6.8
TOTAL	11,21,77	100

were realised under the following six classes (i) salaries (mostly Government servants) yielded in 1919-20 R1,57 lakhs, (ii) interest on securities R37 lakhs, (iii) income derived from house property R20 lakhs, (iv) income derived from business R5,86 lakhs, (v) professional earnings R15 lakhs, and (vi) income derived from other sources nearly R94 lakhs. The marginal statement shows the total amount of income tax collected in each province with the proportion to the total amount collected in British India during 1919-20.

From Table No. 118 it is worked out that in Bombay every 691 persons account for one assessee with a non-agricultural income of not less than R2,000, in the Punjab (including Delhi) 915, in Burma 1,116, in Madras 1,212, in Assam 1,605, in the United Provinces 1,983, in Bengal 1,988, in the Central Provinces and Berar 2,017, and in Bihar and Orissa 3,897.

table of income

The marginal table shows the growth of the total collections and of the total estimated income

	Total collections of the tax Rs. (lakhs)	Total estimated income Rs. (lakhs)
1886-87	1.37	57.36
1902-03	2.10	87.75
1907-08	2.24	90.53
1912-13	2.53	1,02.19
1917-18	7.11	1,67.87
1918-19 (Final)	9.34	2,03.93
1919-20 (Preliminary)	8.76	1,77.74

on which the tax was assessed. Applying the rates of the tax to the total collections under the various classes as given in table No. 118, the total income roughly works out to R1,78 crores in 1919-20, as against R2,04 crores in 1918-19. The annual income of the tax-payers of the four lower classes comes to an average of R2,565, of the fifth and the sixth classes to R6,458; of the seventh to tenth classes to R13,783 and of the sixteen higher classes to R1,48,300, for each assessee.

INCOME TAX

The total collections comprise the actual tax collected in the year and the arrears of previous years. Table No. 11: Refunds are not deducted from the figures shewn as "collections" in these tables. They amounted to R12,62,953 in 1918-19 and R77,37,263 in 1919-20.

Taking the average incidence of taxation on the assesses, Bengal is first with R1,223 per head; then Incidence come successively Burma (R784), Bombay (R765), Madras (R303), the Central Provinces and Berar (R295), per head of the United Provinces (R249), Bihar and Orissa (R220), North-West Frontier Province (R218), the Punjab assesses (R213), and Assam (R187).

NOTE—(1) "Other Provinces and Departments of Government" include figures for Ajmer-Merwara, Bangalore, Coorg, Hyderabad, and Port Blair, the collections from the salaries of Government officers in the Military, Marine, Postal, Public Works, and Forest Departments, and the collections made by the Indo-European Telegraph Department, the Accountant General, Central Revenues from the salaries of the officers of the various Departments of the Government of India and from the interest on securities on account of the subordinate treasuries, together with the tax collected by the Public Works Department on account of the profits of certain Railway Companies

(2) The figures for 1918-19 refer to collections on adjustments and for 1919-20 to collections on assessments and they therefore do not agree with those given in table No. 114 which refer to actual collections during the year

(a) Returns of Income Tax collected by the Accountant General, Central Revenues, from salaries, etc. and interest on securities for 1919-20 were not received.

No. 116.—NUMBER and CLASSIFICATION of PERSONS ASSESSED TO INCOME TAX in the year 1918-19 (FINAL) after ADJUSTMENTS under section 19 of the INDIAN INCOME TAX Act, 1918, have been completed.

TRIBUTES FROM INDIAN STATES

[FOR TABLE, SEE PAGE 274]

The statistics of revenue recorded under this head represent tributes received from Indian States, in several cases as a result of exchanges of territory and settlement of claims, and contributions made chiefly in lieu of former obligations to supply or maintain troops, the latter constituting a small return for the duty undertaken by the Supreme Government in ensuring the peace of the country. The figures do not show any important fluctuations from year to year, except for arrears and their recovery and the levy of fees in some instances on succession (*nazarana*).

The total receipts are less than one per cent of the total Indian revenues. The tributes and contributions amount to about 90 per cent, and those for special military forces over 10 per cent, of the total receipts. Madras contributes over 48 per cent, India—General, which includes tributes and contributions from amongst others the Udaipur, Jaipur, Jodhpur, Kotah, Bundi, Bhopal, and Jowrah States, 22 per cent, Bombay 15 per cent, and Burma 5 per cent, of the total tributes from Indian States.

TRIBUTES FROM INDIAN STATES*

* Compiled from the Finance and Revenue Accounts of the Government of India

(a) Includes amongst others Jaipur, Kotah, Udaipur, Jodhpur, Bundi, Bhopal, and Jowrah States

(b) They are United Malwa Contingent (Jowrah), Deoloe Irregular Force (Kotah), Bhopal Contingent (Bhopal), Erinpura Irregular forces (Jodhpur), Malwa Bheel Corps, Battalion (Cochin), and Southern Mahratta Horse

INTEREST RECEIPTS

[FOR TABLE, SEE PAGE 276]

The interest receipts in this section (table No. 126) do not include interest on public works capital. The most important items included under interest receipts are (1) Imperial Loans and Advances to the Presidency Corporations and to Indian States; (2) Provincial Loans and Advances chiefly to mofussil municipalities and cultivators; and (3) investments. The amount of the interest accrued on Imperial Loans and Advances comes to 23 per cent, and on Provincial Loans and Advances 32 per cent, of the total receipts. The interest on Paper Currency investments contributes 27 per cent of the total. Another important item included under this head of revenue is the interest payable by the Railway Companies on overdrafts of capital. There are other minor items, such as interest on arrears of revenue and on advances to railway companies charged to capital, which are included under this head of revenue.

In 1919-20 the total receipts amounted to one per cent of the total Indian revenues. The average of the five years ending 1919-20 show that India—General, which includes the transactions of the Government of India, contributes over two-fifths of the receipts, Bombay about a sixth, the United Provinces of Agra and Oudh about one-eighth, Bengal one-ninth, and Madras about one-twelfth. In 1919-20 the total receipts in India amounted to R 202 lakhs as compared with R158 lakhs in the preceding year.

The statement in the margin shows the total interest receipts in India (converted into £ at the rate of R15=£1) in the last five years, together with those in England, and the total receipts both in India and in England. The receipts in England comprise (1) interest realised from investment of Cash Balance, (2) interest on India Debt, remaining unclaimed for ten years, repaid by the Bank of England and the Bank of Ireland, (3) interest on Paper Currency Reserve Investment, (4) interest on advances to the Imperial Bank of Persia for purposes of the Persian Government, (5) interest on investments on account of Discount Sinking Fund, and (6) interest and discount on Special Reserve.

	In India	In England	Total
	£	£	£
1915-16	392,333	204,084	1,096,417
1916-17	861,246	275,258	1,136,504
